The figures set out above in respect of the undated loan capital and dated loan capital of the Group have not been audited and take no account of liabilities between members of the Group.

The Junior Undated Floating Rate Notes (the “Junior Notes”) rank behind the claims against the Bank of depositors and other unsecured unsubordinated creditors and holders of dated loan capital. The three series of Undated Floating Rate Primary Capital Notes (the “Series 1 Notes”, the “Series 2 Notes” and the “Series 3 Notes”, respectively), the 8% Convertible Capital Notes, Series E (the “Series E Notes”), the 9.875% Undated Subordinated Notes, the 9% Permanent Interest Bearing Capital Bonds, the 7.875% Undated Subordinated Notes, the 6.5% Undated Subordinated Notes (the “6.5% Notes”), the 5.03% Reverse Dual Currency Undated Subordinated Notes (the “5.03% Notes”) and the 5% Reverse Dual Currency Undated Subordinated Notes (the “5% Notes”) rank behind the claims against the Bank of the holders of the Junior Notes. The Junior Notes, the Series 1 Notes, the Series 2 Notes, the Series E Notes, the 6.5% Notes, the 5.03% Notes and the 5% Notes are expressed in sterling at the exchange rates prevailing on 30th September, 1998. The Junior Notes, the Series 1 Notes and the Series 2 Notes bear interest at rates fixed in advance for periods of six months, the rate in force on 30th September, 1998 for the Junior Notes being 6 per cent., for the Series 1 Notes $5\frac{15}{16}$ per cent. and for the Series 2 Notes $5\frac{13}{16}$ per cent.. The Series 3 Notes bear interest at rates fixed in advance for periods of three months, the rate in force on 30th September, 1998 being $8\frac{5}{16}$ per cent.. The 6.5% Notes bear interest at 6.5 per cent. until 7th July, 2009. After that date the coupon will be FRF PIBOR plus 142 basis points and the rate will be fixed in advance for periods of three months. The 5.03% Notes bear interest at 5.03 per cent. until 28th April, 2028 based on a U.S. dollar principal amount of \$62,992,000 but the coupons have been swapped until then, resulting in an interest rate payable of Yen LIBOR plus 40 basis points (the rate in force on 30th September, 1998 being 1.07188 per cent.) and the rate is fixed in advance for periods of three months. After 28th April, 2028 the coupons will be Yen LIBOR plus 132 basis points and the rate will be fixed in advance for periods of six months. The 5% Notes bear interest at 5 per cent. until 30th October, 2028 based on a U.S. dollar principal amount of \$90,293,454 but the coupons have been swapped until then, resulting in an interest rate payable of Yen LIBOR plus 38 basis points (the rate in force on 30th September, 1998 being 1.05188 per cent.) and the rate is fixed in advance for periods of three months. After 30th October, 2028 the coupons will be Yen LIBOR plus 132 basis points and the rate will be fixed in advance for periods of six months.

The dated loan capital of the Bank has been issued on the basis that the claims thereunder against the Bank are subordinated to the claims of depositors and other unsecured unsubordinated creditors. The dated loan capital of BOIC and of Barclays North American Capital Corporation carries the guarantee of the Bank which is subordinated on a similar basis. Dated loan capital in foreign currencies is expressed in sterling at the exchange rates prevailing on 30th September, 1998. The Floating Rate Unsecured Capital Loan Stock 2006 bears interest at rates fixed in advance for periods of six months. The Floating Rate Subordinated Notes 2006 (DM), the Floating Rate Subordinated Notes 2006 (Yen), the Floating Rate Subordinated Notes 2008 (ITL), the Subordinated Floating Rate Notes 2008 (U.S.\$), the Subordinated Floating Rate Notes 2009 (U.S.\$), the Variable Floating Rate Subordinated Notes 2009 (Yen), the Floating Rate Unsecured Capital Loan Stock 2010 and the Floating Rate Subordinated Notes 2012 bear interest at rates fixed in advance for periods of three months. At 30th September, 1998 the rates in force were $7\frac{3}{4}$ per cent. on the 2006 Loan Stock, 3.73125 per cent. on the 2006 Notes (DM), 0.71719 per cent. on the 2006 Notes (Yen), $5\frac{3}{16}$ per cent. on the 2008 Notes (ITL), 5.9875 per cent. on the 2008 Notes (U.S.\$), 5.91375 per cent. on the 2009 Notes (U.S.\$), 0.73281 per cent. on the 2009 Notes (Yen), 7.18359 per cent. on the 2010 Loan Stock and 7.6375 per cent. on the 2012 Notes. The 4.875% Step-up Callable Subordinated Notes 2008 (the "Step-up 2008 Notes") bear interest at 4.875 per cent. until 1st April, 2003. After that date the coupon will be FRF PIBOR plus 82.5 basis points and the rate will be fixed in advance for periods of three months. The Bank has swapped the proceeds of the Step-up 2008 Notes for U.S. dollars under a swap the duration of which will match the term of the Step-up 2008 Notes. The payment obligations of the Bank under this swap are subordinated so that the claims against the Bank in respect of the swap rank *pari passu* with claims against the Bank in respect of its dated loan capital. The sterling value of the Step-up 2008 Notes in the figures set out above take into account this subordinated swap. The Fixed/Floating Rate Subordinated Notes 2011 bear interest at 3.09 per cent. until 5th December, 2006. After that date the coupon will be Yen LIBOR plus 110 basis points and the rate will be fixed in advance for periods of six months. The 5.5% Subordinated Notes 2013 bear interest at 5.5 per cent. until 12th March, 2008. After that date the coupon will be DM LIBOR plus 136 basis points and the rate will be fixed in advance for periods of three months. The 5.4% Reverse Dual Currency Subordinated Notes 2027 bear interest at 5.4 per cent. based on a U.S. dollar principal amount of U.S.\$130,867,222.22 but the coupons have been swapped, resulting in an interest rate payable of Yen LIBOR plus 10 basis points (the rate in force on 30th September, 1998 being 0.74063 per cent.) and the rate is fixed in advance for periods of three months. The coupons of the Guaranteed Notes 2007 have been swapped until March 2002, resulting in an interest rate payable until then of LIBOR plus 40 basis points, the rate in force on 30th September, 1998 being 0.81016 per cent.. After March 2002, the coupon on the 2007 Notes will be LIBOR plus 115 basis points. Both rates on the 2007 Notes are fixed in advance for periods of three months. The Bank issued on 9th October, 1998 U.S.\$100 million Floating Rate Subordinated Notes 2000. These Notes bear interest at rates fixed in advance for periods of three months, the rate currently in force being 5.62109 per cent.

The Series E Notes are convertible, at the option of the Bank, into 40,000,000 Non-cumulative Dollar-denominated Preference Shares, Series E of the Bank ranking *pari passu* with its existing Preference Shares; at the date of this document no Series E Notes have been so converted.

There has been no material change in the authorised and issued share capital of the Bank since 30th June, 1998 nor, save as mentioned above, has there been any material change in the undated loan capital and dated loan capital of the Group since 30th September, 1998.

Recent Developments

On 1st September, 1998, Barclays PLC announced details of the likely financial effect on the Barclays PLC group of companies (the "Barclays PLC Group") of the recent significant deterioration in the Russian economic environment and the consequent turmoil in the international capital markets.

On 31st August, 1998, the Bank and its subsidiaries had total Russian banking and net securities trading exposure of approximately £340 million, mostly held within Barclays Capital. The majority of this exposure was in the form of Russian government securities and financial institutions counterparty credit. The situation within the country continues to be highly volatile. The Bank expects to make a charge, taking account of collateral held, of the order of £250 million during the second half of 1998 to cover potential losses. The net effect on the Barclays PLC Group's 1998 profit attributable to shareholders after tax is expected to be some £150 million.

The impact of the situation in Russia on markets in general has had an adverse effect on trading elsewhere in Barclays Capital. Indications are that in July and August Barclays Capital lost approximately £75 million pre-tax in addition to the direct consequences of its Russian exposure.

On 28th September, 1998, a group of 14 major financial institutions including the Bank agreed to acquire approximately 90 per cent. of the equity of Long-Term Capital Portfolio, L.P. for a total investment of approximately U.S.\$3.59 billion. The Bank's share of this investment is U.S.\$300 million. Long-Term Capital Portfolio is a "hedge fund" the investments of which were managed by Long-Term Capital Management, L.P. and its affiliates.

In addition to the Bank's equity investment, Barclays Capital has a number of well-established financing and trading arrangements with Long-Term Capital Portfolio.

Note 1

The audited balance sheets as at 31st December, 1996 and 31st December, 1997 incorporated the classifications “Long-term assurance fund assets attributable to policyholders” and “Long-term assurance fund liabilities to policyholders”. For the purposes of the unaudited balance sheet as at 30th June, 1998, the classifications have been retitled “Retail life-fund assets attributable to policyholders” and “Life-fund liabilities to policyholders”.

The balances reported under the classifications adopted in the audited balance sheets incorporated certain funds of Barclays Global Investors which, following a reassessment, are more appropriately classified as funds under management. Accordingly, the balances reported under the classifications adopted in the 30th June, 1998 unaudited balance sheet exclude these funds and their related liabilities. If the audited balance sheets of 31st December, 1996 and 31st December, 1997 were stated on a comparable basis, life-fund assets and liabilities together with total assets and liabilities would reduce by £841 million and £2,228 million respectively.

Accounting Policy for last two years ended 31st December, 1997

General: The Accounts have been prepared on the historical cost basis of accounting. Unless otherwise indicated, assets and liabilities are stated at their face value.

Foreign Exchange: Assets and Liabilities in foreign currencies are translated into Dutch Guilders at year-end rates. Transactions denominated in foreign currencies are translated at rates prevailing on the date the transaction occurred. Exchange differences are taken directly to the profit and loss account.

Interest: Interest received and paid is accrued in the profit and loss account in the period to which it relates.

Swaps: Swaps are only being used to hedge interest and currency exposures. Interest income and expense relating to the interest and currency rate swaps are recorded in the period to which they relate, and are included as part of interest income and interest expense where swaps are being used to hedge interest and currency exposures. Where swaps are not used for hedging purposes interest income and expense are netted off and shown under other income.

Exchange rate differences between borrowed and on-lent funds are hedged through swap agreements. These differences are shown separately on the balance sheet as a Net Swap Position.
