Notes:

- (a) These figures take no account of liabilities between members of the Group. All loan capital is unsecured and, unless otherwise stated, unguaranteed. The majority of loan capital is prepayable at the option of the Bank, BOIC, BNACC or The Woolwich, as appropriate, subject to any necessary prior approval of the FSA.
- (b) Loan capital in foreign currencies is expressed in sterling at the exchange rates per £1 prevailing on 31st December, 2000 being: US\$1.4902; €1.6017; DM 3.1327; FRF 10.5065; ITL 3.108.0143; Yen 171.3198.
- (c) These Notes (the "Junior Notes") rank behind the claims against the Bank of depositors and other unsecured unsubordinated creditors and holders of dated loan capital.
- (d) These Notes rank behind the claims against the Bank of the holders of the Junior Notes.
- (e) These Notes rank behind the claims against the Woolwich of its depositors and other unsecured unsubordinated creditors and holders of its dated loan capital.
- (f) The dated loan capital of the Bank and The Woolwich has been issued on the basis that the claims thereunder are subordinated to the respective claims of their depositors and other unsecured unsubordinated creditors. The dated loan capital of BOIC and of BNACC carries the guarantee of the Bank which is subordinated on a similar basis.
- (g) These Notes bear interest at rates fixed periodically in advance based on London or European interbank rates.
- (h) These Notes bear a fixed rate of interest until 2009. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on European interbank rates.
- (i) These notes bear a fixed rate of interest until 2028 based on a U.S. dollar principal amount, but the coupons have been swapped, resulting in a Yen interest rate payable which is fixed periodically in advance based on London interbank rates. After that date, in the event that the Notes are not redeemed, the Notes will bear Yen interest at rates fixed periodically in advance based on London interbank rates.
- (j) These Notes bear a fixed rate of interest until 2003. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on European interbank rates.
- (k) These Notes bear a fixed rate of interest until 2006. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on London interbank rates.
- (l) These Notes bear a fixed rate of interest until 2008. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on London interbank rates.
- (m) These Notes bear a fixed rate of interest based on a U.S. dollar principal amount, but the coupons have been swapped, resulting in a Yen interest rate payable which is fixed periodically in advance based on London interbank rates.
- (n) The coupons on these Notes have been swapped until 2002, resulting in a Yen interest rate payable until then which is fixed periodically in advance based on London interbank rates. After that date, in the event that the Notes are not redeemed, the Notes will bear interest at rates fixed periodically in advance based on London interbank rates.
- (o) The Bank has swapped the proceeds of these Notes for sterling under three swaps the durations of which will match the respective terms of the Notes. The payment obligations of the Bank under these three swaps are subordinated so that the claims against the Bank in respect of the swaps rank *pari passu* with claims against the Bank in respect of its dated loan capital. The sterling values of these Notes in the figures set out above take into account these subordinated swaps.
- (p) These Notes are convertible, at the option of the Bank, into 40,000,000 Non-cumulative Dollar-denominated Preference Shares, Series E of the Bank ranking *pari passu* with its existing Preference Shares; at the date of this document no Series E Notes have been so converted.
- (q) These Notes are redeemable at the option of the Bank in 2008 and on every fifth anniversary thereafter. In the event that the Notes are not redeemed, the coupon will be reset to a fixed margin over a reference gilt rate for a further period of 5 years.
- (r) These Notes are redeemable at the option of the Bank up to and including October 2003 and on every tenth anniversary thereafter. In the event that the Notes are not redeemed, the coupon will be reset to a fixed margin over a reference gilt rate for a further period of 10 years.

- (v) These Notes bear a fixed rate of interest until 2012. After that date, in the event that the Notes are not redeemed, the coupon will be reset to a fixed margin over a reference gilt rate for a further period of 5 years.

On 5th January, 2001 the Bank issued €100 million Subordinated Floating Rate Notes due 2040. On 14th and 16th February, 2001 respectively, the Bank swapped the proceeds of its issues of €115 million Floating Rate Subordinated Notes 2002 and Yen 20 billion Floating Rate Subordinated Notes 2006 for sterling (£73 million and £119 million respectively) under two swaps the duration of which will match the respective terms of the Notes. The payment obligations of the Bank under these swaps are subordinated so that the claims against the Bank in respect of these swaps rank *pari passu* with claims against the Bank in respect of its dated loan capital. On 28th February, 2001 the Bank issued U.S.\$100 million Floating Rate Subordinated Step-up Callable Notes 2011. On 8th March, 2001 the Bank issued €1,000 million 5.75% Subordinated Notes due 2011. Note 1

Operating income and operating profit for the year ended 31st December, 2000 include £170 million and £64 million respectively relating to The Woolwich and its subsidiary undertakings from the date of acquisition.

Note 2

Changes to the Group's accounting policies have occurred following the adoption in 2000 of Financial Reporting Standard 15 "Tangible Fixed Assets" (FRS 15) and Financial Reporting Standard 16 "Current Tax" (FRS 16).

The Group has applied the transitional rules available under FRS 15. The revalued book amounts of fixed assets will be retained without subsequent revaluation subject to the requirement to test for impairment. This change has had no impact on reported profit or shareholders' funds.

In accordance with FRS 16 incoming dividends, interest and other income now exclude taxes, such as attributable tax credits, not payable wholly on behalf of the Group. This change in policy has resulted in a reduction in profit before tax for 1999 of £5 million with a commensurate reduction in the tax charge. Shareholders' funds are unchanged by this change in policy.

Note 3

The Group's share of the results of joint ventures and associated undertakings are shown separately below operating profit having previously been included in Other operating income.

the Principal Return Swap and the Swap Unit Agreement (each as defined in the Schedule) provide for termination payments to be made, inter alia, by reference to Market Quotation (as defined therein). In **Peregrine Fixed Income Limited (in liquidation) v Robinson Department Store plc [2000] C.L.C. 1328**, the court ruled that the commercial reasonableness of Market Quotation in any case must be determined by reference to Loss (as defined in the Swap Agreement), which must exclude from consideration the creditworthiness of the non-defaulting party, and that agreeing in advance that a way of calculating loss and damage is to be regarded as a genuine pre-estimate may not prevent the court overruling the parties' agreement if the actual loss is very different;
