Section D – Risks		
D.2	Key information on the key risks that are specific to the Issuer	<p>Business conditions and the general economy: Weak or deteriorating economic conditions or political instability in one or a number of countries in any of the Bank Group's main business markets or any other globally significant economy could have a material adverse effect on the Bank Group's operations, financial condition and prospects.</p> <p>Credit risk: The Issuer is exposed to the risk of suffering loss if any of its customers, clients or market counterparties fails to fulfil its contractual obligations. Credit risk and, consequently, the Bank Group's performance may also be adversely affected by the impact of deteriorating economic conditions (and their effects, including higher interest rates, falling property prices and potential instability or economic uncertainty) and risks relating to sovereign debt crises, Eurozone exit or a slowing or withdrawing of monetary stimulus. If some or all of these conditions arise, persist or worsen, they may have a material adverse effect on the Bank Group's operations, financial condition and prospects. In addition, the Issuer holds a significant portfolio of assets which (i) remain illiquid, (ii) are valued based on assumptions, judgements and estimates which may change over time and (iii) which are subject to further deterioration and write downs.</p> <p>Market risk: The Issuer is at risk from its earnings or capital being reduced due to changes in the level or volatility of positions in its trading books and being unable to hedge its banking book balance sheet at market levels. These risks could lead to significantly lower revenues, which could have an adverse impact on the Bank Group's operations, financial condition and prospects.</p> <p>Funding risk: The Bank Group is exposed to the risk that it may not be able to achieve its business plans due to: an inability to maintain appropriate capital ratios; or inability to meet its obligations as they fall due; or adverse</p>

changes in interest rates impacting structural hedges and/or the impact of changes in foreign exchange rates on capital ratios. These risks could have an adverse impact on the Bank Group's operations, financial condition and prospects.

Legal, competition and regulatory risk: The Bank Group is subject to extensive and comprehensive regulation under the laws of the various jurisdictions in which it does business. The Bank Group has also, in recent years, faced a risk of increased level of legal proceedings in these jurisdictions, in particular, the US. The Bank Group also faces existing regulatory and other investigations in various jurisdictions.

The Bank Group may incur significant additional expense in connection with existing and potential future legal and regulatory proceedings including for non-compliance by the Bank Group with applicable laws, regulations and codes. This could expose the Bank Group to: substantial monetary damages; loss of significant assets; other penalties and injunctive relief; potential for criminal prosecution in certain circumstances; potential regulatory restrictions on the Bank Group's business; and/or have a negative effect on the Bank Group's reputation, any of which could have an adverse impact on the Bank Group's operations, financial condition and prospects.

Regulatory risks: The regulatory environment in which the Bank Group operates is subject to significant levels of change. There is a risk that such changes to the regulatory environment may adversely affect the Bank Group's business, capital and risk management planning and/or may result in the Bank Group increasing capital, reducing leverage, deciding to modify its legal entity structure, deciding to change how and where capital and funding is deployed within the Bank Group, require the Bank Group to increase its loss-absorbing capacity and/or undertake potential modifications to Barclays' business mix and model (including potential exit of certain business activities). In addition, the risk of such regulatory change will continue to require senior management attention and consume significant levels of business resources.

The Bank Group faces significant regulatory scrutiny (for example in relation to systems and controls) in many of the jurisdictions in which it operates, particularly in the United Kingdom and the US. Non-compliance with the applicable laws, regulations or codes could lead to fines, public reprimands, damage to reputation, increased prudential requirements, changes to the Bank Group's structure and/or strategy, enforced suspension of operations or, in extreme cases, withdrawal of authorisations to operate, as well as costs relating to investigations and remediation of affected customers.

Conduct and Reputation risks: The Bank Group is exposed to the risk of inappropriate execution of its business activities or failures in corporate governance or management (for example, if Barclays were to provide funding or services to clients without fully implementing anti-money laundering, anti-bribery or similar controls), or the perception thereof, may cause detriment to customers, clients or counterparties and may lead to reputational damage and reduce the attractiveness of the Bank Group to stakeholders. This may, in turn, lead to negative publicity, loss of revenue, litigation, higher scrutiny and/or intervention from regulators, regulatory or legislative action, loss of existing or potential client business, reduced workforce morale, and difficulties in recruiting and retaining talent. Sustained conduct and reputational damage could affect the Bank Group's operations, financial condition and prospects.

Risk relating to United Kingdom bail-in power: The Bank Recovery and Resolution Directive grants supervisory authorities power to cancel all or a

		<p>portion of the principal amount of, or interest on, certain unsecured liabilities of a failing financial institution (which could include Securities issued by the Issuer hereunder), and/or to convert certain debt claims into another security, including ordinary shares. Under the Banking Act 2009 of the United Kingdom as amended, the bail-in option is introduced to enable the United Kingdom resolution authority to recapitalise a failed institution by allocating losses to its shareholders and unsecured creditors. There remains uncertainty regarding the specific factors which the United Kingdom resolution authority would consider in deciding whether to exercise the United Kingdom bail-in power. Holders of the Securities may have only limited rights to challenge any decision of the United Kingdom resolution authority exercising its United Kingdom bail-in power.</p>
<p>D.6</p>	<p>Key information on the key risks that are specific to the Securities; and risk warning that investors may lose some or all of the value of their investment</p>	<p>You may lose up to the entire value of your investment if the Issuer fails or is otherwise unable to meet its payment obligations.</p> <p>You may also lose the value of your investment if:</p> <ul style="list-style-type: none"> • the Underlying Warrant(s) (or the Underlying Warrant Reference Asset(s) and in turn the Underlying Warrant(s)) perform in such a manner that the redemption amount payable to you (whether at maturity or following an early redemption) is less than the initial purchase price and could be as low as zero; • you sell your Securities prior to maturity in the secondary market (if any) at an amount that is less than the initial purchase price; and/or • the Securities are redeemed early following the occurrence of an extraordinary event in relation to the Underlying Warrant, the Issuer, the relevant currencies or taxation (such as following an additional disruption event) and the amount you receive on such early redemption is less than the initial purchase price. <p>Risk of withdrawal of the public offering: In case of a public offer, the Issuer may provide in the Final Terms that it is a condition of the offer that the Issuer may withdraw the offer for reasons beyond its control, such as extraordinary events that in the determination of the Issuer may be prejudicial to the offer. In such circumstances, the offer will be deemed to be null and void. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.</p> <p>Reinvestment risk/loss of yield: Following an early redemption of your Securities for any reason, you may be unable to reinvest the redemption proceeds at an effective yield as high as the yield on the Securities being redeemed.</p> <p>Volatile market prices: The market value of the Securities is unpredictable and may be highly volatile, as it can be affected by many unpredictable factors, including: market interest and yield rates; fluctuations in currency exchange rates; exchange controls; the time remaining until the Securities mature; economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions; changes in laws or regulations; the Issuer's creditworthiness or perceived creditworthiness; and the performance of the relevant Underlying Warrant(s) (or the Underlying Warrant Reference Asset(s) and in turn the Underlying Warrant(s)).</p> <p>Securities are not 'principal protected': Upon maturity of your Securities, you may lose some or all of the capital that you invested, depending on the</p>

The performance of the Underlying Warrant Reference Asset(s) may be subject to fluctuations that may not correlate with other similar reference assets. Payments upon redemption will be calculated by the change in value of the Underlying Warrant(s) between 3 September 2015 and 26 August 2021. Any information about the past performance of the Underlying Warrant(s) and/or the Underlying Warrant Reference Asset(s) should not be taken as an indication of how prices will change in the future. You should also note that the market value of both your Securities and the Underlying Warrant(s) will be affected by the ability, and the perceived ability, of the Issuer to fulfil its obligations under the instruments. The impact of any inability, or perceived inability, of the Issuer in this regard may be greater in respect of the Securities as the Securities are linked to Underlying Warrant(s) that are issued by the Issuer and it may negatively affect both the value of the Underlying Warrant(s) and the value of your Securities.</p> <p>Risks associated with specific Underlying Warrant Reference Asset(s): As the Underlying Warrant Reference Asset is an equity index, the Underlying Warrant may be subject to the risk of fluctuations in market interest rates, currency exchange rates, equity prices, commodity prices, inflation, the value and volatility of the relevant equity index, and also to economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions, including factors affecting capital markets generally or the stock exchanges on which any such Underlying Warrant may be traded.
