What are the key risks that are specific to the Issuer?

The Barclays Bank Group has identified a broad range of risks to which its businesses are exposed. Material risks are those to which senior management pay particular attention and which could cause the delivery of the Barclays Bank Group's strategy, results of operations, financial condition and/or prospects to differ materially from expectations. Emerging risks are those which have unknown components, the impact of which could crystallise over a longer time period. In addition, certain other factors beyond the Barclays Bank Group's control, including escalation of terrorism or global conflicts, natural disasters, pandemics and similar events, although not detailed below, could have a similar impact on the Barclays Bank Group.

- Material existing and emerging risks potentially impacting more than one principal risk:** In addition to material and emerging risks impacting the principal risks set out below, there are also material existing and emerging risks that potentially impact more than one of these principal risks. These risks are: (i) the impact of COVID-19; (ii) potentially unfavourable global and local economic and market conditions, as well as geopolitical developments; (iii) the UK's withdrawal from the EU; (iv) the impact of interest rate changes on the Barclays Bank Group's profitability; (v) the competitive environments of the banking and financial services industry; (vi) the regulatory change agenda and impact on business model; (vii) the impact of climate change on the Barclays Bank Group's business; and (viii) the impact of benchmark interest rate reforms on the Barclays Bank Group.
- Credit and Market risks:** Credit risk is the risk of loss to the Barclays Bank Group from the failure of clients, customers or counterparties, to fully honour their obligations to members of the Barclays Bank Group. The Barclays Bank Group is subject to risks arising from changes in credit quality and recovery rates of loans and advances due from borrowers and counterparties in any specific portfolio. Market risk is the risk of loss arising from potential adverse change in the value of the Barclays Bank Group's assets and liabilities from fluctuation in market variables.
- Treasury and capital risk and the risk that the Issuer and the Barclays Bank Group are subject to substantial resolution powers:** There are three primary types of treasury and capital risk faced by the Barclays Bank Group which are (1) liquidity risk – the risk that the Barclays Bank Group is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes; (2) capital risk – the risk that the Barclays Bank Group has an insufficient level or composition of capital; and (3) interest rate risk in the banking book – the risk that the Barclays Bank Group is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities. Under the Banking Act 2009, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the United Kingdom Prudential Regulation Authority, the UK Financial Conduct Authority and HM Treasury, as appropriate as part of a special resolution regime. These powers enable the Bank of England (or any successor or replacement thereto and/or such other authority in the United Kingdom with the ability to exercise the UK Bail-in Power) (the "Resolution Authority") to implement various resolution measures and stabilisation options (including, but not limited to, the bail-in tool) with respect to a UK bank or investment firm and certain of its affiliates (as at the date of the Registration Document, including the Issuer) in circumstances in which the Resolution Authority is satisfied that the relevant resolution conditions are met.
- Operational and model risks:** Operational risk is the risk of loss to the Barclays Bank Group from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Model risk is the risk of potential adverse consequences from financial assessments or decisions based on incorrect or misused model outputs and reports.
- Conduct, reputation and legal risks and legal, competition and regulatory matters:** Conduct risk is the risk of detriment to customers, clients, market integrity, effective competition or the Barclays Bank Group from the inappropriate supply of financial services, including instances of wilful or negligent misconduct. Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Barclays Bank Group's integrity and competence. The Barclays Bank Group conducts activities in a highly regulated market which exposes it and its employees to legal risk arising from (i) the multitude of laws and regulations that apply to the businesses it operates, which are highly dynamic, may vary between jurisdictions, and are often unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Barclays Bank Group's businesses and business practices. In each case, this exposes the Barclays Bank Group and its employees to the risk of loss or the imposition of penalties, damages or fines from the failure of members of the Barclays Bank Group to meet their respective legal obligations, including legal or contractual requirements. Legal risk may arise in relation to any number of the material existing and emerging risks summarised above.

If this occurs, investors will receive an "Early Cash Settlement Amount" equal to the fair market value of the Securities prior to their redemption.

Certain additional limitations:

- Notwithstanding that the Securities are linked to the performance of the Underlying Asset(s), holders do not have any rights in respect of the Underlying Asset(s).
- The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, to monetise the Securities, to postpone valuation of the Underlying Asset(s) or scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the Underlying Asset(s), to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the Underlying Asset(s).
- The Securities contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law

The Securities will be governed by English law and the rights thereunder will be construed accordingly.

*The relevant Interest Payment Date may be postponed following the postponement of an Interest Valuation Date due to a disruption event.

The Interest Amount payable on each Security on each Interest Payment Date will be calculated in respect of each Interest Valuation Date and will depend on whether or not a Digital Down Trigger Event has occurred and is calculated as follows:

- (i) if a Digital Down Trigger Event has not occurred, the Interest Amount is calculated by multiplying the Fixed Interest Rate (being 1.25%) by the Calculation Amount; or
- (ii) otherwise, the Interest Amount is calculated by multiplying the Global Floor (being 0.00%) by the Calculation Amount.

Where:

A "Digital Down Trigger Event", in respect of an Interest Valuation Date, shall be deemed to have occurred if the closing price of the Underlying Asset on any Observation Date is below the Interest Barrier.

"Initial Price" means in respect of an Underlying Asset the closing level in respect of the Initial Valuation Date.

"Initial Valuation Date" means 22¹² February 2022, subject to adjustment.

B – Automatic Settlement (Autocall)

The Securities will automatically redeem if the closing price or level of the Underlying Asset divided by its Initial Price is at or above its corresponding Autocall Barrier Percentage in respect of any Autocall Valuation Date. If this occurs, you will receive an Autocall Cash Settlement Amount equal to the Calculation Amount multiplied by 100% payable on the Autocall Settlement Date corresponding to such Autocall Valuation Date. The relevant Autocall Settlement Date may be postponed following the postponement of an Autocall Valuation Date due to a disruption event.

If the Securities have not otherwise redeemed, each Security will be redeemed on the Scheduled Settlement Date by payment of the Final Cash Settlement Amount. The Scheduled Settlement Date may be postponed following the postponement of the Final Valuation Date due to a disruption event.

The Final Cash Settlement Amount is calculated as follows:

- (i) if the Final Performance is greater than or equal to the Strike Price Percentage ("SPP") or the Downside Final Performance is greater than or equal to the Knock-in Barrier Percentage (being 50%), 100% multiplied by the Calculation Amount;
- (ii) otherwise, an amount calculated by dividing the Downside Final Performance by the Strike Price Percentage (being 100%) and multiplying the result by the Calculation Amount.

¹² Amended by the Amended and Restated Final Terms dated 22 November 2021

"Downside Final Performance" or **"DFP"** means the Final Performance in respect of the relevant Downside Underlying Performance Type_(Settlement) and (as applicable) the relevant Downside Underlying Asset(s).

For the avoidance of doubt, references to the Underlying Performance Type_(Settlement) shall be construed as the Downside Underlying Performance Type_(Settlement) and references to, and the definitions of, Final Valuation Price, Final Valuation Date, Initial Price_(Settlement), and related terms shall be construed in respect of the relevant Downside Underlying Asset(s).

Status of the Securities

The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

Description of restrictions on free transferability of the Securities

The Securities are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with transfer restrictions with respect to the United States. Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system. Subject to the foregoing, the Securities will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of the Irish Stock Exchange Trading plc as Euronext Dublin.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- **You may lose some or all of your investment in the Securities:** The terms of the Securities do not provide for a scheduled minimum payment at maturity and as such, depending on the performance of the Underlying Asset(s), you may lose some or all of your investment. You may also lose some or all of your investment if: (a) you sell your Securities before their scheduled maturity or expiry; (b) your Securities are early redeemed in certain extraordinary circumstances; or (c) the terms and conditions of your Securities are adjusted such that the amount payable or property deliverable to you is less than your initial investment.
- **There are risks associated with the valuation, liquidity and offering of the Securities:** The market value of your Securities may be lower than the issue price since the issue price may take into account the Issuer's and/or distributor's profit margin and costs in addition to the fair market value of the Securities. The market value of your Securities may be affected by the volatility, level, value or price of the Underlying Asset(s) at the relevant time, changes in interest rates, the Issuer's financial condition and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity or expiry of the Securities and other factors. The price, if any, at which you will be able to sell your Securities prior to maturity may be substantially less than the amount you originally invested. Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption.
- **You are subject to risks associated with the determination of amount payable under the Securities:**

The Interest Amount is either a higher pre-determined Interest Amount or zero, depending on whether the performance criteria are met. It is possible that you will not receive any interest at all over the lifetime of the Securities.

The Final Cash Settlement Amount is based on the performance of the Underlying Asset(s) as at the final valuation date only (rather than in respect of multiple periods throughout the term of the Securities). This means you may not benefit from any movement in level of the Underlying Asset(s) during the term of the Securities that is not maintained in the final performance as at the final valuation date.

As the Final Cash Settlement Amount is subject to a cap, the value of or return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) directly.

The calculation of amount payable depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities. This means you may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases you might receive no interest or coupon payments and/or could lose some or all of your investment.
- **Your Securities are subject to adjustments and early redemption:** Pursuant to the terms and conditions of the Securities, following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, the Determination Agent or the Issuer may take a number of remedial actions, including estimating the level of the Underlying Asset, substituting the Underlying Asset, and making adjustments to the terms and conditions of the Securities. Any of such remedial action may change the economic characteristics of the Securities and have a material adverse effect on the value of and return on the Securities. If no remedial action can be taken, or it is determined that the performance of any of the Issuer's obligations under the Securities is unlawful or physically impracticable, the Issuer may early redeem the Securities by payment of an Early Cash Settlement Amount. If early redemption occurs, you may lose some or all of your investment because the Early Cash Settlement Amount may be lower than the price at which you purchase the Securities, or may even be zero. You will also lose the opportunity to participate in any subsequent positive performance of the Underlying Asset(s) and be unable to realise any potential gains in the value of the Securities. You may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest or coupon rate for a similar level of risk.

Settlement is subject to conditions and may be impossible in certain circumstances: Payment of the amount payable to you will not take place until all conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Certain settlement disruption events may occur which could restrict the Issuer's ability to make payments, and the date of settlement could be delayed accordingly.

Your Securities are subject to foreign exchange risks: Payment under the Securities will be made in a Settlement Currency which is different from the currency of the Underlying Asset(s) and/or may be different from your home currency. You will be exposed to the risk of foreign exchange rate fluctuations between the Settlement Currency and your home currency, the currency of the Underlying Asset(s) and/or the Issue Currency. These fluctuations may decrease the value of the Securities.

Certain specific information in relation to the Securities is not be known at the beginning of an offer period: The terms and conditions of your Securities only provide an indicative amount. The actual amounts will be determined based on market conditions by the Issuer on or around the end of the offer period. There is a risk that the indicative amounts will not be same as the actual amount, in which case, the return on your Securities may be materially different from the expected return based on the indicative amount.

Risks relating to Underlying Asset(s) that are equity indices: Equity indices are composed of a synthetic portfolio of shares and provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. The Securities are linked to equity indices, and as such may not participate in dividends or any other distributions paid on the shares which make up such indices. Accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares. The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.

The Underlying Asset(s) are 'benchmarks' for the purposes of the EU Benchmarks Regulation (Regulation (EU) 2016/1011, as amended): Pursuant to the Benchmarks Regulation, an Underlying Asset may not be used in certain ways by an EU supervised entity after 31 December 2021 if its administrator does not obtain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision or is not "endorsed" by an EU supervised entity).

- **Taxation risks:** The levels and basis of taxation on the Securities and any reliefs for such taxation will depend on your individual circumstances and could change at any time over the life of the Securities. This could have adverse consequences for you and you should therefore consult your own tax advisers as to the tax consequences to you of transactions involving the Securities.
- **Potential conflicts of interest:** Conflicts of interest may exist where Barclays Bank PLC or its affiliate: (i) acts in multiple capacities with respect to the Securities (e.g. acting as issuer, manager and determination agent) [and the Barclays Index (e.g. acting as index sponsor, index administrator, licensing agent, and/or publisher)]; (ii) enters into hedging transactions to cover the Issuer's exposure to the relevant cash amounts to be paid or assets to be delivered under the Securities as these fall due; and (iii) uses price contributions from its trading desks as a pricing source for an Underlying Asset. In light of such conflicts, the actions taken or determinations made by Barclays Bank PLC in relation to the Securities may not always be in the best interest of the holders. In addition to hedging transactions, Barclays Bank PLC may trade on the Underlying Asset(s) in the ordinary course of its business. Such trading could affect the market price of the Underlying Asset(s), which may in turn materially adversely affect the value and return on your Securities.

* A Data de Pagamento de Juros relevante pode ser adiada após o adiamento de uma Data de Avaliação de Juros devido a um evento de interrupção.

O Montante de Juros a pagar por cada Valor Mobiliário na Data de Pagamento de Juros será calculado relativo à Data de Avaliação de Juros e irá depender se o Evento Digital Down Trigger tiver ocorrido e será calculado conforme o seguinte:

1. se um Evento Digital Down Trigger não ocorreu, o valor dos juros é calculado multiplicando a Taxa de Juros Fixa (sendo 1.25%) pelo Montante de Cálculo; ou
2. caso contrário, o valor dos juros é calculado pela multiplicação do Limite mínimo global (sendo 0.00%) pelo Montante de Cálculo.

Onde:

Um Evento Digital Down Trigger, em relação a uma Data de Avaliação de Juros, será considerado como tendo ocorrido se o preço de fecho do Ativo Subjacente em qualquer Data de Observação estiver abaixo da Barreira de Juros.

“Preço Inicial” significa em relação ao Ativo Subjacente, o nível do fecho na Data de Avaliação Inicial.

“Data de Avaliação Inicial” significa 22¹⁸ de fevereiro de 2022, sujeito a ajustamento.

B - Liquidação automática (Autocall)

Os Valores Mobiliários serão resgatados automaticamente se o preço de fecho ou nível do Ativo Subjacente dividido pelo seu Preço Inicial for igual ou superior ao seu correspondente Percentagem da Barreira para Autocall em relação a uma Data de Avaliação para Autocall. Se tal ocorrer, receberá um Montante para Autocall em Numerário igual ao Montante de Cálculo multiplicado por 100%, pagável na Data de Liquidação para Autocall, correspondente a essa Data de Avaliação para Autocall. A Data de Liquidação para Autocall relevante pode ser adiada após o adiamento de uma Data de Avaliação para Autocall devido a um evento de interrupção.

"Preço de Avaliação para Autocall" significa, em relação a uma Data de Avaliação para Autocall e ao Ativo Subjacente, o preço de fecho desse Ativo Subjacente nessa Data de Avaliação para Autocall.

C - Liquidação final

Se os Valores Mobiliários não tiverem sido resgatados de outra forma, cada Valor Mobiliário será resgatado na Data de Liquidação Programada mediante o pagamento do Montante Final da Liquidação em Numerário. A Data de Liquidação Programada pode ser adiada após o adiamento da Data de Avaliação Final devido a um evento de interrupção.

O Montante Final da Liquidação em Numerário é calculado da seguinte forma:

- (iii) se o Desempenho Final for igual ou superior ao Strike Price em Percentagem ("SPP") (sendo 100%) ou se o Desempenho Final *Downside* for igual ou superior à Barreira de Knock-in em Percentagem (sendo 50%), 100% multiplicado pelo Montante de Cálculo;

<p>Situação dos valores mobiliários: Os Valores Mobiliários são obrigações diretas, não subordinadas e não garantidas da Emissora e têm a mesma classificação entre si.</p>
<p>Descrição das restrições à livre transferibilidade dos Valores Mobiliários:</p> <p>Os Valores Mobiliários são oferecidos e vendidos fora dos Estados Unidos a pessoas fora dos EUA, de acordo com o Regulamento S, de acordo com a Lei de Valores Mobiliários, e devem cumprir as restrições de transferência com relação aos Estados Unidos. Os valores mobiliários mantidos num sistema de compensação serão transferidos de acordo com as regras, procedimentos e regulamentos desse sistema de compensação. Sujeito ao acima exposto, os Valores Mobiliários serão livremente transferíveis.</p>
<p align="center">Onde serão os Valores Mobiliários negociados?</p>
<p>É esperado que o Emitente (ou em seu nome) solicite que os Valores Mobiliários sejam admitidos à negociação no mercado regulamentado da Irish Stock Exchange Trading plc como Euronext Dublin.</p>
<p align="center">Quais são os principais riscos que são específicos aos Valores Mobiliários?</p>
<p>Os Valores Mobiliários estão sujeitos aos seguintes riscos principais:</p> <p>Poderá perder parte ou todo o seu investimento nos Valores Mobiliários: Os termos dos Valores Mobiliários não preveem um pagamento mínimo programado ao atingir a maturidade, como tal, dependendo do desempenho dos Ativo(s) Subjacentes, poderá perder parte ou todo o seu investimento. Também poderá perder parte ou todo o seu investimento se: (a) vender os seus Valores Mobiliários antes do seu vencimento ou maturidade programada; (b) os seus Valores Mobiliários devem ser resgatados antecipadamente em determinadas circunstâncias extraordinárias; ou (c) os termos e condições dos seus Valores Mobiliários sejam ajustados de modo que o valor a pagar ou a propriedade a entregar seja menor que o seu investimento inicial.</p> <p>Existem riscos associados à avaliação, liquidez e oferta dos Valores Mobiliários: O valor de mercado dos seus Valores Mobiliários pode ser menor que o preço de emissão, uma vez que o preço de emissão pode ter em consideração a margem de lucro e os custos do Emitente e/ou distribuidor, além do valor justo de mercado dos Valores Mobiliários. O valor de mercado dos seus Valores Mobiliários poderá ser afetado pela volatilidade, nível, valor ou preço dos Ativo(s) Subjacentes no momento relevante, por alterações às taxas de juros, pela condição financeira e classificações de crédito do Emitente, pela oferta e procura dos Valores Mobiliários, o tempo restante até o vencimento ou maturidade dos Valores Mobiliários e outros fatores. O preço, se algum, pelo qual poderá vender os seus Valores Mobiliários antes da maturidade pode ser substancialmente menor do que o valor que investiu inicialmente. Os seus Valores Mobiliários poderão não ter um mercado de negociação ativo e o Emitente poderá não ter nenhuma obrigação de criar um mercado ou de voltar a comprar os Valores Mobiliários antes do resgate.</p> <p>Está sujeito a riscos associados à determinação do montante a pagar sob os Valores Mobiliários:</p> <p>O Montante dos Juros em que um valor de juros pré-determinado superior ou zero, dependendo se os critérios de desempenho tiverem sido atendidos. É possível que não receba juros durante toda a vida útil dos Valores Mobiliários.</p> <p>O basket Final Cash Settlement Amount é baseado no desempenho do (s) Ativo (s) Subjacente (s) apenas na data de avaliação final (em vez de em relação de vários períodos ao longo do termo des. Isto significa que, você não possa se beneficiar de qualquer movimento no nível do (s) Ativo (s) Subjacente (s) durante o prazo dos Valores Mobiliários que não seja mantido mesmo no desempenho final no fim da data de avaliação final.</p> <p>Uma vez que o custo como um todo pode ser negativo, o Montante de Liquidação Financeira Final está sujeito a um limite, o valor ou o retorno dos seus Valores Mobiliários pode ser significativamente inferior do que se o desempenho tivesse adquirido o (s) Ativo (s) Subjacente (s) diretamente.</p> <p>O cálculo do valor a pagar depende do nível, valor ou preço do (s) Ativo(s) Subjacente(s) que atingem ou cruzam uma 'barreira' durante um período especificado ou datas especificadas durante o prazo dos outros constituintes é negativo em maior medida. Isso significa que você pode receber menos (ou, em certos casos, mais) se o nível, valor ou preço do (s) Ativo(s) Subjacente(s) cruzar ou atingir (conforme o caso) uma barreira, do que se chegar perto da barreira, mas não o alcança ou cruza (conforme aplicável) e, em certos casos, você pode não receber nenhum pagamento de juros ou cupão e/ou pode perder parte ou todo o seu investimento.</p> <p>Os seus Valores Mobiliários estão sujeitos a ajustes e ao resgate antecipado: De acordo com os termos e condições dos Valores Mobiliários, após a ocorrência de certos eventos de interrupção ou eventos extraordinários relacionados com o Emitente, os seus acordos de cobertura de posições, Ativos</p>

Subjacentes, tributação ou a divisa relevante dos Valores Mobiliários, o Agente de Determinação ou o Emitente poderão tomar um conjunto de ações corretivas, incluindo a estimativa do nível do Ativo(s) Subjacente, substituição dos Ativo(s) Subjacentes e ajustes nos termos e condições dos Valores Mobiliários. Qualquer uma dessas medidas corretivas pode alterar as características económicas dos Valores Mobiliários e ter um efeito adverso relevante no valor e no retorno dos Valores Mobiliários. Se nenhuma ação corretiva puder ser tomada ou se for determinado que o desempenho de qualquer uma das obrigações do Emitente sob os Valores Mobiliários é ilegal ou fisicamente impraticável, o Emitente poderá resgatar antecipadamente os Valores Mobiliários mediante o pagamento de um Valor de Liquidação Antecipada. Se ocorrer um resgate antecipado, poderá perder parte ou todo o seu investimento porque o Montante da Liquidação Antecipada em Numerário poderá ser menor que o preço pelo qual comprou os Valores Mobiliários, podendo inclusive ser zero. Perderá também a oportunidade de participar em qualquer desempenho positivo subsequente dos Ativos Subjacentes e não poderá obter quaisquer ganhos potenciais no valor dos Valores Mobiliários. Poderá não conseguir reinvestir os recursos de um investimento com um retorno comparável e/ou com uma taxa de juros ou de cupão comparável para um nível de risco semelhante.

A liquidação está sujeita a condições e pode ser impossível em certas circunstâncias: O pagamento do valor devido a você não ocorrerá até que todas as condições de liquidação tenham sido integralmente satisfeitas. Nenhum valor adicional será pago a você pelo Emissor devido a qualquer atraso ou adiamento resultante. Certos eventos de interrupção da liquidação podem ocorrer, o que pode restringir a capacidade do Emitente de fazer pagamentos, e a data da liquidação pode ser atrasada em conformidade.

Os seus Valores Mobiliários estão sujeitos a riscos cambiais: O pagamento ao abrigo dos Valores Mobiliários será efetuado numa Moeda de Liquidação diferente da moeda do (s) Ativo (s) Subjacente (s) e / ou pode ser diferente da sua moeda local. Você estará exposto ao risco de flutuações nas taxas de câmbio entre a moeda de liquidação e sua moeda local, a moeda do(s) ativo(s) subjacente(s) e/ou a moeda de emissão]. Estas flutuações podem diminuir o valor dos Valores Mobiliários.

Certas informações específicas em relação aos Valores Mobiliários não são conhecidas no início de um período de oferta: Os termos e condições dos seus Valores Mobiliários fornecem apenas um montante indicativo. Os valores reais serão determinados com base nas condições de mercado pela Emissora no final ou próximo ao final do período da oferta. Existe o risco de que os montantes indicativos não sejam iguais a o montante real, caso em que o retorno dos seus Valores Mobiliários pode ser materialmente diferente do retorno esperado com base no montante indicativo.

Riscos relacionados ao (s) ativo (s) subjacente (s) que são índices de ações: os índices de ações são compostos por uma carteira sintética de ações e fornecem oportunidades de diversificação de investimento, mas estarão sujeitos ao risco de flutuações nos preços das ações e no valor e volatilidade dos respetivos índice de ações. Os Valores Mobiliários estão atrelados a índices de ações e, como tal, não podem participar de dividendos ou quaisquer outras distribuições pagas sobre as ações que compõem tais índices. Consequentemente, você pode receber um retorno sobre os Valores Mobiliários menor do que teria recebido se tivesse investido diretamente nessas ações. O patrocinador do índice pode adicionar, excluir ou substituir os componentes de um índice de ações a seu critério, e também pode alterar a metodologia usada para calcular o nível desse índice. Estes eventos podem ter um impacto prejudicial no nível desse índice, o que, por sua vez, pode ter um impacto negativo no valor e na rentabilidade dos Valores Mobiliários.

O (s) Ativo (s) Subjacente (s) são 'benchmarks' para os fins do Regulamento de Benchmarks da UE (Regulamento (UE) 2016/1011, conforme alterado): De acordo com o Regulamento de Benchmarks, um Ativo Subjacente não pode ser usado de certas maneiras por uma UE entidade supervisionada condições de "equivalência" e não for "reconhecida" na pendência de uma decisão de equivalência ou não for "aprovada" por entidade supervisionada da UE após 31 de dezembro de 2021 se o seu administrador não obtiver autorização ou registo (ou, se for uma entidade não pertencente à UE, não cumpridas).

• **Riscos de tributação:** os níveis e a base da tributação dos Valores Mobiliários e quaisquer isenções para tal tributação dependerão das suas circunstâncias individuais e podem mudar a qualquer momento durante a vida dos Valores Mobiliários. Isso pode ter consequências adversas para você e, portanto, você deve consultar seus próprios consultores tributários quanto às consequências fiscais para você de transações e envolvendo os Valores Mobiliários.

• **Potenciais conflitos de interesse:** podem existir conflitos de interesse quando o Barclays Bank PLC ou sua afiliada: (i) atua em múltiplas capacidades em relação aos Valores Mobiliários (por exemplo, atuando como emissor, gestor e agente de determinação) [e o Índice Barclays (por exemplo, atuando com o patrocinador do índice, administrador do índice, agente de licenciamento e / ou editor)]; (ii) celebra transações de hedge para cobrir a exposição do Emitente aos valores em dinheiro relevantes a serem pagos ou ativos a serem entregues nos termos dos Valores Mobiliários no vencimento; e (iii) usa contribuições de preços de suas mesas de negociação como uma fonte de preços para um Ativo Subjacente. À luz de tais conflitos, as ações tomadas ou determinações feitas pelo Barclays Bank PLC em relação aos Valores Mobiliários podem nem sempre ser no melhor interesse dos titulares. Para além das transações de cobertura, o Barclays Bank PLC pode negociar no (s) Ativo (s) Subjacente (s) no decurso normal dos seus negócios.
