

Final Terms

PROHIBITION OF SALES TO SWISS RETAIL INVESTORS: The Securities are not intended to be offered, sold or otherwise made available to and may not be offered, sold or otherwise made available to any retail investor in Switzerland. For these purposes a "retail investor" means a person who is not a professional or institutional client, as defined in article 4 para. 3, 4 and 5 and article 5 para. 1 and 2 Swiss Federal Act on Financial Services ("**FINSA**") of 15 June 2018, as amended. Consequently, no key information document required by FINSA for offering or selling the Securities or otherwise making them available to retail investors in Switzerland has been prepared and therefore, offering or selling the Securities or making them available to retail investors in Switzerland may be unlawful under FINSA.

None of the Securities constitute a participation in a collective investment scheme within the meaning of the CISA and are neither subject to the authorisation nor the supervision by the Swiss Financial Market Supervisory Authority FINMA ("**FINMA**") and investors do not benefit from the specific investor protection provided under the CISA. The Securities may not be publicly offered, directly or indirectly, in Switzerland within the meaning of FinSA and no application has or will be made to admit the Securities to trading on any trading venue (exchange or multilateral trading facility) in Switzerland. Neither the Base Prospectus, the Final Terms nor any other offering or marketing material relating to the Securities constitutes a prospectus pursuant to the FinSA, and neither the Base Prospectus, the Final Terms nor any other offering or marketing material relating to the Securities may be publicly distributed or otherwise made publicly available in Switzerland.

Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

SUMMARY

INTRODUCTION AND WARNINGS

The Summary should be read as an introduction to the Prospectus. Any decision to invest in the Securities should be based on consideration of the Prospectus as a whole by the investor. In certain circumstances, the investor could lose all or part of the invested capital. Where a claim relating to the information contained in the Prospectus is brought before a court, the plaintiff investor might, under the national law, have to bear the costs of translating the Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled the Summary, including any translation thereof, but only where the Summary is misleading, inaccurate or inconsistent when read together with the other parts of the Prospectus or it does not provide, when read together with the other parts of the Prospectus, key information in order to aid investors when considering whether to invest in the Securities.

*From 30 June 2022, the Issuer is reporting its CET1 and associated ratios inclusive of certain reserves, which amount to €189.5m, eligible as core equity under CRR II. The 31 December 2021 capital and leverage ratios above have been restated accordingly. Excluding these reserves, the 31 December 2021 CET1, Total regulatory capital and CRR leverage ratios were: 15.5%, 20.8% and 6.4% respectively.

**The 2020 comparative figures have been restated following a review of the calculation applied to the IFRS9 transitional relief applicable to CET1 capital. The numbers in 2020 prior to restatement were reported as: CET1 capital 16.7% and Total regulatory capital 22.1%.

***The CET1 % at 30 June 2022 includes profits for the six months ended 30 June 2022. Excluding these profits, inclusion of which is subject to regulatory approval, the CET1 % would be 16.2%.

What are the key risks that are specific to the Issuer?

The Issuer has identified a broad range of risks to which its businesses are exposed. Material risks are those to which senior management pay particular attention and which could cause the delivery of the Issuer's strategy, results of operations, financial condition and/or prospects to differ materially from expectations. Emerging risks are those which have unknown components, the impact of which could crystallise over a longer time period. In addition, certain other factors beyond the Issuer's control, including escalation of terrorism or global conflicts, natural disasters, pandemics and similar events, although not detailed below, could have a similar impact on the Issuer.

- **Material existing and emerging risks potentially impacting more than one principal risk:** In addition to material and emerging risks impacting the principal risks set out below, there are also material existing and emerging risks that potentially impact more than one of these principal risks. These risks are: (i) the impact of COVID-19; (ii) potentially unfavourable global and local economic and market conditions, as well as geopolitical developments; (iii) the impact of interest rate changes on the Issuer's profitability; (iv) the competitive environments of the banking and financial services industry; (v) the regulatory change agenda and impact on business model; (vi) the impact of benchmark interest rate reforms on the Issuer; and (vii) change delivery and execution risks.
- **Climate Risk:** The risks associated with climate change are subject to rapidly increasing societal, regulatory and political focus, both in the EU and internationally. Embedding climate risk into the Issuer's risk framework in line with regulatory expectations and requirements, and adapting the Issuer's operations and strategy to address the financial risks resulting from both: (i) the physical risk of climate change; and (ii) the risk from the transition to a low-carbon economy, could have

a significant impact on the Issuer's business, results of operations, financial condition and prospects, the Issuer's customers and clients and the creditworthiness of the Issuer's counterparties.

- **Credit and Market risks:** Credit risk is the risk of loss to the Issuer from the failure of clients, customers or counterparties, to fully honour their obligations to members of the Issuer. The Issuer is subject to risks arising from changes in credit quality and recovery rates of loans and advances due from borrowers and counterparties in any specific portfolio. Market risk is the risk of loss arising from potential adverse change in the value of the Issuer's assets and liabilities from fluctuation in market variables.
- **Treasury and capital risk and the risk that the Issuer is subject to substantial resolution powers:** There are three primary types of treasury and capital risk faced by the Issuer which are (1) liquidity risk - the risk that the Issuer is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes; (2) capital risk - the risk that the Issuer has an insufficient level or composition of capital; and (3) interest rate risk in the banking book - the risk that the Issuer is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities. Under Directive 2014/59/EU (the "**Bank Recovery and Resolution Directive**"), substantial powers are granted to Relevant Resolution Authorities to implement various resolution measures and stabilisation options with respect to an Irish bank or investment firm (currently including the Issuer) (including, but not limited to, the bail-in tool, which gives a Relevant Resolution Authority the power to write down certain claims of unsecured creditors of a failing relevant entity (which write-down may result in the reduction of such claims to zero) and to convert certain unsecured debt claim into equity or other instruments of ownership) in circumstances in which the Relevant Resolution Authority is satisfied that the relevant resolution conditions are met.
- **Operational and model risks:** Operational risk is the risk of loss to the Issuer from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Model risk is the risk of potential adverse consequences from financial assessments or decisions based on incorrect or misused model outputs and reports.
- **Conduct, reputation and legal risks and legal, competition and regulatory matters:** Conduct risk is the risk of detriment to customers, clients, market integrity, effective competition or the Issuer from the inappropriate supply of financial services, including instances of wilful or negligent misconduct. Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Issuer's integrity and competence. The Issuer conducts activities in a highly regulated market which exposes it to legal risk arising from (i) the multitude of laws and regulations that apply to the businesses it operates, which are highly dynamic, may vary between jurisdictions, and are often unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Issuer's businesses and business practices. In each case, this exposes the Issuer to the risk of loss or the imposition of penalties, damages or fines from the failure of members of the Issuer to meet their respective legal obligations, including legal or contractual requirements. Legal risk may arise in relation to any of the risk factors summarised above.

"**Irish Bail-in Power**" means any write-down, conversion, transfer, modification and/or suspension power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms incorporated in Ireland in effect and applicable in Ireland to the Issuer, including but not limited to any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of any European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms, as the same has been or may be amended from time to time, pursuant to which obligations of a bank, banking group company, credit institution or investment firm or any of its affiliates can be reduced, cancelled, amended, transferred and/or converted into shares or other securities or obligations of the obligor or any other person.

"**Relevant Resolution Authority**" means the Central Bank of Ireland, the Single Resolution Board established pursuant to the SRM Regulation and/or any other authority entitled to exercise or participate in the exercise of the Irish Bail-in Power from time to time.

"**Securities**" means any securities issued by the Issuer described in any securities note and, if applicable, summary, which, when read together with this Registration Document, comprise a prospectus for the purposes of Article 6(3) of the Prospectus Regulation or in any base prospectus for the purposes of Article 8 of the Prospectus Regulation or other offering document into which this Registration Document may be incorporated by reference.

"**SRM Regulation**" means Regulation (EU) No 806/2014 of the European Parliament and Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010, as amended or replaced from time to time."

KEY INFORMATION ON THE SECURITIES

What are the main features of the Securities?

Type and class of Securities being issued and admitted to trading, including security identification numbers

The Securities are derivative securities in the form of notes issued in Global Registered Securities: Regulation S Global Security and will be uniquely identified by: Series number: NX00336512; Tranche number: 1; ISIN: XS2171215234; Common Code: 217121523.

The Securities are cleared and settled through Euroclear Bank S.A./N.V. and/or Clearstream Banking, *société anonyme*.

Currency, denomination, issue size and term of the Securities

The Securities will be denominated in USD (the "**Currency**"). The specified denomination per Security is USD 1,000. The issue size is USD 6,276,000.00 and the issue price is 100.00% of par.

The issue date is 30 August 2022 and the redemption date is 4 April 2025 (the "**Redemption Date**"). Such date may be postponed if the determination of any value used to calculate an amount payable under the Securities is delayed.

Rights attached to the Securities

Each Security includes a right to a potential return and an amount payable on redemption, together with certain ancillary rights such as the right to receive notice of certain determinations and events and to vote on future amendments.

The potential return on the Securities will be a redemption amount linked to the change in value of the USD Preference Share issued by Teal Investments Limited (Class number: PEISC263), the "**Underlying Preference Share**", the value of which is dependent on the performance of the Underlying Preference Share Reference Asset. Information on the Underlying Preference Share can be found on <https://barxis.barcap.com/GB/1/en/home.app>.

The Securities will not bear interest.

Final redemption in respect of the Securities

Unless previously redeemed or purchased and cancelled, the Securities will be redeemed by the Issuer by payment on the Redemption Date of a cash amount per Calculation Amount in the Currency equal to (i) the Calculation Amount multiplied by (ii) the Preference Share Value_{final} divided by the Preference Share Value_{initial}.

Where:

- **Preference Share Value_{final}**: the value of the Underlying Preference Share on 28 March 2025, being the "**Final Valuation Date**". The Final Valuation Date is subject to adjustment.
- **Preference Share Value_{initial}**: the Underlying Preference Share on 30 August 2022, being the "**Initial Valuation Date**". The Initial Valuation Date is subject to adjustment.

Value of the Underlying Preference Share

The value of the Underlying Preference Share will be calculated in accordance with the following:

If:

The Final Valuation Price of the Underlying Preference Share Reference Asset is greater than or equal to the Upper Strike Price of the Underlying Preference Share Reference Asset:

Value of the Underlying Preference Share = the sum of: (1) 100% multiplied by the Calculation Amount (being USD 100.00) and (2) the Calculation Amount multiplied by the lower of (a) the Participation (being 200.00%) multiplied by the performance of the Underlying Preference Share Reference Asset and (b) the Cap (being 38.00%). The performance of an Underlying Preference Share Reference Asset is calculated by subtracting the Upper Strike Price from the Final Valuation Price and then dividing the result by the Initial Price in respect of that Underlying Preference Share Reference Asset.

If:

The Final Valuation Price of the Underlying Preference Share Reference Asset is greater than or equal to the Lower Strike Price of the Underlying Preference Share Reference Asset:

Value of the Underlying Preference Share = 100% multiplied by the Calculation Amount.

If:

The Final Valuation Price of the Underlying Preference Share Reference Asset is less than the Lower Strike Price of the Underlying Preference Share Reference Asset:

Value of the Underlying Preference Share = the Final Valuation Price of the Underlying Preference Share Reference Asset divided by the Lower Strike Price of the Underlying Preference Share Reference Asset and then multiplied by the Calculation Amount.

Where:

- **Calculation Amount:** USD 100.00.

- **Cap:** 38.00%.
- **Final Valuation Price:** in respect of an Underlying Preference Share Reference Asset, the closing price or level of such Underlying Preference Share Reference Asset on 28 March 2025, subject to adjustment.
- **Initial Price:** in respect of an Underlying Preference Share Reference Asset, the closing price or level of such Underlying Preference Share Reference Asset on 23 August 2022, subject to adjustment being 4,128.73.
- **Lower Strike Price:** in respect of an Underlying Preference Share Reference Asset, an amount which is calculated as 80.00% multiplied by the Initial Price of that Underlying Preference Share Reference Asset.
- **Participation:** 200.00%.
- **Underlying Preference Share Reference Asset:** S&P 500 Index.
- **Upper Strike Price:** in respect of an Underlying Preference Share Reference Asset, an amount which is calculated as 100.00% multiplied by the Initial Price of that Underlying Preference Share Reference Asset.

Early redemption in respect of the Securities

Securities may at the option of the Issuer (in the case of (i) or (ii)) or shall (in the case of (iii)) be redeemed earlier than the scheduled redemption date (i) if performance becomes unlawful or impracticable, (ii) following the occurrence of an additional disruption event which may include, but not be limited to, a change in applicable law or a currency disruption event, or (iii) following the occurrence of the redemption the Underlying Preference Shares (other than by scheduled redemption pursuant to its terms).

The early redemption amount due in respect of each Security will be calculated in the same way as if the Securities were redeemed on the scheduled redemption date save that for such purpose the final value in respect of the Underlying Preference Share shall be its value as of the day on which it is determined that the Security will be early redeemed, all as determined by the determination agent in good faith and in a commercially reasonable manner.

Status of the Securities: The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

Description of restrictions on free transferability of the Securities: Securities are offered and sold outside the United States to non-US persons in reliance on 'Regulation S' and must comply with transfer restrictions with respect to the United States. Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system. Subject to the foregoing, the Securities will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the Regulated Market of the Euronext Dublin on or around 30 August 2022.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- **Depending on the performance of the Underlying Preference Share, you could lose some or all of your investment.** The return on the Securities depends on the change in value of the Underlying Preference Share, which may fluctuate up or down depending on the performance of the Underlying Preference Share Reference Asset(s). Past performance of the Underlying Preference Share Reference Asset(s) should not be taken as an indication of future performance. If the value of the Underlying Preference Share on final valuation is less than upon initial valuation, you will lose some or all of your investment. The Securities may drop in value after issuance and therefore if you sell them prior to maturity in the secondary market (if any) you may lose some of your investment.
- **You are subject to the credit risk of the Issuer.** The payment of any amount due under the Securities is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Securities are unsecured obligations. They are not deposits and they are not protected under the deposit guarantee scheme operated by the Central Bank of Ireland or any other deposit protection insurance scheme. Therefore, if the Issuer fails or is otherwise unable to meet its payment obligations under the Securities, you will lose some or all of your investment.
- **Taxation risks:** The levels and basis of taxation on the Securities and any reliefs for such taxation will depend on your individual circumstances and could change at any time over the life of the Securities. This could have adverse consequences for you and you should therefore consult your own tax advisers as to the tax consequences to you of transactions involving the Securities.
- **Risks relating to the Underlying Preference Share Reference Asset(s):**

- As an Underlying Preference Share Reference Asset is an equity index the Underlying Preference Share may be subject to the risk of fluctuations in market interest rates, currency exchange rates, equity prices, inflation, the value and volatility of the relevant equity index, and also to economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions, including factors affecting capital markets generally. This could have an adverse effect on the value of the Underlying Preference Share which, in turn, will have an adverse effect on the value of your Securities.
- The determination of the value of the Underlying Preference Share includes a participation factor. If the participation factor is greater than 100 per cent., the Underlying Preference Share will be disproportionately exposed to the performance of the Underlying Preference Share Reference Asset(s). This leverage effect may result that any loss in the value of the Underlying Preference Share Reference Asset(s) disproportionately reflects a higher loss in the value of and return on the Underlying Preference Share and, in turn, the Securities than if the such leverage feature was not included.
- Your ability to participate in any positive change in the value of the Underlying Preference Share Reference Asset(s) is limited, no matter how much the level of the Underlying Preference Share Reference Asset(s) rises above the cap level over the life of the Underlying Preference Share. Accordingly, the value of or return on the Underlying Preference Share and, in turn, the Securities may be significantly less than if you had purchased the Underlying Preference Share Reference Asset(s) directly.
- **Risks of a lack of secondary market or sale in such market:** There may not be a secondary market for the Securities and, therefore, you may not be able to sell them prior to their scheduled maturity or only for a substantial loss.
- **Reinvestment risk/loss of yield:** Following an early redemption of your Securities for any reason, you may be unable to reinvest the redemption proceeds at an effective yield as high as the yield on the Securities being redeemed which may have an adverse effect on your investment prospects.
- **Risks relating to potential adjustments to the terms of the Underlying Preference Share:** You will not have any rights in respect of the Underlying Preference Share or the Underlying Preference Share Reference Asset(s). The terms of the Underlying Preference Share may be adjusted in respect of, for example, valuation of the Underlying Preference Share Reference Asset(s) which may be exercised by the issuer of the Underlying Preference Share(s) in a manner which has an adverse effect on the market value and/or amount repayable in respect of the Securities.
