In some cases the interest amount could be zero.</p> <p><b>Final redemption:</b> If the Securities have not redeemed early (or have not redeemed due to Automatic Settlement (Autocall)) they will redeem on the Scheduled Settlement Date and the cash amount payable to investors will depend on the performance of: the Underlying Asset on the specified valuation dates during the life of the Securities.</p> <p><b>Taxation:</b> All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. In the event that any such withholding or deduction is required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted.</p>

		<p><b>Events of default:</b> If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the holders (and such failure is not remedied within 30 days, or, in the case of interest, 14 days), or the Issuer is subject to a winding-up order, then (subject, in the case of interest, to the Issuer being prevented from payment for a mandatory provision of law) the Securities will become immediately due and payable, upon notice being given by the holder (or, in the case of French law Securities, where the holders are grouped in a 'Masse', the representative of the holders).</p> <p>The Securities will be governed by English law and the rights thereunder will be construed accordingly.</p> <p style="text-align: center;"><b>STATUS</b></p> <p>The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.</p> <p style="text-align: center;"><b>LIMITATIONS ON RIGHTS</b></p> <p><b>Certain limitations:</b></p> <ul style="list-style-type: none"> <li>• Notwithstanding that the Securities are linked to the performance of the underlying asset(s), holders do not have any rights in respect of the underlying asset(s).</li> <li>• The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, to monetise the Securities, (where applicable) to postpone valuation of the underlying asset(s) or scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the underlying asset(s), to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the underlying asset(s) (if any).</li> <li>• The Securities contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.</li> </ul>
C.11	<b>Admission to trading</b>	<p>Securities may be admitted to trading on a regulated market in Belgium, Denmark, Finland, France, Ireland, Italy, Luxembourg, Malta, the Netherlands, Norway, Portugal, Spain, Sweden or the United Kingdom. Securities may be admitted to trading on a market in Switzerland or Italy that is not a regulated market for the purposes of the Prospectus Directive.</p> <p>Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of the Luxembourg Stock Exchange with effect from 31 March 2020.</p>
C.15	<b>Description of how the value of the investment is affected by the value of the underlying instrument</b>	<p>The return on and value of the Securities is dependent on the performance of: (i) one or more specified equity indices, shares, depository receipts representing shares and/or exchange traded funds; (ii) foreign exchange rates or (iii) funds (each an "<b>Underlying Asset</b>"). The Underlying Asset is: EURO STOXX 50®.</p> <p>Calculations in respect of amounts payable under the Securities are made by reference to a "<b>Calculation Amount</b>", being EUR 1,000.</p>

**Indicative amounts:** If the Securities are being offered by way of a Public Offer and any specified product values are not fixed or determined at the commencement of the Public Offer (including any amount, level, percentage, price, rate or other value in relation to the terms of the Securities which has not been fixed or determined by the commencement of the Public Offer), these specified product values will specify an indicative amount, indicative minimum amount, an indicative maximum amount or indicative amount or any combination thereof. In such case, the relevant specified product value(s) shall be the value determined based on market conditions by the Issuer on or around the end of the Public Offer. Notice of the relevant specified product value will be published prior to the Issue Date.

**Determination Agent:** Barclays Bank PLC will be appointed to make calculations and determinations with respect to the Securities.

#### **A – Interest**

Each Security will only pay interest on an Interest Payment Date if the closing level of the Underlying Asset on the corresponding Interest Valuation Date is greater than or equal to its corresponding Interest Barrier. If this occurs, the amount of interest payable with respect to that Interest Valuation Date is calculated by:

- (1) multiplying the fixed rate of 8.10% by EUR 1,000; and then
- (2) multiplying the result by the number corresponding to that Interest Valuation Date (i.e. the number in the column entitled ‘T’ in the table below).

**"Initial Price<sup>(Interest)</sup>"** means the closing level of the Underlying Asset on the Initial Valuation Date (being 2,910.02).

**"Initial Valuation Date"** means 9 September 2019, subject to adjustment.

In respect of an Interest Valuation Date, the **"Interest Barrier"** means the Interest Barrier Percentage corresponding to such Interest Valuation Date multiplied by the Initial Price of the Underlying Asset.

T	Interest Payment Date	Interest Valuation Date	Interest Barrier Percentage
1	10 March 2021	31 March 2021	100.00%
2	10 March 2022	31 March 2022	95.00%
3	10 March 2023	31 March 2023	90.00%
4	11 March 2024	28 March 2024	85.00%
5	10 March 2025	31 March 2025	80.00%

#### **B – Automatic Settlement (Autocall)**

The Securities will automatically redeem if the value of performance calculated in respect of the closing price or level of the Underlying Asset is at or above its corresponding Autocall Barrier Percentage in respect of any Autocall Valuation Date. If this occurs, you will receive a cash payment equal to the nominal amount

<b>Section D – Risks</b>		
D.2	<b>Key information on the key risks that are specific to the Issuer</b>	<p><b>Credit risk and Market risk</b></p> <p>Credit risk is the risk of loss to the Bank Group from the failure of clients, customers or counterparties, to fully honour their obligations to members of the Bank Group, including the whole and timely payment of principal, interest, collateral and other receivables.</p> <p>The Bank Group is subject to risks arising from changes in credit quality and recovery rates of loans and advances due from borrowers and counterparties in any specific portfolio. The following are areas of uncertainties to the Bank Group's portfolio which could have a material impact on performance: (i) UK retailers, hospitality and leisure, (ii) consumer affordability, (iii) UK real estate market, (iv) leverage finance underwriting and (v) Italian mortgage portfolio.</p> <p>The Bank Group also has large individual exposures to single name counterparties, both in its lending activities and in its financial services and trading activities.</p> <p>Market risk is the risk of loss arising from potential adverse change in the value of the Bank Group's assets and liabilities from fluctuation in market variables.</p>

	<p>These variables include, but are not limited to, interest rates, foreign exchange, equity prices, commodity prices, credit spreads, implied volatilities and asset correlations in relation to the Bank Group's portfolios, trading business, execution of client trades.</p> <p><b>Treasury and capital risk</b></p> <p>There are three primary types of treasury and capital risk faced by the Bank Group:</p> <ol style="list-style-type: none"> <li>(1) <u>Liquidity risk</u> – which is the risk that the Bank Group is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount, tenor and composition of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes;</li> <li>(2) <u>Capital risk</u> – which is the risk that the Bank Group has an insufficient level or composition of capital to support its normal business activities and pension plans and to meet its regulatory capital requirements under normal operating environments or stressed conditions (both actual and as defined for internal planning or regulatory stress testing purposes); and</li> <li>(3) <u>Interest rate risk in the banking book</u> – which is the risk that the Bank Group is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities.</li> </ol> <p><b>Operational risk and Model risk</b></p> <p>Operational risk is the risk of loss to the Bank Group from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Examples include: (i) operational resilience, (ii) cyber threats, (iii) new and emergent technology, (iv) external fraud, (v) data management and information protection, (vi) algorithmic trading, (vii) processing error, (viii) supplier exposure, (ix) critical accounting estimates and judgements, (x) tax risk and (xi) ability to hire and retain appropriately qualified employees.</p> <p>Model risk is the risk of potential adverse consequences from financial assessments or decisions based on incorrect or misused model outputs and reports. Models are, by their nature, imperfect and incomplete representations of reality because they rely on assumptions and inputs, and so they may be subject to errors affecting the accuracy of their outputs. Model errors or misuse may result in (among other things) the Bank Group making inappropriate business decisions and/or inaccuracies or errors being identified in the Bank Group's risk management and regulatory reporting processes.</p> <p><b>Conduct risk and Reputation risk</b></p> <p>Conduct risk is the risk of detriment to customers, clients, market integrity, effective competition or the Bank Group from the inappropriate supply of financial services, including instances of wilful or negligent misconduct. This risk could manifest itself in a variety of ways: (i) employee misconduct, (ii) product governance and life cycle, (iii) financial crime, (iv) data protection and privacy and (v) regulatory focus on culture and accountability.</p> <p>Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Bank Group's integrity and</p>

		<p>competence.</p> <p>Reputation risk has the potential to arise from operational issues or conduct matters which cause detriment to customers, clients, market integrity, effective competition or the Bank Group.</p> <p><b>Material existing and emerging risks potentially impacting more than one principal risks</b></p> <p>In addition to the risks set out above, there are also material existing and emerging risks that potentially impact more than one of these principal risks. These risks are: (i) potentially unfavourable global and local economic and market conditions, as well as geopolitical developments (such as the Coronavirus (COVID-19) outbreak); (ii) the process of UK withdrawal from the EU; (iii) the impact of interest rate changes on the Bank Group's profitability; (iv) the competitive environments of the banking and financial services industry; (v) the regulatory change agenda and impact on business model; (vi) the impact of climate change on the Bank Group's business; and (vii) the impact of benchmark interest rate reforms on the Bank Group.</p> <p><b>Legal risk and legal, competition and regulatory matters</b></p> <p>The Bank Group conducts activities in a highly regulated market which exposes it to legal risk arising from (i) the multitude of laws and regulations that apply to the businesses it operates, which are highly dynamic, may vary between jurisdictions, and are often unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Bank Group's businesses and business practices. In each case, this exposes the Bank Group to the risk of loss or the imposition of penalties, damages or fines from the failure of members of the Bank Group to meet their respective legal obligations, including legal or contractual requirements. Legal risk may arise in relation to a number of the risk factors, including (without limitation) as a result of (i) the UK's withdrawal from the EU, (ii) benchmark reform, (iii) the regulatory change agenda, and (iv) rapidly evolving rules and regulations in relation to data protection, privacy and cyber security.</p> <p><b>The Issuer and the Bank Group are subject to substantial resolution powers</b></p> <p>Under the Banking Act, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the United Kingdom Prudential Regulation Authority, the UK Financial Conduct Authority and HM Treasury, as appropriate as part of a special resolution regime. These powers enable the Bank of England (or any successor or replacement thereto and/or such other authority in the United Kingdom with the ability to exercise the UK Bail-in Power) (the "<b>Resolution Authority</b>") to implement various resolution measures and stabilisation options (including, but not limited to, the bail-in tool) with respect to a UK bank or investment firm and certain of its affiliates (currently including the Issuer) (each a "<b>relevant entity</b>") in circumstances in which the Resolution Authority is satisfied that the relevant resolution conditions are met.</p> <p><b>"UK Bail-in Power"</b> means any write-down, conversion, transfer, modification and/or suspension power existing from time to time under any laws, regulations, rules or requirements relating to the resolution of banks, banking group companies, credit institutions and/or investment firms incorporated in the United Kingdom in effect and applicable in the United Kingdom to the Issuer or other members of the Bank Group (as the same has been or may be amended from time to time) pursuant to which obligations of a bank, banking group company, credit</p>

D.6	<p><b>Risk warning that investors may lose value of entire investment or part of it</b></p>	<p><b>You may lose some or all of your investment in the Securities:</b></p> <p>Even if the relevant Securities are stated to be repayable at an amount that is equal to or greater than their initial purchase price, you will lose up to the entire value of your investment if the Issuer fails or is otherwise unable to meet its payment obligations.</p> <p>You may also lose some or all of your entire investment, or part of it, if:</p> <ul style="list-style-type: none"> <li>• the Underlying Asset performs in such a manner that the settlement amount payable or deliverable to you (whether at maturity or following any early redemption and including after deduction of any applicable taxes and expenses) is less than the initial purchase price;</li> <li>• you sell your Securities prior to maturity in the secondary market (if any) at an amount that is less than the initial purchase price;</li> <li>• the Securities are redeemed early following the occurrence of an extraordinary event in relation to the Underlying Asset(s), the Issuer, the Issuer's hedging arrangement, the relevant currencies or taxation (such as following an additional disruption event) and the amount you receive on such redemption is less than the initial purchase price; and/or</li> <li>• the terms and conditions of the Securities are adjusted (in accordance with the terms and conditions of the Securities) with the result that the redemption amount payable to you and/or the value of the Securities is reduced.</li> </ul> <p><b>Reinvestment risk/loss of yield:</b> Following an early redemption of the Securities for any reason, holders may be unable to reinvest the redemption proceeds at a rate of return as high as the return on the Securities being redeemed.</p> <p><b>Issuer optional early redemption:</b> The ability of the Issuer to early redeem the Securities will mean an investor is no longer able to participate in the performance of any Underlying Assets. This feature may limit the market value of the Securities.</p> <p><b>Settlement expenses:</b> Payments, deliveries and settlement under the Securities may be subject to deduction of taxes and settlement expenses, if applicable.</p> <p><b>Conditions to settlement:</b> Settlement is subject to satisfaction of all conditions to settlement by the investor.</p> <p><b>Volatile market prices:</b> The market value of the Securities is unpredictable and may be highly volatile, as it can be affected by many unpredictable factors, including: market interest and yield rates; fluctuations in foreign exchange rates; exchange controls; the time remaining until the Securities mature; economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions; changes in laws or regulations; and the Issuer's creditworthiness or perceived creditworthiness.</p> <p><b>Return linked to performance of an Underlying Asset:</b> The return payable on the Securities is linked to the change in value of the Underlying Asset over the life of the Securities. Any information about the past performance of any Underlying Asset should not be taken as an indication of how prices will change in the future. You will not have any rights of ownership, including, without limitation, any voting rights or rights to receive dividends, in respect of any</p>

		<p>Underlying Asset.</p> <p><b>Equity index risks:</b> Securities linked to the performance of equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. Securities linked to equity indices may not participate in dividends or any other distributions paid on the shares which make up such indices, accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares.</p> <p>The Index Sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.</p> <p><b>Capped return:</b> As the redemption amount is subject to a cap, the value of or return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) directly.</p> <p><b>Underlying foreign exchange rates:</b> Securities will be exposed to the performance of one or more underlying foreign exchange rates. Foreign exchange rates are highly volatile and are determined by a wide range of factors including supply and demand for currencies, inflation, interest rates; economic forecasts, political issues, the convertibility of currencies and speculation.</p>
<b>Section E – Offer</b>		
<b>E.2b</b>	<b>Reasons for offer and use of proceeds when different from making profit and/or hedging certain risks</b>	Not Applicable: the net proceeds will be applied by the Issuer for making profit and/or hedging certain risks.
<b>E.3</b>	<b>Description of the terms and conditions of the offer</b>	The Securities have been offered to the dealer or Manager at the Issue Price. The Securities have not been offered to the public.
<b>E.4</b>	<b>Description of any interest material to the issue/offer, including conflicting interests</b>	<p>The relevant Manager or authorised offeror(s) may be paid fees in relation to any issue or offer of Securities. Potential conflicts of interest may exist between the Issuer, Determination Agent, relevant Manager or authorised offeror(s) or their affiliates (who may have interests in transactions in derivatives related to the Underlying Asset(s) which may, but are not intended to, adversely affect the market price, liquidity or value of the Securities) and holders.</p> <p>Not Applicable: no person involved in the issue or offer has any interest, or conflicting interest, that is material to the issue or offer of Securities.</p>
<b>E.7</b>	<b>Estimated expenses charged to investor by issuer/offeror</b>	The Issuer will not charge any expenses to holders in connection with any issue of Securities.
