

SECURITIES NOTE RELATING TO GSSP BASE PROSPECTUS 16

BARCLAYS BANK IRELAND PLC

(Incorporated with limited liability in Ireland)

LEI: 2G5BKIC2CB69PRJH1W31

Pursuant to the Global Structured Securities Programme

What is this document?

This securities note (the "**Securities Note**" or the "**Document**"), together with the Registration Document (as described below), constitutes a base prospectus drawn up as separate documents (the "**Base Prospectus**") for the purposes of Article 8 of Regulation (EU) 2017/1129 (as may be amended from time to time, the "**Prospectus Regulation**"). The Base Prospectus is one of a number of base prospectuses of Barclays Bank Ireland PLC (the "**Issuer**") which relate to the Issuer's Global Structured Securities Programme (the "**Programme**").

The Base Prospectus (as may be supplemented from time to time) is valid for 12 months after its approval and will expire on 26 August 2021. The obligation to supplement a prospectus in the event of any significant new factor, material mistake or material inaccuracy relating to the information included in it does not apply when the prospectus is no longer valid.

What is the Registration Document?

The Issuer's registration document dated 27 May 2020 (as supplemented by a supplement dated 4 August 2020 and as may be further supplemented and/or replaced from time to time, the "**Registration Document**") has been approved by the Central Bank of Ireland (the "**CBI**") pursuant to the Prospectus Regulation. The Registration Document provides a description of the Issuer's business activities as well as certain financial information and material risks faced by the Issuer. The Registration Document and the supplements thereto are available for viewing at: <https://home.barclays/investor-relations/structured-securities-prospectuses/bbi-structured-securities-prospectuses/#regdoc> and <https://home.barclays/investor-relations/structured-securities-prospectuses/bbi-structured-securities-prospectuses/#regdocsupplement>.

What type of Securities does the Base Prospectus relate to?

The Base Prospectus relates to the issuance of securities (the "**Securities**"), which upon maturity will pay a redemption amount that is linked to the change in value of a specified preference share. The value of the specified preference share may fluctuate up or down depending on the performance of one or more specified reference assets. The Securities will not bear interest.

Application has been made to the Irish Stock Exchange plc trading as Euronext Dublin ("**Euronext Dublin**") for Securities issued under the Programme during the period of 12 months from the date of the Base Prospectus to be listed on the Official List of Euronext Dublin and admitted to trading on its regulated market.

Who is the Issuer?

The Issuer of the Securities is Barclays Bank Ireland PLC (the "**Issuer**"). The payment of principal due under the Securities is subject to the Issuer's financial position and its ability to meet its obligations.

The legal entity identifier ("**LEI**") in respect of the Issuer is 2G5BKIC2CB69PRJH1W31.

How do I use the Base Prospectus?

The Base Prospectus, together with certain other documents listed within, is intended to provide you with information necessary to enable you to make an informed investment decision before purchasing any Securities.

The contractual terms of any particular issuance of Securities will be composed of the terms and conditions set out at pages 40 to 62 of this Securities Note (the "**General Conditions**"), as completed by a separate Final Terms (as defined below) document, which is specific to that issuance of Securities.

This Securities Note also includes other general information such as information about the material risks relating to investing in Securities (see the section headed '*Risk Factors*' of this Document), information on the issuer of the specified preference shares, the general terms and conditions of the specified preference shares and information on selling and transfer restrictions. The Registration Document provides a description of the Issuer's business activities as well as certain financial information and material risks faced by the Issuer.

All capitalised terms used will be defined in the Base Prospectus or the Final Terms and are referenced in the Index to this Document or the Index of Abbreviations to the Registration Document, as applicable.

What other documents do I need to read?

The Base Prospectus contains all information which is necessary to enable investors to make an informed decision regarding the financial position and prospects of the Issuer and the rights attaching to the Securities. Some of this information is incorporated by reference from other publicly available documents and some of this information is completed in an issue-specific document called the Final Terms. You should read the documents incorporated by reference, as well as the Final Terms in respect of such Securities, together with the Base Prospectus. Documents will be made available at the registered office of the Issuer and at <https://home.barclays/investor-relations/structured-income-investors/prospectus-and-documents/structured-securities-prospectuses/bbi-structured-securities-prospectuses/>, <https://home.barclays/investor-relations/structured-income-investors/prospectus-and-documents/structured-securities-final-terms> and <https://home.barclays/investor-relations/reports-and-events> (as applicable) or the successor website(s).

What information is included in the Final Terms?

While this Document includes general information about all Securities, the Final Terms is the document that sets out the specific details of each particular issuance of Securities (the "**Final Terms**"). For example, the Final Terms will contain the issue date and the scheduled redemption date, and any other information needed to complete the terms included in this Document for the particular Securities (identified by the words 'as specified in the Final Terms' or other equivalent wording). Wherever the General Conditions provide optional provisions, the Final Terms will specify which of those provisions apply to a specific issuance of Securities. In addition, an issue-specific summary will be annexed to the Final Terms for each issuance of Securities which will contain a summary of key information relating to the Issuer and the Securities, the risks relating to the Issuer and the Securities and the issue or offer of Securities.

What type of reference assets may the Securities be linked to?

The repayment terms of the Securities issued under the Base Prospectus will be linked to the change in value of a specified preference share (an "**Underlying Preference Share**") which may fluctuate up or down depending on the performance of one or more reference assets (each an "**Underlying Preference Share Reference Asset**" and, together with each Underlying Preference Share, an "**Underlying Reference Asset(s)**").

The Underlying Preference Shares will be issued by Teal Investments Limited. The Underlying Preference Share Reference Asset(s) may be one or more specified equity indices and/or common shares, depository receipts or exchange-traded funds that are traded on a regulated, regularly operating, recognised open market within the meaning of the Listing Rules of Euronext Dublin and as shall be specified in the Final Terms in respect of the related Securities.

The Final Terms will indicate where information relating to the Underlying Preference Share(s) and the Underlying Preference Share Reference Assets is available. Investors should review such information together with the Final Terms and the Base Prospectus.

IMPORTANT INFORMATION

THE AMOUNT PAYABLE ON MATURITY OF THE SECURITIES MAY BE LESS THAN THE ORIGINAL INVESTED AMOUNT (AND IN SOME CASES MAY BE ZERO), IN WHICH CASE YOU MAY LOSE SOME OR ALL OF YOUR ORIGINAL INVESTMENT.

FOR ALL SECURITIES, IF THE ISSUER BECOMES INSOLVENT OR BANKRUPT OR OTHERWISE FAILS TO MAKE ITS PAYMENT OBLIGATIONS ON THE SECURITIES, YOU WILL LOSE SOME OR ALL OF YOUR ORIGINAL INVESTMENT.

INVESTING IN SECURITIES INVOLVES CERTAIN RISKS, AND YOU SHOULD FULLY UNDERSTAND THESE BEFORE YOU INVEST. SEE THE SECTION HEADED 'RISK FACTORS' BELOW.

Responsibility

The Issuer accepts responsibility for the information contained in this Securities Note (and for the avoidance of doubt, in the Base Prospectus) and any Final Terms. To the best of the knowledge of the Issuer, the information contained in this Securities Note is in accordance with the facts and this Securities Note makes no omission likely to affect its import.

Regulatory approval and passporting for the purposes of the Prospectus Regulation

This Securities Note (and for the avoidance of doubt, the Base Prospectus) has been approved by the CBI, as competent authority under the Prospectus Regulation. The CBI only approves the Securities Note as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation.

Such approval should not be considered as an endorsement of the Issuer or the quality of the securities that are the subject of the Base Prospectus. Investors should make their own assessment as to the suitability of investing in the securities.

Notification of this approval will be made to the competent authority of the United Kingdom. The effect of such approval as so notified may be affected by the end of the transition or implementation period (currently scheduled for 31 December 2020) provided for under the agreement between the European Union and the United Kingdom for the withdrawal of the United Kingdom from the European Union.

No compensation arrangements

Any failure by the Issuer to make payments due under the Securities would not of itself give rise to any claim for compensation on the grounds of such a failure. You would not have a claim for compensation against the deposit guarantee scheme operated by the CBI or any other deposit protection insurance scheme or investor compensation scheme. For more information regarding Issuer risk, please see the section headed '*Risk Factors*' of the Registration Document.

No investment advice

Neither the Base Prospectus nor any Final Terms is or purports to be investment advice. Unless expressly agreed otherwise with a particular investor, neither the Issuer nor any Manager is acting as an investment adviser, providing advice of any other nature, or assuming any fiduciary obligation to any investor in Securities.

Independent evaluation

Nothing set out or referred to in the Base Prospectus is intended to provide the basis of any credit or other evaluation (except in respect of any purchase of Securities described herein) or should be considered as a recommendation by the Issuer or any Manager that any recipient of the Base Prospectus (or any document referred to herein) should purchase any Securities.

An investor should not purchase the Securities unless they understand the extent of their exposure to potential loss. Investors are urged to read (i) the risks described in the section headed '*Risk Factors*' of

this Document and (ii) the risks described in the section headed '*Risk Factors*' of the Registration Document, together with the other information in the Base Prospectus (including any information incorporated by reference), as supplemented from time to time, and the Final Terms, before investing in the Securities.

Investors should note that (i) the risks described in the section headed '*Risk Factors*' of this Document and (ii) the risks described in the section headed '*Risk Factors*' of the Registration Document are not the only risks that the Issuer faces or that may arise because of the nature of the Securities. The Issuer has described only those risks relating to its operations and to the Securities that it considers to be material. There may be additional risks that the Issuer currently considers not to be material or of which it is not currently aware.

Given the nature, complexity and risks inherent in the Securities (and investments relating to any Underlying Reference Assets), the Securities may not be suitable for an investor's investment objectives in the light of his or her financial circumstances. Investors should consider seeking independent advice to assist them in determining whether the Securities are a suitable investment for them or to assist them in evaluating the information contained or incorporated by reference into the Base Prospectus or set out in the Final Terms.

You have sole responsibility for the management of your tax and legal affairs including making any applicable filings and payments and complying with any applicable laws and regulations. Neither the Issuer nor any of its Affiliates will provide you with tax or legal advice and you should obtain your own independent tax and legal advice tailored to your individual circumstances. The tax treatment of structured products, such as the Securities, can be complex; the tax treatment applied to an individual depends on their circumstances. The level and basis of taxation may alter during the term of any product.

Amounts due to be paid to you are described on a gross basis, i.e. without calculating any tax liability. The Issuer shall make no deduction for any tax, duty, or other charge unless required by law.

Potential for discretionary determinations by the Issuer and the Determination Agent under the Securities

Under the terms and conditions of the Securities, following the occurrence of certain events relating to the Issuer, the Underlying Reference Asset(s), taxation, the relevant currency or other matters, the Issuer or the Determination Agent may determine to take one of the actions available to it in order to deal with the impact of such event on the Securities or the Issuer or both. These actions may include (i) adjustment to the terms and conditions of the Securities, (ii) substitution of the Underlying Reference Asset(s) or (iii) early redemption of the Securities. Any such discretionary determination by the Issuer or Determination Agent could have a material adverse impact on the value of and return on the Securities. See, in particular, '*Risk Factors*' – risk factor 6.1 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*) below.

Distribution

The distribution or delivery of the Base Prospectus or any Final Terms and any offer or sale of Securities in certain jurisdictions may be restricted by law. The Base Prospectus does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offering or solicitation. Other than as expressly described in the Base Prospectus, no action is being taken to permit an offering of Securities or the delivery of the Base Prospectus in any jurisdiction. Persons into whose possession the Base Prospectus or any Final Terms come are required by the Issuer to inform themselves about and to observe any such restrictions. Details of selling restrictions for various jurisdictions are set out in the section headed '*Purchase and Sale*' of this document.

United States selling restrictions

The Securities have not been and will not be registered under the US Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States. The Securities may not be offered or sold within the United States, or

to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) ("**US persons**"), except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. Trading in the Securities has not been approved by the US Commodities Futures Trading Commission under the US Commodity Exchange Act of 1936, as amended (the "**Commodity Exchange Act**"), and the rules and regulations promulgated thereunder. The Securities are being offered and sold outside the United States to non-US persons in reliance on Regulation S.

Securities in bearer form may be subject to US tax law requirements (as described below). Subject to certain exceptions, the Securities may not be offered, sold or delivered within the United States or its possessions or, to United States persons (as defined in the US Internal Revenue Code of 1986, as amended, (the "**Code**") and the regulations thereunder).

For a description of these and certain further restrictions on offers, sales and transfers of Securities and delivery of the Base Prospectus and any Final Terms, see the section entitled '*Purchase and Sale*' herein.

THE SECURITIES HAVE NOT BEEN AND WILL NOT BE APPROVED OR DISAPPROVED BY THE US SECURITIES AND EXCHANGE COMMISSION, ANY STATE SECURITIES COMMISSION IN THE UNITED STATES OR ANY OTHER US REGULATORY AUTHORITY, NOR HAVE ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF THE OFFERING OF SECURITIES OR THE ACCURACY OR THE ADEQUACY OF THE OFFERING DOCUMENTS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

US foreign account tax compliance withholding

THE FOREIGN ACCOUNT TAX COMPLIANCE ACT IS PARTICULARLY COMPLEX AND ITS CURRENT AND FUTURE APPLICATION TO THE ISSUER, THE SECURITIES AND INVESTORS IS UNCERTAIN AT THIS TIME. YOU SHOULD CONSULT YOUR OWN TAX ADVISERS TO OBTAIN A MORE DETAILED EXPLANATION OF THE FOREIGN ACCOUNT TAX COMPLIANCE ACT AND TO LEARN HOW THIS LEGISLATION MIGHT AFFECT YOU IN YOUR PARTICULAR CIRCUMSTANCE, INCLUDING HOW THE FOREIGN ACCOUNT TAX COMPLIANCE ACT RULES MAY APPLY TO PAYMENTS RECEIVED UNDER THE SECURITIES BOTH CURRENTLY AND IN THE FUTURE.

Change of circumstances

Neither the delivery of the Base Prospectus (including any information incorporated by reference in the Base Prospectus) or any Final Terms nor any sale of Securities shall create any impression that information in such documents relating to the Issuer is correct at any time subsequent to the date of the Registration Document (as supplemented) or that any other information supplied in connection with the Securities or the Programme is correct as of any time subsequent to the date of the relevant document containing the same (the foregoing being without prejudice to the Issuer's obligations under applicable rules and regulations).

Unauthorised representations and solicitations

In connection with the issue and sale of Securities, no person has been authorised to give any information or to make any representation not contained in or consistent with the Base Prospectus and Final Terms and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer. The Issuer does not accept responsibility for any information not contained in the Base Prospectus and Final Terms. The Base Prospectus does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offering or solicitation and no action is being taken to permit an offering of the Securities or the distribution of the Base Prospectus in any jurisdiction where action is required.

Calculations and determinations

Unless otherwise specified, all calculations and determinations in respect of the Securities shall be made by either Barclays Bank PLC, Barclays Bank Ireland PLC or Barclays Capital Securities Limited (acting in such capacity, the "**Determination Agent**").

Brexit

Although the United Kingdom ceased to be a member state of the European Union (the "**EU**") on 31 January 2020, the withdrawal agreement between the United Kingdom and the European Union under Article 50(2) of the Treaty on European Union provides that during the transition period ending (subject to postponement) on 31 December 2020 ("**IP completion day**"), save for certain qualifications which are not relevant for the purposes of the Base Prospectus (unless otherwise expressly provided), (i) EU law shall produce in respect of and in the United Kingdom the same legal effects as those which it produces within the European Union and its member states, and shall be interpreted and applied in accordance with the same methods and general principles as those applicable within the European Union, and (ii) any reference to member states in EU law, including as implemented and applied by member states, shall be understood as including the United Kingdom. This agreement has been given effect in the law of the United Kingdom by the European Union (Withdrawal) Act 2018 as amended by the European Union (Withdrawal Agreement) Act 2020 (the "**EUWA**").

Under the EUWA, in the event that the EU and UK do not reach an agreement that will govern relations between them by the end of the transition period, most EU law, as it stands on IP completion day, will be automatically converted or transposed into a freestanding body of UK domestic law, known as "retained EU law". For example, with regard to the Prospectus Regulation (and associated regulations), the EUWA provides that from IP completion day the Prospectus Regulation regime will form part of retained EU law in the UK, subject to certain minor modifications provided by secondary legislation. Nevertheless, the EUWA provides that after IP completion day the UK courts are not bound by any principles laid down, or any decisions made, on or after IP completion day by the Court of Justice of the European Union ("**CJEU**") and cannot refer any matter to the CJEU (though the UK courts can still have regard to anything done by the CJEU, another EU entity or the EU). Also any question as to the validity, meaning or effect of any retained EU law would be decided, so far as that law is unmodified on or after IP completion day and so far as they are relevant to it, in accordance with any retained EU case law and any retained general principles of EU law and having regard (among other things) to the limits, immediately before IP completion, of EU competences. Finally, (absent any agreement with the UK to the contrary), it will be in the UK government's authority to enact legislation which diverges from retained EU law with regard to the Prospectus Regulation regime or any other area (though it is currently the UK government's stated intention that the current Prospectus Regulation regime will be applicable to issuers making an offer to the public in the UK or applying to admit securities to a regulated market in the UK, save to operate effectively in a UK-only context). For these reasons, there can be no assurance that after IP completion day (subject to any agreement that may be reached between the UK and the EU), provisions in the Prospectus Regulation regime (or any other legislation) which form part of the UK's retained EU law will be interpreted in the same way in the EU and the UK either by competent authorities or by the relevant courts, or will not be amended by the UK government, and this could affect an investor's (particularly a UK investor's) rights and remedies under the Prospectus Regulation regime (and other legislation).

Use of a benchmark

Amounts payable under the Securities may be calculated or otherwise determined by reference to an index or a combination of indices. Any such index may constitute a benchmark for the purposes of the Benchmarks Regulation (Regulation (EU) 2016/1011) (as amended or superseded, the "**Benchmarks Regulation**"). If any such index does constitute such a benchmark, the Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmarks Regulation. Not every index will fall within the scope of the Benchmarks Regulation. Transitional provisions in the Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the Final Terms. The registration status of any administrator under the Benchmarks Regulation is a matter of public record and, save where required

by applicable law, the Issuer does not intend to update the Final Terms to reflect any change in the registration status of the administrator.

Definitions relating to Barclays entities

In this Document, "**Group**" or "**Barclays**" mean Barclays PLC together with its subsidiaries and the term "**BBPLC Group**" means Barclays Bank PLC together with its subsidiaries.

RISK FACTORS

You should only invest in the Securities after assessing these principal risks, including any risks applicable to the relevant Underlying Reference Asset(s). The risks described in this section can be cumulative and apply simultaneously which may unpredictably affect the Securities. Specifically, no assurance can be given as to the effect that any combination of risk factors may have on the value of and return on the Securities. The effect of any one factor may be offset or magnified by the effect of another factor. The risks below are not exhaustive and there may be additional risks and uncertainties that are not presently known to the Issuer or that the Issuer currently believes to be immaterial but that could have a material impact on the business, operations, financial condition or prospects of the Issuer or the value of and return on the Securities.

You should consider carefully the following discussion of risks to help you decide whether or not the Securities are suitable for you.

RISK WARNING

There are a number of circumstances in which you may lose some or all of your investment in the Securities.

The terms of the Securities do not provide for scheduled minimum payment of the face value or issue price of the Securities at maturity: in such case, depending on the performance of the Underlying Preference Share and in turn the Underlying Preference Share Reference Asset(s), you may lose some or all of your investment.

The payment of any amount due under the Securities is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Securities are unsecured obligations. They are not deposits and they are not protected under the deposit guarantee scheme operated by the Central Bank of Ireland or any other deposit protection insurance scheme. Therefore, if the Issuer fails or is otherwise unable to meet its payment obligations under the Securities, you will lose some or all of your investment.

You may also lose some or all of your investment in the following circumstances:

- The market price of your Securities prior to maturity may be significantly lower than the purchase price you paid for them. Consequently, if you sell your Securities before their scheduled maturity, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances prior to their scheduled maturity and, in such case, the early redemption amount paid to you may be less than what you paid for the Securities.
- The terms and conditions of your Securities may be adjusted by the Issuer or Determination Agent in certain circumstances with the effect that the amount payable to you is less than your initial investment.

RISK FACTORS RELATING TO THE ISSUER

The Securities are unsecured obligations, are not deposits and are not protected under the deposit guarantee scheme operated by the Central Bank of Ireland or any other deposit protection insurance scheme. You are therefore exposed to the creditworthiness of the Issuer and any deterioration in the Issuer's creditworthiness or perceived creditworthiness (whether measured by actual or anticipated changes in the credit ratings of the Issuer) may adversely affect the value of the Securities.

The Issuer's principal activities are the provision of corporate and investment banking services to EU corporate entities, retail banking services in Germany and Italy and private banking services to EU clients and, as such, faces a variety of risks that are substantial and inherent in its businesses. These risks are described in the section '*Risk Factors*' on pages 6 to 21 of the Registration Document.

RISK FACTORS RELATING TO THE SECURITIES**1. RISKS ASSOCIATED WITH THE VALUATION, LIQUIDITY AND OFFERING OF THE SECURITIES****1.1 The initial market value of the Securities is likely to be lower, and may be significantly lower, than the issue or initial purchase price of the Securities**

The market value of the Securities is likely to be lower, and may be significantly lower, than the issue price of the Securities. In particular, the difference between the issue price and the initial market value may be a result of:

- (a) where permitted by applicable law, amounts with respect to commissions relating to the issue and sale of the Securities (if not already disclosed, information with respect to the amount of

any such inducements, commissions and fees may be obtained from the Issuer or distributor upon request);

- (b) the estimated profit that the Issuer and its affiliates expect to earn in connection with structuring the Securities;
- (c) internal funding rates (which are internally published borrowing rates based on variables such as market benchmarks, the Issuer's appetite for borrowing and the Issuer's existing obligations coming to maturity), which may vary from the levels at which the Issuer and its affiliates' benchmark debt securities trade in the secondary market;
- (d) the estimated cost which the Issuer or its affiliates may incur in hedging the Issuer's obligations under the Securities; and
- (e) development and other costs which the Issuer or its affiliates may incur in connection with the Securities.

Accordingly, the issue or purchase price of the Securities is likely to be more than the initial market value of the Securities, and this could result in a loss if you sell the Securities prior to scheduled redemption.

1.2 The secondary market value of the Securities will likely be lower than the original issue price of the Securities

Any secondary market prices of the Securities will likely be lower than the original issue price of the Securities because, among other things, secondary market prices (as described in risk factor 1.1 (*The initial market value of the Securities is likely to be lower, and may be significantly lower, than the issue or initial purchase price of the Securities*) above) will likely be reduced by selling commissions, profits and hedging and other costs that are accounted for in the original issue price of the Securities. As a result, the price, if any, at which the Manager or any other person would be willing to buy Securities from you in secondary market transactions, if at all, is likely to be lower than the original issue price. Any sale by you prior to the scheduled redemption date could result in a substantial loss. See the immediately following risk factor for information about additional factors that may impact any secondary market prices of the Securities.

1.3 The Securities are designed to be buy-to-hold instruments and the value and quoted price of your Securities (if any) at any time prior to redemption will reflect many factors and cannot be predicted

The market value of your Securities may be affected by the volatility, level, value or price of the Underlying Preference Share, and indirectly by the Underlying Preference Share Reference Asset(s) at the relevant time, changes in interest rates, the financial condition of the Issuer (whether such changes are actual or perceived) and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity of the Securities and other factors. Some of these factors are interrelated in complex ways; as a result, the effect of any one factor may be offset or magnified by the effect of another factor.

The price, if any, at which you will be able to sell your Securities prior to maturity may be substantially less than the amount you originally invested. The following paragraphs describe the manner in which the market value of the Securities may be affected in the event of a change in a specific factor, assuming all other conditions remain constant.

- Performance of the Underlying Reference Asset(s). Amounts payable under the terms of the Securities will be linked to the change in value of the Underlying Preference Share(s), which may fluctuate up or down depending on the performance of one or more Underlying Preference Share Reference Asset(s). Any such Underlying Preference Share(s) together with any relevant Underlying Preference Share Reference Asset(s) is referred to as an '**Underlying Reference Asset**'. The market value of the Securities prior to maturity will likely depend substantially on the current level (or, in some cases, performance since the date on which the Securities were originally priced) of the Underlying Preference Share(s) relative to its initial price. If

you decide to sell your Securities prior to maturity, when the current price of the Underlying Preference Share(s) at the time of sale is favourable relative to its initial price, you may nonetheless receive substantially less than the amount that would be payable at maturity based on that level, value or price because of expectations that the level, value or price will continue to fluctuate until the final price is determined.

The value of and return on your Securities will depend on the performance of the Underlying Preference Share and in turn the Underlying Preference Share Reference Asset(s). The performance of the Underlying Preference Share Reference Asset(s) may be subject to unpredictable change over time, which may depend on many factors, including financial, political, military or economic events, government actions and the actions of market participants. Any of these events could have a negative effect on the value of the Underlying Preference Share(s) which in turn could adversely affect the value of and return on your Securities.

See also risk factor 4 (*RISKS ASSOCIATED WITH SECURITIES LINKED TO AN UNDERLYING PREFERENCE SHARE(S)*).

- Volatility of the Underlying Reference Asset(s). Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility or the expectation of volatility of the Underlying Preference Share(s), the Underlying Preference Share Reference Asset(s) or its or their components increases or decreases, the market value of the Securities may be adversely affected.
- Interest rates. The market value of the Securities will likely be affected by changes in interest rates. Interest rates also may affect the economy and, in turn, the value of the Reference Asset(s) (if any) (or its components, if any), which would affect the market value of the Securities.
- Supply and demand for the Securities. In general, if the supply of the Securities increases and/or the demand for the Securities decreases, the market value of the Securities may be adversely affected. The supply of the Securities, and therefore the market value of the Securities, may be affected by inventory positions held by the Issuer or its affiliates.
- The Issuer's or BBPLC Group's financial condition, credit ratings and results of operations. Actual or anticipated changes in the financial condition of the Issuer or BBPLC Group, current credit ratings or results of operations may significantly affect the market value of the Securities. The significant difficulties experienced in the global financial system in recent periods and resulting lack of credit, lack of confidence in the financial sector, increased volatility in the financial markets and reduced business activity could materially and adversely affect the Issuer's business, financial condition, credit ratings and results of operations. However, because the return on the Securities is dependent upon factors in addition to the Issuer's ability to pay or settle its obligations under the Securities (such as the final level, value or price of the Underlying Preference Share(s) and in turn the Underlying Preference Share Reference Asset(s)), an improvement in the Issuer's financial condition, credit ratings or results of operations is not expected to have a positive effect on the proceeds paid under the Securities. These credit ratings relate only to the Issuer's creditworthiness, do not affect or enhance amounts payable under the terms of the Securities and are not indicative of the risks associated with the Securities or an investment in the Underlying Reference Asset(s). A rating is not a recommendation to buy, sell or hold Securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.
- Time remaining to maturity. A 'time premium' results from uncertainty concerning the future level, value or price of the Underlying Preference Share(s) and in turn the Underlying Preference Share Reference Asset(s) during the period prior to the maturity of the Securities. As the time remaining to the maturity of the Securities decreases, this time premium will likely decrease, potentially adversely affecting the market value of the Securities. As the time remaining to maturity decreases, the

market value of the Securities may be less sensitive to the volatility in the Underlying Preference Share Reference Asset(s). See risk factor 1.4 (*Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption*).

- Events affecting or involving the Underlying Preference Share Reference Asset(s). Economic, financial, regulatory, geographic, judicial, political and other developments that affect the level, value or price of the Underlying Preference Share Reference Asset(s), and real or anticipated changes in those factors, also may affect the market value of the Securities. For example, for Underlying Preference Share Reference Asset(s) composed of equity securities, the financial condition and earnings results of the share issuer, and real or anticipated changes in those conditions or results, may affect the market value of the Underlying Preference Share(s) which in turn may affect the market value of the Securities. In addition, speculative trading by third parties in the Underlying Preference Share Reference Asset(s) could significantly increase or decrease the level, value or price of the Underlying Preference Share Reference Asset(s), thereby exposing the Underlying Preference Share Reference Asset(s) to additional volatility which could affect the market value of the Underlying Preference Share(s) which in turn may affect the market value of the Securities.
- Exchange rates. Depending on the terms of the Securities, movements in exchange rates and the volatility of the exchange rates between the currency of denomination of the Securities and the currency of the Underlying Preference Share Reference Asset(s) (if different) may affect the market value of the Underlying Preference Share(s) which in turn may affect the market value of the Securities.
- Issuer call right. During any period when the Issuer may elect to redeem the Securities, and potentially prior to this period, the market value of the Securities will generally not rise above the price at which they can be redeemed.

The effect of any one or more of the factors specified above may offset the effect of the change in the market value of the Securities attributable to another factor.

These factors may affect the market price of the Securities, including any market price which you receive in any secondary market transaction, and may be: (i) different from the value of the Securities as determined by reference to the pricing models of the Issuer or the Determination Agent; and (ii) less than the issue price. As a result, if you sell your Securities prior to scheduled maturity, you may receive back less than your initial investment or even zero.

1.4 Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption

The Securities are designed to be buy-to-hold investments. You must be prepared to hold the Securities until their scheduled maturity.

The Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid and you may not be able to find a buyer. Therefore, you may not be able to sell your Securities or, if you can, you may only be able to sell them at a price which is substantially less than the original purchase price.

The Issuer may list the Securities on a stock exchange but, in such case, the fact that such Securities are listed will not necessarily lead to greater liquidity. If Securities are not listed or traded on any exchange, pricing information for such Securities may be more difficult to obtain and they may be more difficult to sell.

The Issuer is under no obligation to make a market or to repurchase the Securities (subject to the next paragraph). The Issuer and any Manager may, but are not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. If any Securities

are redeemed in part, then the number of Securities outstanding will decrease. Any of these activities may have an adverse effect on the liquidity and/or price of the outstanding Securities in the secondary market.

Any of the Issuer or a Manager or other party may, as part of its activities as a broker and dealer in fixed income and equity securities and related products or pursuant to stock exchange listing requirements, make a secondary market in relation to any Securities and may provide an indicative bid price on a daily basis. Any indicative prices so provided shall be determined by the relevant party in its sole discretion taking into account prevailing market conditions and shall not be a representation by such party that any Securities can be purchased or sold at such prices (or at all).

Where the Issuer does quote an indicative bid price for the Securities, the Issuer may determine the price in a significantly different manner to other market participants. Any price will depend on an assortment of factors including, but not limited to, (i) the creditworthiness of the Issuer, (ii) the time to maturity or expiry of the Securities, (iii) the then current funding levels of the Issuer taking into account market conditions, including the cost to replace a funding amount represented by the Securities being repurchased for a term equivalent to the time to maturity or expiry, and (iv) the value of the Underlying Preference Share Reference Asset(s) and in turn the Underlying Preference Share(s) – see risk factor 1.2 (*The secondary market value of the Securities will likely be lower than the original issue price of the Securities*). For example, without taking into account the value of the Underlying Preference Share(s), if the Securities are due to mature in five years' time and a holder wanted the Issuer to repurchase its holdings in those Securities, the Issuer may, among other matters, calculate what it would cost to replace the funding amount represented by the holder's repurchase request for the remaining term of the Securities (in this example, five years). The then current market conditions affecting the Issuer's ability to borrow funds for a five-year term would influence the level of the secondary market price. The higher the current funding levels for the Issuer as compared to funding levels for a comparable term on the Issue Date, the more likely the secondary market price of the Securities would be negatively affected (without taking into consideration changes to other factors that impact the price). The lower the current funding levels for the Issuer as compared to funding levels for a similar term on the Issue Date, the more likely the secondary market price of the Securities would be positively affected (without taking into consideration changes to other factors that impact the price).

If the Issuer or Manager elects to make a secondary market, it may suspend or terminate such market at any time and impose other conditions and quote prices that may vary substantially from other market participants. For these reasons, you should not assume that a secondary market will exist, and you should be prepared to hold your Securities until their scheduled maturity. Where the Issuer or Manager elects to offer such secondary market, conditions imposed may include, but are not limited to:

- (a) providing a bid/offer spread determined by the Issuer in its commercially reasonable discretion;
- (b) providing the timing that any secondary market quotation will remain open, or in any event, not longer than what the Issuer considers a reasonable time;
- (c) requiring that normal market and funding conditions prevail at such date; and
- (d) limiting the number of Securities in respect of which it is prepared to offer such secondary market.

Any of these conditions may severely limit the availability of any such secondary market and may result in you receiving significantly less than you would otherwise receive by holding the Securities to their scheduled maturity.

1.5 **Over-issuance**

As part of its issuing, market-making and/or trading arrangements, the Issuer may issue more Securities than those which are to be initially subscribed for or purchased by third party

investors. The Issuer (or the Issuer's Affiliates) may hold such Securities for the purpose of meeting any future investor interest or to satisfy market-making requirements. You should therefore not regard the issue size of any Securities as indicative of the depth or liquidity of the market for such Securities, or of the demand for such Securities, and you should assume that a secondary market in the Securities may be limited and there may be little or no demand for your Securities should you wish to sell them prior to their maturity.

1.6 The Issuer may withdraw the public offer at any time

In the case of public offers, the Issuer may provide that it is a condition to the offer that the Issuer reserves the right to withdraw the offer in whole or in part at any time at the discretion of the Issuer, including for reasons beyond its control, such as extraordinary events, substantial change of the political, financial, economic, legal, monetary or market conditions at national or international level and/or adverse events regarding the financial or commercial position of the Issuer and/or other relevant events that in the determination of the Issuer may be prejudicial to the offer. In such circumstances, the offer will be deemed to be null and void. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.

2. RISKS ASSOCIATED WITH THE DETERMINATION OF REDEMPTION AMOUNTS UNDER THE SECURITIES

2.1 There are risks where the redemption amount of your Securities depends only on the final performance

If the redemption amount on your Securities is dependent on the performance of the Underlying Preference Shares as at the final valuation date only (rather than in respect of multiple periods throughout the term of the Securities) then you may not benefit from any movement in level, value or price of the Underlying Preference Shares during the term of the Securities that is not reflected in the performance as at the final valuation date.

2.2 Non-trading days or market disruption events may adversely affect the value of and return on your Securities

If the Determination Agent determines that a scheduled valuation date in respect of the Underlying Preference Share to which the Securities are linked falls on a day which is not a scheduled trading day or any other day which is subject to adjustment in accordance with the terms and conditions of the Underlying Preference Share, then the relevant valuation date may be postponed until the next scheduled trading day.

The Determination Agent may determine that the markets have been affected in a manner that prevents it from properly determining the value of an Underlying Preference Share Reference Asset on a scheduled valuation date. These events may include disruptions or suspensions of trading in the markets as a whole. In such case, the valuation date in respect of the Underlying Preference Share and the relevant corresponding valuation date in respect of the Securities will be postponed and the value of and return on the Securities could be adversely affected.

If any valuation date in respect of the Underlying Preference Share is postponed to the last possible day and the market disruption event is still occurring on that day or such day is not a trading day, the determination agent in respect of the Underlying Preference Share will nevertheless determine the value of the relevant Underlying Preference Share Reference Asset(s) on such last possible day. Any such determination may negatively impact the value of and return on the Securities.

2.3 There are risks where the redemption amount of your Securities is linked to Underlying Preference Shares the terms of which possess certain features

(a) Participation rates

If the terms of the Underlying Preference Share(s) for your Securities provide that the amount payable on the Underlying Preference Share(s) is based upon the performance, price, value or level of the Underlying Preference Share Reference Asset(s) multiplied by a participation rate which is over 100 per cent, the Underlying Preference Share(s), and therefore your Securities, may have a disproportionate exposure to the performance of the Underlying Preference Share Reference Asset(s). Due to this leverage effect the Securities may represent a very speculative and risky form of investment, since any loss in the value of and return on the Underlying Preference Share Reference Asset(s) carries the risk of a disproportionately higher loss in the value of and return on the Underlying Preference Share(s) and therefore on your Securities.

If the terms of the Underlying Preference Share(s) for your Securities provide that the amount payable on the Underlying Preference Share(s) is based upon the performance, price, value or level of the Underlying Preference Share Reference Asset(s) multiplied by a participation rate which is under 100 per cent and, at redemption, the final performance, price, value or level of the relevant Underlying Preference Share Reference Asset(s) is greater than the initial performance, price, value or level of such Underlying Preference Share Reference Asset(s), the return on the Underlying Preference Share(s) and therefore on your Securities may be significantly less than if you had purchased the Underlying Preference Share Reference Asset(s) directly. This is because a participation rate of less than 100 per cent will reduce your exposure to any positive return on the Underlying Preference Share Reference Asset(s).

(b) **'Barrier' feature**

If the terms of the Underlying Preference Share(s) for your Securities provide that the calculation of any redemption amount depends on the level, value or price of the Underlying Preference Share Reference Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities, such redemption amount may alter dramatically depending on whether the barrier is reached or crossed (as applicable). This means you may receive less (or, in certain cases, more) if the level, value or price of the Underlying Preference Share Reference Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable). Therefore, the level, value or price of the Underlying Preference Share Reference Asset(s) in respect of the barrier during a specified period or on specified dates will affect the value of the Underlying Preference Share(s) and therefore the value or return on your Securities, and in certain cases you could lose some or all of your investment.

(c) **Averaging**

If the Underlying Preference Share(s) for your Securities include an averaging feature, the return on your Securities will depend on an initial price and/or final price which is the arithmetic average of the applicable levels, prices or other applicable values of the Underlying Preference Share Reference Asset(s) on the specified averaging dates, rather than on one initial valuation date or final valuation date. This means that if the applicable level, price or value of the Underlying Preference Share Reference Asset(s) dramatically changes on one or more of the averaging dates, the value of the Underlying Preference Share and therefore the amount payable on your Securities may be significantly less than it would have been if the amount payable on the Underlying Preference Share(s) had been calculated by reference to a single value taken on an initial valuation date or final valuation date.

(d) **Lookback dates**

Where the terms and conditions of the Underlying Preference Share(s) for your Securities provide that 'max lookback-out' applies, the return on the Underlying Preference Share(s) will depend on the maximum of the applicable levels, prices or other applicable values of the Underlying Preference Share Reference Asset(s) on the specified 'lookback-out' dates, rather than a single final valuation date. This means that if the applicable level, price or value of the Underlying Preference Share Reference Asset(s) dramatically surges on one of the 'max lookback-out' dates, and the return on the Underlying Preference Share(s) is proportional to the negative performance of the Underlying Preference Share Reference Asset(s), the return on the Underlying Preference Share(s) and therefore your Securities may be significantly less than it would have been if the amount payable for the Underlying Preference Share(s) had

been calculated by reference to a single value taken on a single valuation date or another method.

Where the terms and conditions of the Underlying Preference Share(s) for your Securities provide that 'min lookback-out' applies, the return on the Underlying Preference Share(s) will depend on the lowest of the applicable levels, prices or other applicable values of the Underlying Preference Share Reference Asset(s) on the specified 'lookback-out' dates, rather than a single final valuation date. This means that if the applicable level, price or value of the Underlying Preference Share Reference Asset(s) dramatically falls on one of the 'min lookback-out' dates, the return on the Underlying Preference Share(s) and therefore your Securities may be significantly less than it would have been if the amount payable for the Underlying Preference Share(s) had been calculated by reference to a single value taken on a single valuation date or another method.

Where the terms and conditions of the Underlying Preference Share(s) for your Securities provide that 'max lookback-in' applies, the return on the Underlying Preference Share(s) will depend on the maximum of the applicable levels, prices or other applicable values of the Underlying Preference Share Reference Asset(s) on the specified 'lookback-in' dates, rather than a single initial valuation date. This means that if the applicable level, price or value of the Underlying Preference Share Reference Asset(s) dramatically surges on one of the 'lookback-in' dates, the return on the Underlying Reference Asset(s) and therefore your Securities may be significantly less than it would have been if the amount payable for the Underlying Reference Asset(s) had been calculated by reference to a single value taken on a single valuation date or another method.

Where the terms and conditions of the Underlying Preference Share(s) for your Securities provide that 'min lookback-in' applies, the return on the Underlying Preference Share(s) will depend on the lowest of the applicable levels, prices or other applicable values of the Underlying Preference Share Reference Asset(s) on the specified 'lookback-in' dates, rather than a single initial valuation date. This means that if the applicable level, price or value of the Underlying Preference Share Reference Asset(s) dramatically falls on one of the 'min lookback-in' dates, and the return on the Underlying Preference Share(s) is proportional to the negative performance of the Underlying Preference Share Reference Asset(s), the return on the Underlying Preference Share(s) and therefore your Securities may be significantly less than it would have been if the amount payable for the Underlying Preference Share(s) had been calculated by reference to a single value taken on a single valuation date or another method.

(e) **Caps**

Where the terms of the Underlying Preference Share(s) provide that the amount payable on the Underlying Preference Share(s) is subject to a cap, your ability to participate in any change in the value of the Underlying Preference Share Reference Asset(s) will be limited, no matter how much the level, price or other value of the Underlying Preference Share Reference Asset(s) rises above the cap level over the life of the Underlying Preference Share(s) and the Securities. Accordingly, the value of the Underlying Preference Share(s) and therefore the value or return on your Securities may be significantly less than if you had purchased the Underlying Preference Share Reference Asset(s) directly.

(f) **'Worst-of'**

If the terms of the Underlying Preference Share(s) provide that the 'underlying performance type' of the Underlying Preference Share(s) is 'worst-of' you will be exposed to the performance of each Underlying Preference Share Reference Asset and, in particular, to the Underlying Preference Share Reference Asset which has the worst performance.

This means that, irrespective of how the other Underlying Preference Share Reference Assets perform, if any one or more Underlying Preference Share Reference Assets fail to meet a relevant threshold or barrier for the calculation of any settlement amount payable under the Underlying Preference Share(s), the value of the Underlying Preference Share(s) and therefore

the value of and return on your Securities may be reduced and you could lose some or all of your initial investment.

(g) **Baskets of Underlying Preference Share Reference Assets**

If the terms of the Underlying Preference Share(s) reference a basket of Underlying Preference Share Reference Assets, you will be exposed to the performance of each Underlying Preference Share Reference Asset in the basket. You should consider the level of interdependence, or 'correlation', between each of the basket constituents with respect to the performance of the basket.

You should be aware that the performance of a basket with fewer constituents will be more affected by changes in the values of any particular basket constituent than a basket with a greater number of basket constituents. Additionally, you should note that the performance of a basket that gives a greater 'weight' to a basket constituent, as compared to other basket constituents, will be more affected by changes in the value of that particular basket constituent than a basket which apportions an equal weight to each basket constituent.

The performance of basket constituents may be moderated or offset by one another. This means that, even in the case of a positive performance of one or more constituents, the performance of the basket as a whole may be negative if the performance of the other constituents is negative to a greater extent.

3. **RISKS ASSOCIATED WITH EARLY REDEMPTION, ADJUSTMENT AND OTHER TERMS OF THE SECURITIES**

3.1 **If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk**

The Securities may be redeemed prior to their scheduled redemption date, and you are, therefore, subject to the following risks:

- risk of loss of investment: depending on the circumstance in which your Securities are redeemed prior to their scheduled redemption date, the amount of redemption proceeds you receive may be less than your original investment;
- risk of loss of opportunity: in the event that your Securities are redeemed prior to their scheduled redemption date, you will lose the opportunity to participate in any subsequent (theoretical) positive performance of the Underlying Preference Share(s) and be unable to realise any potential gains in value of the Securities; and
- reinvestment risk: following such early redemption, you may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest rate for a similar level of risk. You should consider such reinvestment risk in light of other available investments before you purchase the Securities.

3.2 **Your Securities may redeem early or may be adjusted following an 'Additional Disruption Event', 'Preference Share Termination Event', or early redemption for unlawfulness or impracticability**

There are certain events – relating to the Issuer, the Underlying Preference Share(s), taxation or the relevant currency – the occurrence of which may cause the Securities to be redeemed prior to their scheduled redemption date:

(a) **'Additional Disruption Event'**

This includes:

- an optional additional disruption event, which may include, but not be limited to, the insolvency of the issuer of the Underlying Preference Shares or an adjustment to the terms and conditions of the Underlying Preference Shares;

- an extraordinary market disruption event preventing the Issuer's performance of its obligations under the Securities;
- an event impacting one or more currencies that the Issuer determines would materially disrupt or impair its ability to meet its obligations or otherwise settle, clear, or hedge the Securities; and
- a change in law that means the Issuer will incur a materially increased cost in performing its obligations under the Securities.

If any of these events occurs, the Issuer may:

- (i) adjust the terms and conditions of the Securities (without the consent of holders); or
- (ii) if the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result and preserve substantially the economic effect to the holders of a holding of the relevant Security, redeem the Securities prior to their scheduled redemption date.

Any adjustment made to the terms and conditions of the Securities (which may include a reduction in the amount otherwise payable under the Securities in order to reflect increased costs or otherwise to the Issuer) may have a negative effect on the value of and return on the Securities.

In the event of early redemption of your Securities due to the occurrence of any of the above events the early cash settlement amount you will receive will be determined by the Determination Agent in the same way as the final cash settlement amount payable at maturity would have been determined except that the final value of the Underlying Preference Share(s) used in such determination will be the value of the Underlying Preference Share(s) on the day of the event giving rise to the early redemption. In any case, the early cash settlement amount you will receive may be less than your original investment and you could lose some or all of your investment. See also risk factor 3.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*) above.

(b) **'Preference Share Termination Event'**

A Preference Share Termination Event will occur if a specified early redemption event in respect of any relevant Underlying Preference Share occurs or in accordance with the terms and conditions of such Underlying Preference Share (for example, following the occurrence of an "autocall event" such as the price, level or value of the relevant Underlying Preference Share Reference Asset(s) reaching a specified level).

A Preference Share Termination Event also will occur if the Issuer determines that the Underlying Preference Share is redeemed for any reason other than as a result of its scheduled redemption, for example:

- the issuer of the Underlying Preference Share determining that it has or will become unlawful or impractical to perform its obligations under the Underlying Preference Share;
- an extraordinary market disruption event preventing the issuer of the Underlying Preference Share performing its obligations under the Underlying Preference Share;
- an extraordinary and/or disruptive event relating to the existence, continuity, trading, valuation, pricing or publication of an Underlying Preference Share Reference Asset;
- an event impacting one or more currencies that the issuer of the Underlying Preference Share determines would materially disrupt or impair its ability to meet its obligations or otherwise settle, clear, or hedge the Underlying Preference Share;

- the ability of the issuer or a hypothetical issuer of the Underlying Preference Share, as the case may be, to source or unwind related transactions (which were put in place to provide the returns on the Underlying Preference Share) is adversely affected in any material respect; and
- if the determination agent becomes aware that your Securities have been subject to early redemption or are cancelled for reasons other than the early termination or redemption of such Underlying Preference Shares,

in each case, where the determination agent in respect of the Underlying Preference Share determines that no adjustment that could be made to the terms of the Underlying Preference Share would produce a commercially reasonable result and preserve substantially the economic effect to the holders of the Underlying Preference Share of a holding of the relevant Underlying Preference Share.

In the event of early redemption of your Securities due to the occurrence of any of the above events the early cash settlement amount you will receive will be determined by the Determination Agent in the same way as the final cash settlement amount payable at maturity would have been determined except that the final value of the Underlying Preference Share(s) used in such determination will be the value of the Underlying Preference Share(s) on the day of the event giving rise to the early redemption. In the case of an "autocall event", the terms and conditions of the Underlying Preference Share(s) may stipulate that each share be redeemed at an amount equal to its nominal amount or such other specified amount. The early cash settlement amount of your Securities will be determined by the Determination Agent by reference to such redemption amount. In other cases, the early cash settlement amount you will receive may be less than your original investment and you could lose some or all of your investment. See also risk factor 3.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*) above.

(c) **Unlawfulness or impracticability**

If the Issuer determines that the performance of any of its absolute or contingent obligations under the Securities has become unlawful or a physical impracticability, in whole or in part, the Issuer may redeem the Securities prior to their scheduled redemption date.

In the event of early redemption of your Securities due to the occurrence of any of the above events, the early cash settlement amount you will receive will be determined by the Determination Agent in the same way as the final cash settlement amount payable at maturity would have been determined except that the final value of the Underlying Preference Share(s) used in such determination will be the value of the Underlying Preference Share(s) on the day of the event giving rise to the early redemption. In any case, the early redemption amount you will receive may be less than your original investment and you could lose some or all of your investment. See also risk factor 3.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*) above.

3.3 **The Issuer may be substituted for another entity without your consent**

The Issuer may substitute itself as the principal obligor under the Securities for any other company which has an equivalent or better rating of long-term unsecured, unsubordinated and unguaranteed debt obligations from an internationally recognised rating agency. Such substitution may occur due to different reasons, including, but not limited to, a change in the Issuer's position in its corporate group, an adverse development in the taxation regime of the Issuer's home jurisdiction which subjects the payments by the Issuer to the holders to additional withholding tax, or a change in law which makes it unlawful for the Issuer to perform its obligations under the Securities within its home jurisdiction. While the Issuer will give advance notice to the holders (informing them of the identity and credit rating of the substitute issuer and any consequential amendments to the terms and conditions of the Securities), such substitute will proceed without the holders' consent. Following such a substitution, the original Issuer entity will be released from all payment obligations under the

Securities, and you will become subject to the credit risk of the substitute issuer under your Securities. You will have no right of claim against the original Issuer or the substituted Issuer in the event that such substitution has adverse tax consequences for you. A substitution of the Issuer may affect any listing of the Securities and, in particular, it may be necessary for the substituted issuer to reapply for listing on the relevant market or stock exchange on which the Securities are listed. See also General Condition 15 (*Substitution*).

3.4 There are foreign exchange risks where the terms and conditions of your Securities provide that payment under the Securities will be made in a currency which is different from the currency of the Underlying Preference Share Reference Asset(s) and/or different from your home currency, or subject to a foreign exchange conversion

If the terms and conditions of your Securities provide that payment under the Securities will be made in a currency which is different from the currency of the Underlying Preference Share Reference Asset(s) and/or different from your home currency then, depending on the particular payout terms of your Securities, you may be exposed to the adverse movement of the settlement currency of the Securities relative to the currency of the Underlying Preference Share Reference Asset(s) and/or your home currency.

Foreign exchange rates can be highly volatile and are determined by various factors, including supply and demand for currencies in the international foreign exchange markets, economic factors including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility, safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks.

A foreign exchange rate can be fixed by the sovereign government, allowed to float within a range of exchange rates set by the government or left to float freely. Exchange rates of most economically developed nations are permitted to fluctuate in value relative to each other. However, from time to time governments may use a variety of techniques, such as intervention by a country's central bank, the imposition of regulatory controls or taxes or changes in interest rates to influence the exchange rates of their currencies. In addition, governments around the world, including the governments of other major world currencies, have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. Governments may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by a devaluation or revaluation of a currency. These governmental actions could change or interfere with currency valuations and may cause foreign exchange rates to fluctuate more than would otherwise occur in response to economic forces, as well as in response to the movement of currencies across borders.

Foreign exchange fluctuations between your home currency and the currency in which payment under the Securities is due may affect you where you intend to convert gains or losses from the sale of Securities into your home currency and may eventually cause a partial or total loss of your initial investment.

3.5 If you have not fully satisfied each of the conditions to settlement, payment under the Securities shall be postponed and may ultimately be forfeited

If the Issuer determines that you have not satisfied each of the conditions to settlement in full, payment of the amount payable will not take place until all such conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Further, if you have not fully satisfied each of the conditions to settlement by the 180th calendar day (or such other period as specified in the terms and conditions of the Securities) following the final settlement cut-off date, you will lose your right to claim any cash payment, and you shall have no further claim against the Issuer under your Securities.

3.6 The terms and conditions of your Securities may be amended by the Issuer without your consent in certain circumstances

The terms and conditions of the Securities may be amended by the Issuer without the consent of the holders in certain circumstances, including to correct a manifest error. In certain other circumstances, such as an amendment which is prejudicial to the interests of the holders, the consent of a defined majority of holders is required. Resolutions passed at a duly convened meeting of holders, or passed in writing in lieu of a meeting, can bind all holders, including investors that did not attend the meeting or vote on the resolutions, or who do not consent to the amendment. Any such amendment may have a negative effect on the value of and return on the Securities.

3.7 There are risks in relation to Minimum Tradable Amounts and minimum Specified Denomination where specified to be applicable

Where the terms and conditions of your Securities provide for a Minimum Tradable Amount or Specified Denomination consisting of a nominal amount plus one or more integral multiples of another smaller amount, if you hold an amount which is less than the Minimum Tradable Amount or minimum Specified Denomination at the relevant time:

- you will not be able to transfer or sell your holding;
- you may not receive a Definitive Bearer Security in respect of such holding (should Definitive Bearer Securities be printed); and
- you would need to purchase a nominal amount of Securities such that your holding amounts to such Minimum Tradable Amount or minimum Specified Denomination in order to be able to sell or transfer Securities or receive a Definitive Bearer Security.

If Definitive Bearer Securities are issued, you should be aware that those Securities which have a denomination that is not an integral multiple of any minimum denomination may be illiquid and difficult to trade.

Notwithstanding the foregoing, such Securities will only be transferable in accordance with the rules of the relevant clearing system.

You should be aware that Temporary Global Securities will not be exchangeable for Definitive Bearer Securities, unless there is a default of the relevant clearing system and no alternative clearing system is found.

4. RISKS ASSOCIATED WITH SECURITIES LINKED TO AN UNDERLYING PREFERENCE SHARE(S)

Securities linked to an Underlying Preference Share(s) have a different risk profile to other unsecured debt securities and a particular issue of Securities may have features which contain particular risks. This section describes the most common features and related additional factors which you should take into account when considering an investment in such Securities. You should also consider the nature of the Underlying Preference Share Reference Asset(s) that apply to the Securities and refer to the corresponding risk factors set out below in subparagraph B. (*Risks associated with Underlying Preference Share(s) linked to specific types of Underlying Preference Share Reference Asset(s)*).

A. General risks associated with Securities linked to an Underlying Preference Share(s)

4.1 Past performance of an Underlying Reference Asset is not indicative of future performance

Any information about the past performance of an Underlying Reference Asset(s) should not be regarded as indicative of any future performance of such Underlying Reference Asset(s), or as an indication of the range of, or trends or fluctuations in, the price or value of such Underlying Reference Asset(s) that may occur in the future. It is not possible to predict the future value of the Securities based on such past performance. Since a profitable investment may be based on a particular trend or pattern in the performance of the Underlying Reference Asset(s) which has been demonstrated historically, if the actual results are materially different

from the historical performance, you may not realise the returns which you expect to receive from investing in the Securities.

4.2 You will have no claim against or interest in any Underlying Reference Asset(s)

The Securities are unsecured, and the Issuer has no obligation to hold the Underlying Reference Asset(s). You will not have any legal or beneficial rights of ownership in the Underlying Reference Asset(s). For example, where the Underlying Preference Share Reference Asset is a share, you will have no voting rights, no rights to receive dividends or other distributions or any other rights with respect to the Underlying Preference Share Reference Asset. Similarly, you will have no voting rights, no rights to receive any distributions or any other rights with respect to the Underlying Preference Share to which the Underlying Preference Share Reference Asset is linked. In addition, you will have no claim against any share issuer, index sponsor, fund issuer, fund sponsor or any other third party in relation to an Underlying Reference Asset; such parties have no obligation to act in your interests. Accordingly, you may receive a lower return on the Securities than you would have received had you invested directly in the Underlying Reference Asset(s).

4.3 There are certain risks if you are purchasing Securities for hedging purposes

If you are intending to purchase Securities as a hedge instrument, you should recognise the complexities of utilising Securities in this manner. Due to fluctuating supply and demand for the Securities and various other factors, there is a risk that the value of the Securities may not correlate with movements of the Underlying Reference Asset(s), and the Securities may not be a perfect hedge for the Underlying Reference Asset(s) or a portfolio containing the Underlying Reference Asset(s). In addition, it may not be possible to liquidate the Securities at a level reflective of the prevailing price, level or value of the Underlying Reference Asset(s). Accordingly, you may suffer unexpected losses if you purchase the Securities as a hedge instrument.

4.4 There are particular risks where your Securities are linked, directly or indirectly, to Underlying Preference Share Reference Asset(s) located in or otherwise exposed to emerging markets

If your Securities are linked, directly or indirectly, to Underlying Preference Share Reference Asset(s) issued by issuers in, or comprised of assets or constituents located in, emerging market jurisdictions, you should be aware that investments linked to emerging markets involve additional risks to those typically seen in more developed markets, including generally increased volatility, higher likelihood of governmental intervention and the lack of a developed system of law.

Such Securities may also be exposed to the risks of economic, social, political, financial and military conditions in such jurisdictions, including, in particular, political uncertainty and financial instability; the increased likelihood of restrictions on export or currency conversion; the greater potential for an inflationary environment; the possibility of nationalisation or confiscation of assets; the greater likelihood of regulation by national, provincial and local governments, including the imposition of currency exchange laws and taxes; less liquidity in emerging market currency markets as compared to the liquidity in developed markets and less favourable growth prospects, capital reinvestment, resources and self-sufficiency.

There is generally less publicly available information about emerging market issuers and potentially less developed accounting, auditing and financial reporting standards and requirements and securities trading rules. Furthermore, the small size of the securities markets and relative inexperience of local market participants in certain emerging market countries and the limited volume of trading in securities may make the Underlying Preference Share Reference Asset(s) illiquid and more volatile than investments in more established markets.

Any or all of these risks may have a negative impact on the value of and return on Securities with exposure to emerging markets.

4.5 There are risks associated with the discretions of the issuer and determination agent in respect of the Underlying Preference Share(s)

There are certain events – relating to the issuer of the Underlying Preference Share(s) (being Teal Investments Limited), the hedging arrangements of the issuer of the Underlying Preference Share(s) or the hypothetical issuer of the Underlying Preference Share(s) (such hypothetical issuer is deemed by the determination agent in respect of the Underlying Preference Share(s) to be a regulated financial institution active in the UK and the international capital markets who would enter into or execute hedging arrangements to hedge an issuer's obligations under the Underlying Preference Shares if such institution were to issue the Underlying Preference Share(s) but in an amount that would give itself financial exposure equivalent to that of the issuer of your Securities), the Underlying Preference Share Reference Asset(s), taxation, the relevant currency or other matters – the occurrence of which may give rise to discretionary powers of the determination agent in respect of the Underlying Preference Share(s) under the terms and conditions of the Underlying Preference Share(s). For example, the exercise of such discretionary powers may result in an early redemption of the Underlying Preference Share(s) which will result in a Preference Share Termination Event occurring under the Securities and may result in you receiving back less than your initial investment – see risk factor 3.2 (*Your Securities may redeem early or may be adjusted following an 'Additional Disruption Event', 'Preference Share Termination Event', or early redemption for unlawfulness or impracticability*).

In relation to the Underlying Preference Share Reference Asset(s), a key investment objective of the Underlying Preference Share(s) is to allow holders of Underlying Preference Share to gain an economic exposure to the Underlying Preference Share Reference Asset(s). If an Underlying Preference Share Reference Asset is materially impacted by an unexpected event (for example, a company merges and the original stock that formed an Underlying Preference Share Reference Asset is restructured or changed, or the rules of an index that is an Underlying Preference Share Reference Asset are materially modified) or the relevant price, level or value can no longer be calculated, then it may not be possible to achieve the investment objective of the Underlying Preference Share based on their original terms. In that case, the determination agent in respect of the Underlying Preference Share(s) may have discretionary powers under the terms and conditions of the Underlying Preference Share(s) to (i) adjust the terms and conditions of the Underlying Preference Share(s) to preserve the original economic terms and rationale, (ii) in certain cases, substitute the Underlying Preference Share Reference Asset(s) for another, (iii) calculate the relevant price, level or value itself, (iv) postpone payment (v) redeem the Underlying Preference Share(s) early or (vi) apply some combination thereof.

In relation to the hedging arrangements of the issuer or the hypothetical issuer of the Underlying Preference Share(s), you should be aware that (i) in exercising its discretionary powers under the terms and conditions of the Underlying Preference Share(s), the determination agent in respect of the Underlying Preference Share(s) may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on such actual or notional hedging arrangements in respect of the Underlying Preference Share(s); and (ii) if the terms of the Underlying Preference Share(s) provide that certain hedge disruption events apply, certain events which affect the hedging arrangements of the issuer or the hypothetical issuer of the Underlying Preference Share(s) can give rise to discretionary powers on the part of the determination agent in respect of the Underlying Preference Share(s).

Hedging arrangements are the transactions (if any) entered into by the issuer or the hypothetical issuer of the Underlying Preference Share(s) or one or more of its affiliates to seek to cover the exposure of the issuer or the hypothetical issuer of the Underlying Preference Share(s) to the relevant cash amounts to be paid under the Underlying Preference Share(s) as these fall due. This may involve investing directly in the Underlying Preference Share Reference Asset(s) or entering into derivative contracts referencing the Underlying Preference Share Reference Asset(s) or other techniques. The particular hedging arrangements (if any) undertaken by the issuer or the hypothetical issuer of the Underlying Preference Share(s), and their cost, will likely be a significant determinant of the issue price and/or economic terms of the Underlying Preference Share(s). Accordingly, if an event occurs which negatively impacts

the hedging arrangements of the issuer or the hypothetical issuer of the Underlying Preference Share(s), the determination agent in respect of the Underlying Preference Share(s) may have options available to it under the terms of the Underlying Preference Share(s) which it may select in its discretion in order to deal with the impact of the event on such hedging arrangements. These options may include adjustment of the terms of the Underlying Preference Share(s) or early redemption of the Underlying Preference Share(s). In the event of the early redemption of the Underlying Preference Share(s) the settlement amount that will be received by a holder of the Underlying Preference Share(s) will be an amount equal to (i) the calculation amount of the Underlying Preference Share(s) or (ii) the fair market value of the Underlying Preference Share(s) prior to redemption less, except where the final terms for the Underlying Preference Share(s) provides that 'unwind costs' is not applicable, such costs associated with unwinding the hedging arrangements of the issuer or the hypothetical issuer of the Underlying Preference Share(s) shall not be taken into account when determining such market value. This amount may be less than the value of the Underlying Preference Share(s) prior to such early redemption and may result in the amount you receive on your Securities being less than your original investment and, therefore, you could lose some or all of your investment.

Barclays Bank Ireland PLC is the Issuer of the Securities and will (unless otherwise specified in the Final Terms) be the Determination Agent in respect of the Securities and the determination agent in respect of the Underlying Preference Share(s). As a result, potential conflicts of interest may arise for Barclays Bank Ireland PLC in acting in such capacity – see risk factor 6 (*RISKS ASSOCIATED WITH CONFLICTS OF INTEREST AND DISCRETIONARY POWERS OF THE ISSUER AND THE DETERMINATION AGENT*).

B. Risks associated with Underlying Preference Share(s) linked to specific types of Underlying Preference Share Reference Asset(s)

4.6 Risks associated with Underlying Preference Share(s) linked to common shares, ADRs, GDRs and ETFs as Underlying Preference Share Reference Asset(s)

If the Underlying Preference Share(s) of your Securities specifies Underlying Preference Share Reference Asset(s) that are any one or more of a common share, ADR, GDR or ETF, the following risks will apply to the Securities:

(a) Risks associated with common shares, ADRs, GDRs and ETFs

(i) The performance of the Underlying Preference Share Reference Asset(s) depends on many diverse and unpredictable factors

The Underlying Preference Share(s) may be linked to common shares, American Depositary Receipts ("**ADRs**"), Global Depositary Receipts ("**GDRs**") and exchange traded funds ("**ETFs**") that are traded on a regulated, regularly operating, recognised open market within the meaning of the Listing Rules of Euronext Dublin and as shall be specified in the Final Terms in respect of the related Securities. The performance of such common shares, ADRs, GDRs and ETFs is dependent upon (A) macroeconomic factors, such as interest and price levels on the capital markets, currency developments and political factors as well as (B) company-specific factors such as earnings, market position, risk situation, shareholder structure and distribution policy. Any one or a combination of such factors could adversely affect the performance of the Underlying Preference Share Reference Asset(s) which, in turn, would have an adverse effect on the value of the Underlying Preference Share(s) and therefore on the value of and return on your Securities.

(ii) No dividends

Holders of Securities linked to the Underlying Preference Share that are in turn linked to common shares, ADRs, GDRs or ETFs will not participate in dividends or any other distributions paid on those common shares, ADRs, GDRs or ETFs. Therefore, you may receive a lower return by investing in the Securities than you would have had you directly invested in the common shares, ADRs, GDRs or ETFs underlying the

Underlying Preference Share. Furthermore, dividends payment and other distributions may have a dilutive effect on the price of the underlying common shares, ADRs, GDRs or ETFs. If such dilutive effect materialises, it could result in a reduction in the value of the Underlying Preference Share(s) and therefore in the value of and return on the Securities.

(iii) **Extraordinary events**

If a merger event, tender offer, nationalisation, insolvency, insolvency filing or delisting (all as described in the terms and conditions of the Underlying Preference Share(s)) occurs in relation to the underlying shares or the issuer of the relevant underlying shares, this will constitute an 'additional disruption event' leading to the adjustment by the determination agent in respect of the Underlying Preference Share(s) of the terms and conditions of the Underlying Preference Share(s) or the early redemption of the Underlying Preference Share(s) and therefore the early redemption of the Securities, and for an amount which may be less than you originally paid for the Securities – see risk factor 3.2 (*Your Securities may redeem early or may be adjusted following an 'Additional Disruption Event', 'Preference Share Termination Event', or early redemption for unlawfulness or impracticability*).

If the terms of the Underlying Preference Share(s) for your Securities provide that 'substitution of shares' applies, the occurrence of any of the events described in the above paragraph or a fund disruption event (in the case of an ETF) or share cancellation in relation to the underlying shares or the issuer of the relevant underlying shares (all as set out in the terms and conditions of the Underlying Preference Share(s)) may cause the replacement of the affected shares with substitute shares (as selected by the determination agent for the Underlying Preference Share(s) in accordance with the terms and conditions of the Underlying Preference Share(s)). This may have an adverse effect on the value of the Underlying Preference Share(s) and therefore on the value of and return on your Securities.

(iv) **Potential adjustment events**

A 'potential adjustment event' is an event which has a diluting or concentrating effect on the theoretical value of an Underlying Preference Share Reference Asset. If a potential adjustment event occurs under the terms of the Underlying Preference Share(s), the issuer of the Underlying Preference Share(s) may elect to amend the terms and conditions of the Underlying Preference Share(s) or to pay a cash amount to the holders of the Underlying Preference Share(s) to account for the diluting or concentrative effect of the event.

Any adjustment made to the terms and conditions of the Underlying Preference Share(s) may have a negative effect on the value of the Underlying Preference Share(s) and therefore on the value of and return on the Securities. Any amount received on your Securities following an amendment of the terms and conditions of the Underlying Preference Share(s) may be less than your initial investment and could be zero.

(b) **Additional risks associated with common shares**

(i) **Actions by the share issuer may negatively affect the value of the Securities**

The issuer of common shares of a company will not have participated in the offering and issuance of the Underlying Preference Share(s) or the Securities and none of the Issuer or the Manager(s) will have made any investigation or enquiry in relation to the share issuer for the purposes of the Securities. Therefore, there can be no assurance that all events occurring prior to the Issue Date of the Securities that would affect the trading price of the relevant share(s) will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning the share issuer could affect the trading price of the share and therefore the trading price of Underlying Preference Share(s) and of the Securities. Also, you should be aware that the issuer of any common shares may or may not take

actions in respect of common shares without regard to the interests of holders of the Underlying Preference Share(s) or the Securities and any of these actions could have a negative effect on the value of the Securities.

(c) **Additional risks associated with depository receipts**

(i) **There is a risk of realising a lower return than the shares underlying the depository receipt**

ADRs are instruments issued in the US in the form of share certificates representing a number of shares held outside the US, in the country where the share issuer is domiciled. GDRs are instruments in the form of share certificates representing a number of shares held in the country of domicile of the share issuer and are usually offered or issued in a country other than the US. The amount you receive on Securities linked to Underlying Preference Share(s) that are, in turn, linked to ADRs or GDRs may not reflect the return that you would obtain if you actually owned the shares underlying such ADRs or GDRs because the price of the ADR or GDR may not take into account the value of any dividends or other distributions paid on the underlying shares. Therefore, you may receive a lower return on the Securities than you would have had you invested in the shares underlying such ADRs or GDRs directly.

(ii) **There is a risk of non-recognition of beneficial ownership**

The legal owner of the shares underlying the ADRs or GDRs is the custodian bank which is also the issuing agent of the depository receipts. Depending on the jurisdiction under which the depository receipts have been issued, there is a risk that such jurisdiction does not legally recognise the purchaser of the ADR or GDR as the beneficial owner of the underlying shares. In the event the custodian becomes insolvent or that enforcement measures are taken against the custodian it is possible that an order restricting the free disposition of the underlying shares is issued. In this event the purchaser of an ADR or GDR may lose its rights to the underlying shares under the ADR or GDR and the ADR or GDR could become worthless. As a result, the value of Underlying Preference Share(s) linked to the ADRs or GDRs and therefore the value of the Securities may be negatively affected and could become worthless.

(d) **Additional risks associated with exchange traded funds ("ETFs")**

(i) **There is a risk of tracking error**

Where the Underlying Preference Share(s) for your Securities are linked to an interest in an ETF (being a fund, pooled investment vehicle, collective investment scheme, partnership, trust or other similar legal arrangement holding assets, such as shares, indices, bonds and/or other securities such as financial derivative instruments (for the purposes of this sub-paragraph, "ETF Underlying Reference Asset(s)") and listed on a recognised exchange) and the investment objective of such ETF is to track the performance of such ETF Underlying Reference Asset(s), you are exposed to the performance of such ETF rather than the ETF Underlying Reference Asset(s). There is a risk that the ETF may not reflect the actual return you would obtain if you actually owned the ETF Underlying Reference Asset(s) underlying the ETF. Accordingly, you may receive a lower return than you would have received had you invested in the ETF Underlying Reference Asset(s) underlying such ETF directly.

(ii) **There are risks relating to the ETF managers, analytical tools and investments of the ETF**

There is a risk that the ETF managers will not succeed in meeting the investment objectives of the ETF, that any analytical model used thereby will prove to be incorrect and that any assessments of the short-term or long-term prospects, volatility and correlation of the types of investments in which such ETF has or may invest will prove inaccurate, any of which may have a negative effect on the value of the Underlying Preference Share(s) and therefore on the value of and return on the Securities.

(iii) **There is a risk of adverse actions by the management company, trustee or sponsor**

The management company, trustee or sponsor of an ETF will have no involvement in the offer and sale of the Underlying Preference Share(s) or the Securities and accordingly will have no obligation to any holder of the Underlying Preference Share(s) or Securities and could take any actions without regard to the interests of holders of the Underlying Preference Share(s) or Securities. Any such action may have a negative effect on the value of the Underlying Preference Share(s) and therefore on the value of and return on the Securities.

(iv) **There is a risk that where the relevant ETF invests in financial derivatives instruments**

An ETF may invest in financial derivative instruments which expose the ETF and an investor to the credit, liquidity and concentration risks of the counterparties to such financial derivative instruments. This means that, if the relevant counterparties default under any of these financial derivative instruments, the value of the ETF may decline. As a result, the value of the Underlying Preference Share(s) and therefore the value of and return on the Securities could be adversely affected.

4.7 **Risks associated with Underlying Preference Share(s) linked to equity indices as Underlying Preference Share Reference Assets**

If any Underlying Preference Share Reference Asset for the Underlying Preference Share(s) for your Securities is an equity index, the following risks will apply to the Securities:

(a) **There are risks of fluctuations and volatility**

Securities linked to Underlying Preference Share(s) which are in turn linked to the performance of one or more equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity indices, which may have a negative effect on the value of the Underlying Preference Share(s) and therefore on the value of and return on the Securities.

(b) **You may receive a potentially lower return than if you held the underlying shares directly**

Equity indices are composed of a synthetic portfolio of shares, and, as such, the performance of an equity index is in turn subject to the risks associated with indices, as outlined herein, and with shares (see also risk factor 4.6 (*Risks associated with Underlying Preference Share(s) linked to common shares, ADRs, GDRs and ETFs as Underlying Preference Share Reference Asset(s)*) above).

The amount payable on any Securities linked to Underlying Preference Share(s) which are in turn linked to one or more equity indices (which are not dividend indices or which do not otherwise include dividend distributions in their level) may not reflect the return that you would realise if you actually owned the relevant shares of the companies comprising that equity index. This is because the closing index level of such index on any specified valuation date may reflect the prices of such index components without taking into account any dividend payments on those component shares. Accordingly, you may receive a lower return on Securities linked to one or more equity indices than you would have received had you invested directly in those shares.

(c) **There are risks in relation to a change in composition, methodology or policy used in compiling the index**

The index sponsor can add, delete or substitute the components of an index at its discretion, and may also alter the methodology used to calculate the level of the index. These events may have a detrimental impact on the level of the index, which in turn could have a negative impact on the value of and return on your Securities.

(d) **There are risks in relation to index adjustments events, successor indices, corrections and manifest errors**

If an Index Sponsor makes a material alteration to an index or cancels an index and no successor exists, or fails to calculate and announce the index, the determination agent in respect of the Underlying Preference Share(s) may, if it deems the event to have a material effect on the Underlying Preference Share(s), calculate the level of the index as per the previous formula and method (or, in the case of index cancellation, replace the index with a pre-nominated index, if one is specified) or redeem the Underlying Preference Share(s) prior to their scheduled redemption date in accordance with the terms and conditions of the Underlying Preference Share(s). If the Underlying Preference Share(s) are redeemed, the Securities will also be redeemed and this may be for an amount which may be less than you paid for the Securities – see risk factor 3.2 (*Your Securities may redeem early or may be adjusted following an 'Additional Disruption Event', 'Preference Share Termination Event', or early redemption for unlawfulness or impracticability*).

If an index is calculated by a successor index sponsor, or is replaced by a successor index, the successor index, or index as calculated by the successor index sponsor, will be deemed to be the index if approved by the determination agent in respect of the Underlying Preference Share(s). Any such successor index may perform poorly and may result in you receiving less on your Securities than you may have expected.

If a correction to the relevant index is published not less than four exchange business days prior to the next payment date, the determination agent in respect of the Underlying Preference Share(s) will recalculate the amount payable on the Underlying Preference Share(s) based on the corrected level of the relevant index. If there is a manifest error in the calculation of an index in the opinion of the Determination Agent, the Determination Agent may recalculate the index based on the formula and method used prior to the manifest error occurring. Any of these events may have an adverse effect on the value of the Underlying Preference Share(s) and therefore on the value of and return on the Securities.

(e) **The index or any of its underlying components may trade around the clock; however, the Securities may trade only during regular trading hours in Europe**

If the market for the relevant index or any of its underlying components is a global, around-the-clock market, the hours of trading for the Securities may not conform to the hours during which the relevant index or any of its underlying components are traded. Significant movements may take place in the levels, values or prices of the relevant index or any of its underlying components that will not be reflected immediately in the price of the relevant Securities. Therefore, you may miss the opportunity to realise a short-term gain from such movements by trading in the Securities instead of trading in the relevant index or underlying components directly.

Further, there may not be any systematic reporting of last-sale or similar information for the relevant index or any of its underlying components. The absence of last-sale or similar information and the limited availability of quotations would make it difficult to obtain timely, accurate data about the state of the market for the relevant index or any of its underlying components. The determination agent for the Underlying Preference Share(s) may be required to determine the levels, values or prices of the relevant index or its underlying components by using the fallback valuation methodologies specified in the terms and conditions of the Underlying Preference Share(s). The levels, values or prices determined in such manner may be different from the levels, values or prices at the last sale of the relevant index or underlying components. This may have an adverse effect on the value of the Underlying Preference Share(s), which in turn could have a negative impact on the value of and return on your Securities.

(f) **There are data sourcing and calculation risks**

The composition of indices is typically adjusted (known as "**rebalancing**") in respect of historical price, liquidity and production data. Such data are subject to potential errors in data sources or other errors that may affect the weighting of the index components. Any

discrepancies that require revision are not applied retroactively but will be reflected in the weighting calculations of the index for the following year. Consequently, the discovery of any such errors may reveal discrepancies between index levels published in the past and the correct index levels (if all such errors and discrepancies had been discovered earlier) of the equivalent historical dates. Since the initial price of an Underlying Preference Share Reference Asset may be fixed at an erroneous historical index level, this may have the effect of artificially inflating or deflating the initial price of such Underlying Preference Share Reference Asset, which may in turn inflate or deflate the barrier level in respect of the Underlying Preference Share(s) or adversely affect the calculation of the value of the Underlying Preference Share(s). In addition, a rebalanced index after correction of errors may behave differently than it would if the erroneous weightings were still applicable. Since the value of the Underlying Preference Share(s) (which is tracked through to the return on the Securities) is linked to the prevailing index levels rather than the theoretical index levels, holders of the Securities may receive different returns than anticipated, and depending on the specific calculation of the value of the Underlying Preference Share(s), the actual return on the Securities may be substantially less than their invested amounts.

(g) **There are risks associated with indices which use a decrement methodology**

If an index has a decrement feature it will replicate the performance of an underlying total return index whilst deducting for a constant performance percentage ("**decrement**") on a daily basis. A decrement feature will therefore act as a drain on the performance of the index, and the index level will not reflect the aggregate performance of the underlying total return index but a lesser amount. Securities linked to an index with a decrement feature will therefore be priced differently to a security linked to a total return index and accordingly the return will differ and may be lower than you would have received had the Underlying Preference Share(s) (and therefore your Securities) been linked to the same index but without such feature.

4.8 **Risks associated with Underlying Preference Share(s) linked to dividends of shares comprised in an equity index that is a dividend index**

Where the Underlying Preference Share(s) for the Securities are linked to dividends of shares comprised in an equity index, you will be exposed to the declaration and payment of such dividends (if any) by the issuers of such shares, and such declaration and payment of dividends (if any) may be subject to the following risks:

- the value of the dividends paid by the individual constituent members of the equity index may be influenced by many factors: Payments of cash dividends by constituent members of the equity index may be reduced or not made at all due to a variety of independent factors, such as earnings and dividend policy, which could result in a reduction in the value of the Underlying Preference Share(s) and therefore in the value of and return on the Securities.
- changes to the regulatory and tax environment: Tax and regulatory decisions may result in reductions in the amount of dividends paid by individual constituent members of the equity index, which may have an adverse effect on the value of the Underlying Preference Share(s), which in turn could have a negative impact on the value of and return on your Securities.
- constituent members of the equity index may not pay dividends in the relevant dividend period at all: If no dividends are paid by constituent members of the equity index during the relevant dividend period to which the Underlying Preference Share(s) are linked, the value of the Underlying Preference Share(s) may not increase and, in some instances, the Securities may be worth zero.
- not all dividends paid by constituent members may be reflected in the level of the equity index: The equity index may only reflect certain types of dividends, such as ordinary unadjusted gross cash dividends and/or withholding taxes on special cash dividends and capital returns as applied to the constituent members, and may exclude extraordinary dividends which may, in turn, result in a lower value for the Underlying Preference Share(s) and therefore a lower return on the Securities.

C. Risks associated with benchmark reform

A number of major interest rates, other rates, indices and other published benchmarks are the subject of recent or forthcoming national and international regulatory reforms. These may include an Underlying Preference Share Reference Asset. These reforms may cause such benchmarks to be discontinued, to be modified or to be subject to other changes. Any such consequence could have a material adverse effect on the value of and return on Securities the payout of which is dependent on the performance of any such benchmark.

4.9 The Benchmarks Regulation

The EU Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmarks Regulation**") is a key element of the ongoing regulatory reform in the EU and has applied, subject to certain transitional provisions, since 1 January 2018. Notwithstanding the UK's departure from the EU on 31 January 2020, the Benchmarks Regulation will continue to apply in the UK until 31 December 2020. Consequently, all references to the "EU" in this risk factor should be construed as including the UK (for further information on the UK's departure from the EU, see "*Important Information – Brexit*" above).

In addition to so-called "critical benchmarks" such as the London Interbank Offered Rate ("**LIBOR**") and the Euro Interbank Offered Rate ("**EURIBOR**"), other interest rates, foreign exchange rates, and indices, including equity, commodity and "proprietary" indices or strategies, will in most cases be within scope of the Benchmarks Regulation as "benchmarks" where they are used to determine the amount payable under, or the value of, certain financial instruments (including Securities listed on an EU regulated market or EU multilateral trading facility (MTF)), and in a number of other circumstances.

The Benchmarks Regulation applies to the contribution of input data to a benchmark, the administration of a benchmark, and the use of a benchmark in the EU. Amongst other things, the Benchmarks Regulation requires EU benchmark administrators to be authorised or registered as such and to comply with extensive requirements relating to benchmark administration. It also prohibits certain uses by EU supervised entities of (a) benchmarks provided by EU administrators which are not authorised or registered in accordance with the Benchmarks Regulation and (b) benchmarks provided by non-EU administrators where (i) the administrator's regulatory regime has not been determined to be "equivalent" to that of the EU, (ii) the administrator has not been recognised in accordance with the Benchmarks Regulation, and (iii) the benchmark has not been endorsed in accordance with the Benchmarks Regulation.

The Benchmarks Regulation could have a material adverse impact on the value of and return on Securities linked to a benchmark including where the Underlying Preference Share is linked to a benchmark. For example:

- a rate or index which is a "benchmark" may not be used in certain ways by an EU supervised entity if (subject to applicable transitional provisions) its administrator does not obtain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision or is not "endorsed" by an EU supervised entity). If the benchmark administrator does not obtain or maintain (as applicable) such authorisation or registration (or, if a non-EU entity, "equivalence" is not available and it is not recognised or endorsed), then (unless a Pre-nominated Index has been specified in the relevant Preference Share Confirmation to replace the relevant Underlying Preference Share Reference Asset) an Additional Disruption Event (as such term is defined in the terms and conditions of the Underlying Preference Share(s)) will occur and the Underlying Preference Share(s) may be redeemed prior to their scheduled redemption date, which in turn may result in the early redemption of the Securities; and
- the methodology or other terms of the benchmark could be changed in order to comply with the requirements of the Benchmarks Regulation, and such changes could reduce or increase the rate or level or affect the volatility of the published rate or level, and (depending on the type of Underlying Preference Share Reference Asset)

could lead to adjustments to the terms of the Securities (including potentially determination by the Determination Agent of the rate or level in its discretion), or if no adjustments are made, the early redemption or cancellation of the Securities as if an Additional Disruption Event has occurred.

5. RISKS ASSOCIATED WITH TAXATION

5.1 General

Duties and other taxes and/or expenses, including any applicable depositary charges, transaction charges, stamp duty and other charges, may be levied in accordance with the laws and practices in the countries where the Securities are transferred and that it is the obligation of an investor to pay all such taxes and/or expenses.

All payments made under the Securities shall be made free and clear of, and without withholding or deduction for, any present or future taxes imposed by the Issuer's country of incorporation (or any authority or political subdivision thereof or therein), unless such withholding or deduction is imposed or required by law. If any such withholding or deduction is imposed and required by law, neither the Issuer nor the Paying Agent will be obliged to make any additional payment to you in respect of such withholding or deduction and therefore the amount paid to you will be reduced by the amount of such withholding or deduction. In no event will additional amounts be payable in respect of FATCA (defined below) or any US withholding or other tax, including without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property. Any such withholding or deduction of any amounts will not constitute an Event of Default under the Securities. Accordingly, in the course of the impartition of any such taxes, you will suffer a loss on the return on and value of your Securities.

5.2 Change in tax law

Tax regulations and their application by the relevant taxation authorities are subject to change and differing interpretations, possibly with retrospective effect, and this could negatively affect the value of the Securities. Any such change may cause the tax treatment of the Securities to change from the tax position at the time of purchase and may cause the statements in this Document concerning the relevant tax law and practice to be inaccurate or insufficient to cover the material tax considerations in respect of the Securities. It is not possible to predict the precise tax treatment which will apply at any given time and changes in tax law may give the Issuer the right to amend the terms and conditions of the Securities, or redeem the Securities.

5.3 US foreign account tax compliance withholding

Under FATCA (as defined below) the Issuer (and any intermediary in the chain of payment) may require each holder of a Security to provide certifications and identifying information about itself and certain of its owners. The failure to provide such information, or the failure of certain non-US financial institutions to comply with FATCA, may compel the Issuer (or an intermediary) to withhold a 30 per cent tax on payments to such holders and neither the Issuer nor any other person will pay any additional amounts with respect to such withholding. FATCA withholding on "foreign passthru payments" would begin no earlier than two years after the date on which final U.S. Treasury regulations defining foreign passthru payments are published. US-source payments are currently subject to FATCA withholding. US-source payments generally should be limited to dividend equivalent payments and interests in 'US real property interests' (although there can be no assurance the IRS may not seek to treat other payments that reference US securities as US source income). "FATCA" means sections 1471 through 1474 of the US Internal Revenue Code of 1986, as amended (the "Code"), any final current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any US or non-US fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code.

The effective date for withholding on "foreign passthru payments" above reflects recently proposed U.S. Treasury regulations ("**Proposed FATCA Regulations**") which delay the effective date for withholding on foreign passthru payments. The Proposed FATCA Regulations also eliminate FATCA withholding on gross proceeds from the disposition of, or final payments, redemptions, or other principal payments made in respect of, an instrument that may produce U.S. source interest or dividends. The discussion above assumes that the Proposed FATCA Regulations will be finalised in their current form.

The Issuer will not make any additional payments to holders of Securities to compensate them for any taxes withheld in respect of FATCA or any US withholding or tax, including, without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

5.4 **You may be subject to withholding on dividend equivalent payments and US real property interests**

In the case of Securities that are linked to one or more assets characterised as 'US real property interests' (as such term is defined in section 897(c) of the Code), non-US holders of Securities may be subject to special rules governing the ownership and disposition of US real property interests. Prospective non-US holders of Securities should consult their own tax advisers regarding the potential treatment of the Securities as US real property interests.

Under section 871(m) of the Code and regulations thereunder ("**Section 871(m)**"), actual or deemed payments on financial instruments that reference one or more US corporations may be treated as 'dividend equivalent' payments that are subject to US withholding tax at a rate of 30 per cent. Generally, a 'dividend equivalent' is a payment that is directly or indirectly contingent upon a US source dividend or is determined by reference to a US source dividend, including a payment that implicitly takes into account such a dividend. For financial instruments issued on or after 1 January 2017 but prior to 1 January 2023, regulations and guidance under Section 871(m) provide that dividend equivalent payments will be subject to withholding if the instrument has a 'delta' of one with respect to either an underlying US stock or a US stock component of an underlying index or basket. For financial instruments issued on or after 1 January 2023, regulations and guidance under Section 871(m) provide that dividend equivalent payments on (1) a 'simple' financial instrument that has a delta of 0.8 or greater with respect to an underlying US stock or a US stock component of an underlying index or basket and (2) a 'complex' financial instrument that meets the 'substantial equivalence' test with respect to an underlying US stock or a US stock component of an underlying index or basket, will be subject to withholding tax under Section 871(m). An issue of Securities that references an index or basket that is treated as a 'qualified index' will not be subject to withholding under Section 871(m), even if such Securities meet, as applicable, the delta or substantial equivalence test. In general, a qualified index is a diverse, passive, and widely used index that satisfies the technical requirements prescribed by regulations.

The delta of a financial instrument generally is defined as the ratio of the change in the fair market value of the instrument to a small change in the fair market value of the number of shares of the underlying US corporation, determined either as of the pricing or issue date of the instrument, in accordance with applicable regulations. A financial instrument generally will be treated as having a delta of one if it provides for 100 per cent participation in all of the appreciation and depreciation of one or more underlying US stocks. Very broadly, the substantial equivalence test analyses whether a financial instrument has a correlation to the applicable underlying US stock that is at least as great as that of a simple financial instrument with a delta of at least 0.8.

The Final Terms will indicate if the Issuer has determined that the particular issue of Securities is expected to be subject to withholding under Section 871(m). Any determination by the Issuer on the application of Section 871(m) to a particular Security generally is binding on you, but is not binding on the US Internal Revenue Service ("**IRS**"). The Section 871(m) regulations require complex calculations to be made with respect to Securities referencing shares of US corporations and their application to a specific issue of Securities may be uncertain. Accordingly, even if the Issuer determines that a Security is not subject to Section 871(m), the IRS could assert that you are liable for Section 871(m) tax in respect of such

Security, including where the IRS concludes that the delta or substantial equivalence with respect to the Security was determined more than 14 days prior to the Security's issue date.

In addition, a Security may be treated as reissued for purposes of Section 871(m) upon a significant modification of the terms of the Security. In certain circumstances, a rebalancing or adjustment to the components of an underlying index or basket may result in the deemed reissuance of the Security, in particular where the rebalancing or adjustment is made other than pursuant to certain defined rules, or involves the exercise of discretion. In that case, a Security that was not subject to withholding under Section 871(m) at issuance may become subject to withholding at the time of the deemed reissuance. In addition, a Security that in isolation is not subject to Section 871(m) may nonetheless be subject to Section 871(m) if you, the holder, have engaged, or engage, in other transactions in respect of an underlying US stock or component of an underlying index or basket. In such situations, you could be subject to Section 871(m) tax even if the Issuer does not withhold in respect of the Security. Further, you may be required, including by custodians and other withholding agents with respect to the Security, to make representations regarding the nature of any other positions with respect to US stock directly or indirectly referenced (including components of any index or basket) by such Security. If you enter, or have entered, into other transactions in respect of a US stock, component of an underlying index or basket, or the Securities, you should consult your own tax advisor regarding the application of Section 871(m) to the Securities and such other transactions.

If an issue of Securities is determined to be subject to US withholding tax under Section 871(m), information regarding the amount of each dividend equivalent, the delta of the Securities, the amount of any tax withheld and deposited, the estimated dividend amount (if applicable), and any other information required under Section 871(m), will be provided, communicated, or made available to holders in a manner permitted by applicable regulations. Withholding on payments will be based on actual dividends on the underlying US stock or, if otherwise notified by the Issuer in accordance with applicable regulations, on estimated dividends used in pricing the Securities. Where an issue of Securities that references estimated dividend amounts also provides for any additional payments to reflect actual dividends on the underlying US stock, withholding tax will also apply to any additional payments.

If the Issuer determines that a Security is subject to withholding under Section 871(m), it will withhold tax in respect of the actual (or estimated, as described above) dividends that are paid on the underlying US stock. In addition, the US tax may be withheld on any portion of a payment or deemed payment (including, if appropriate, the payment of the purchase price) that is a dividend equivalent. Such withholding may occur at the time a dividend is paid on the relevant US stock (or, in certain cases, at the close of the quarter upon which the dividend is paid). Upon remitting the taxes withheld to the IRS, any increase in value of the relevant asset, index or basket or distributions to you in respect of a dividend equivalent will reflect the amount of the dividend net of the withholding described above.

Other than in very limited circumstances described below, the rate of any withholding generally will not be reduced even if you are otherwise eligible for a reduction under an applicable treaty, although you may be able to claim a refund for any excess amounts withheld by filing a US tax return. However, you may not receive the necessary information to properly claim a refund for any withholding in excess of the applicable treaty-based amount. In addition, the IRS may not credit you with withholding taxes remitted in respect of your Security for purposes of claiming a refund. Finally, your resident tax jurisdiction may not permit you to take a credit for US withholding taxes related to the dividend equivalent amount. For certain issues of Securities that are subject to withholding under Section 871(m), if the Issuer determines in its sole discretion that it is able to make payments at a reduced rate of withholding under an applicable treaty, if you are eligible for treaty benefits then you may be able to claim such a reduced rate. To claim a reduced treaty rate for withholding, you generally must provide a valid IRS Form W-8BEN, IRS Form W-8BEN-E, or an acceptable substitute form on which you certify, under penalty of perjury, your status as a non-US person and your entitlement to the lower treaty rate. However, there can be no assurances that the Issuer will be able to make payments on a Security at a reduced rate of withholding, even where you furnish the appropriate certification. Where the Issuer has determined that an issue of Securities is subject to withholding under Section 871(m), the Final Terms will indicate

whether the Issuer intends to withhold at the rate of 30 per cent without regard to any reduced rate that may apply under a treaty or if the rate of withholding tax may be subject to reduction under an applicable treaty. In any case where withholding applies, the Issuer will not pay any additional amounts with respect to amounts withheld. You should consult with your tax advisors regarding the application of Section 871(m) to your Securities.

In addition, the Issuer will not make any additional payments to you to compensate you for any taxes withheld in respect of FATCA or any US withholding or other tax, including without limitation, in respect of direct and indirect interests in US real property, dividends, or, as discussed above, dividend equivalent payments. If any amount were to be deducted or withheld from payments on the Securities as a result of the above, the return on the Securities may be significantly less than expected.

6. RISKS ASSOCIATED WITH CONFLICTS OF INTEREST AND DISCRETIONARY POWERS OF THE ISSUER AND THE DETERMINATION AGENT

6.1 Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements

There are certain events – relating to the Issuer, taxation, the relevant currency or other matters – the occurrence of which may give rise to discretionary powers of the Issuer or the Determination Agent under the terms and conditions of the Securities. For example, see risk factor 3.2 (*Your Securities may redeem early or may be adjusted following an 'Additional Disruption Event', 'Preference Share Termination Event', or early redemption for unlawfulness or impracticability*).

Any exercise of these discretionary powers to adjust the terms and conditions of the Securities, or redeem the Securities early, may have a negative effect on the value of and return on the Securities.

6.2 Trading and other transactions by the Issuer or its Affiliates could affect the levels, values or prices of the Underlying Reference Asset(s) and their components

In connection with the Issuer's and its Affiliates' normal business practices or in connection with hedging the Issuer's obligations under the Securities, the Issuer or, as the case may be, its Affiliates may from time to time buy or sell the Underlying Reference Asset(s) and its or their components, or similar instruments, or derivative instruments relating to the Underlying Reference Asset(s) or its or their components. These trading activities may present a conflict of interest between your interest in the Securities and the interests which the Issuer or its Affiliates may have in its proprietary accounts, in facilitating transactions, including block trades, for the Issuer's and its Affiliates' other customers and in accounts under management. These trading activities also could affect the levels, values or prices of the Underlying Reference Asset(s) in a manner that would decrease the market value of the Securities prior to maturity, or the amount you would receive at maturity or at the payment date. To the extent that the Issuer or any of its Affiliates has a hedge position in the Underlying Reference Asset(s) or its or their components, or in a derivative or synthetic instrument related to the Underlying Reference Asset(s) or its or their components, the Issuer or the relevant Affiliate may increase or liquidate a portion of those holdings at any time before, during or after the term of the Securities. This activity could have a material adverse effect on the amount payable at maturity, any amount of money payable at the payment date, or the market value of the Securities.

6.3 Research reports and other transactions may create conflicts of interest between you and the Issuer or its Affiliates

The Issuer or, as the case may be, its Affiliates may have previously published, and may in the future publish, research reports relating to the Underlying Reference Asset(s) or its or their components. The views expressed in this research may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Securities. Any of these activities could have a material adverse effect on the levels, values or prices of the Underlying Reference Asset(s) or its or their

components and, therefore, the market value of the Securities. Moreover, other professionals who deal in these markets may at any time have views that differ significantly from the Issuer or the relevant Affiliate. In connection with your purchase of the Securities, you should investigate the Underlying Reference Asset(s) and not rely on the Issuer's or any of its Affiliates' views with respect to future movements in the Underlying Reference Asset(s) and its or their components.

The Issuer or its Affiliates also may issue, underwrite or assist unaffiliated entities in the issuance or underwriting of other securities or financial instruments with returns indexed to the Underlying Reference Asset(s). By introducing competing products into the marketplace in this manner, the Issuer or its Affiliates could have a material adverse effect on the market value of the Securities.

6.4 The Issuer or its Affiliates may have confidential information relating to the Underlying Reference Asset(s) or components

Barclays regularly provides advisory and transactional services to a global client base, and you should assume that Barclays will, at present or in the future, provide such services or otherwise engage in transactions with, among others, the issuer of or other relevant entity or person sponsoring or publishing the Underlying Reference Asset(s), or transact in related instruments or with related parties. These services could include financial advisory assistance, making loans to or equity investments in those companies or other investment banking services, or (as described above) research reports. You should expect that Barclays, in providing such services, may take actions that have direct or indirect effects on the Underlying Reference Asset(s) and that such actions could have a material adverse effect on the return on and value of the Securities. In addition, in connection with these activities, certain Barclays personnel may have access to confidential material non-public information in respect of the Underlying Reference Asset(s), which confidential material non-public information would not be shared with Barclays employees involved in structuring, selling or making markets in the Securities or with investors in the Securities, but which information if publicly known could have a material adverse effect on the return on and value of the Securities.

*The following text comprises the terms and conditions of the Securities (the "**General Conditions**") that, subject to completion or election in the Final Terms (together, the "**Conditions**") shall be applicable to each Series.*

Calculations and determinations: unless otherwise specified, all calculations and determinations in the conditions shall be made by the Determination Agent. In respect of each such calculation and determination, General Condition 9.2 (Determinations by the Determination Agent) shall apply.

The provisions within Section C: FINAL REDEMPTION will only be applicable as specified in the Final Terms.

References in these General Conditions to 'Securities' are to the Securities of one Series only, not to all Securities that may be issued pursuant to the Programme.

A. INTRODUCTION

The Securities are issued as a Series of notes ("**Notes**") by the Issuer and references to 'Securities' shall be construed as a reference to each Series accordingly. Securities are issued pursuant to the Master Agency Agreement dated 19 August 2020 (as further amended and/or supplemented and/or restated as at the relevant Issue Date, the "**Master Agency Agreement**") and, in respect of English Law Securities, with the benefit of a deed of covenant dated 19 August 2020 (as further amended and/or supplemented and/or restated as at the relevant Issue Date, the "**English Law Deed of Covenant**") and, in respect of Irish Securities, with the benefit of a deed of covenant dated 19 August 2020 (as amended and/or supplemented and/or

restated and/or replaced as at the relevant Issue Date, the "**Irish Law Deed of Covenant**" and, together with the English Law Deed of Covenant, the "**Deeds of Covenant**"), in each case, executed by the Issuer.

Copies of the Master Agency Agreement and the Deeds of Covenant are available for inspection at the registered office of the Issuer, the Issue and Paying Agent and the specified offices of the Paying Agents, the Transfer Agents and the Registrar.

The determination agent (the "**Determination Agent**"), the issue and paying agent (the "**Issue and Paying Agent**"), the registrar (the "**Registrar**"), the paying agents (the "**Paying Agents**") and the transfer agents (the "**Transfer Agents**") (together, the "**Agents**") shall be as specified below or in the Final Terms (as applicable). The Issue and Paying Agent and the Paying Agent shall be The Bank of New York Mellon, London Branch of One Canada Place, London E14 5AL.

Each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The specific terms of each Tranche will be identical to the terms of other Tranches of the same Series (save in respect of the Issue Date, Issue Price and aggregate nominal amount of the Tranche) and will be set out in the Final Terms.

The Securities do not bear periodic interest.

Capitalised terms used in the Conditions have the meanings given in General Condition 23 (*Definitions and interpretation*).

B. FORM, TITLE, TRANSFER, CALCULATIONS AND PAYMENTS UNDER THE SECURITIES

1. Form, title and transfer

1.1 Form of Securities

(a) Form of Securities

Securities will be issued in bearer form ("**Bearer Securities**") or in registered form ("**Registered Securities**"), as specified in the Final Terms. Securities in one form may not be exchanged for Securities in any other form except as provided below.

Bearer Securities will initially be issued in global form (each a "**Global Bearer Security**" and, if more than one, the "**Global Bearer Securities**"), and may only be exchanged for Securities in definitive form (each a "**Definitive Bearer Security**" and, if more than one, the "**Definitive Bearer Securities**") (i) in the case of Bearer Securities with a single Specified Denomination, if specified in the Final Terms, or (ii) in the case of all Bearer Securities upon an Exchange Event occurring, and in each case in accordance with the terms of the relevant Global Bearer Security. Registered Securities may initially be issued in global form (each a "**Global Registered Security**" and, if more than one, the "**Global Registered Securities**" and, together with a Global Bearer Security, each a "**Global Security**" and, if more than one, the "**Global Securities**") if specified in the Final Terms, which may only be exchanged for Securities in definitive form (each a "**Definitive Registered Security**" and, if more than one, the "**Definitive Registered Securities**" and, together with Definitive Bearer Securities, "**Definitive Securities**"), if specified in the Final Terms, or upon an Exchange Event occurring, and in each case in accordance with the terms of the relevant Global Registered Security. Registered Securities may initially be issued as Definitive Registered Securities if specified in the Final Terms. The Issuer will promptly give notice to Holders if an Exchange Event occurs.

(b) Initial issue of Global Securities

If the Final Terms specifies 'NGN Form' to be 'Applicable' with respect to a Global Bearer Security or if the Final Terms specifies 'Held under the NSS' to be 'Applicable' with respect to a Global Registered Security to be held under the New Safekeeping Structure ("**NSS**") ("**NGN Form**"), such Global Bearer Security or Global Registered Security will be delivered on or

prior to the original Issue Date of Series or the Tranche to a common safekeeper (a "**Common Safekeeper**"). The aggregate nominal amount of the Global Security shall be that which is from time to time entered in the records of the Relevant Clearing System. Securities should only be issued in NGN Form where they are intended to be held in a manner which would allow Eurosystem eligibility but such recognition will depend upon the satisfaction of the Eurosystem eligibility criteria.

If the Final Terms specifies 'CGN Form' to be 'Applicable' ("**CGN Form**"), the Global Security may be delivered on or prior to the original Issue Date of the Series or Tranche to a Common Depository for the Relevant Clearing System (and, in the case of Registered Securities, registered in the name of any nominee for the Relevant Clearing System). The Relevant Clearing System will then credit each subscriber with an aggregate nominal amount of the Global Security equal to the nominal amount thereof for which it has subscribed and paid.

1.2 **Exchange of Securities**

(a) **Exchange of Global Securities**

Each Series of Bearer Securities issued in compliance with the D Rules will be initially issued in the form of a temporary global security in bearer form (a "**Temporary Global Security**") and will be exchangeable for a permanent bearer global security (a "**Permanent Global Security**"), free of charge, on and after its Exchange Date, upon certification as to non-US beneficial ownership in the form set out in the Master Agency Agreement.

Each Series of Bearer Securities issued in compliance with the C Rules or in respect of which TEFRA does not apply will be initially issued in the form of a Permanent Global Security.

Upon the occurrence of an Exchange Event on or after its Exchange Date each Permanent Global Security will be exchangeable, in whole but not in part, free of charge, for Definitive Securities. Temporary Global Securities will not be exchangeable for Definitive Securities.

If the Global Security is in CGN Form, on or after any due date for exchange, the Holder may surrender it or, in the case of a partial exchange, present it for endorsement to or to the order of the Issue and Paying Agent and in exchange the Issuer will deliver, or procure the delivery of, (i) in the case of a Temporary Global Security, a Permanent Global Security in an aggregate nominal amount equal to that of the Temporary Global Security that is being exchanged, or (ii) in the case of a Permanent Global Security exchangeable for Definitive Securities, an equal aggregate nominal amount of duly executed and authenticated Definitive Securities.

If the Global Security is in NGN Form, the Issuer will procure that details of such exchange be entered pro rata in the records of the Relevant Clearing System. On exchange in full of each Permanent Global Security, the Issuer will, if the Holder so requests, procure that it is cancelled and returned to the Holder together with the relevant Definitive Securities.

(b) **Exchange of Registered Securities**

Registered Securities of each Series which are sold in an 'offshore transaction' within the meaning of Regulation S under the Securities Act will be represented by interests in a Global Security, or deposited with, and registered in the name of, a Common Depository or a Common Safekeeper on behalf of the Relevant Clearing System on its issue date.

1.3 **Denomination and number**

The Final Terms in respect of Securities will specify the denomination or denominations (each a "**Specified Denomination**") in which such Securities are issued, the Aggregate Nominal Amount, the Issue Price per Security and the Calculation Amount. In the case of a Series with more than one Specified Denomination, Bearer Securities of one Specified Denomination will not be exchangeable for Bearer Securities of another Specified Denomination.

1.4 **Title**

(a) **Title to Securities**

Title to Bearer Securities passes by delivery. Title to Registered Securities passes by registration in the Register which the Issuer shall procure is kept by the Registrar in accordance with the provisions of the Master Agency Agreement.

The Issuer and the relevant Agents shall (except as otherwise required by law or ordered by a court of competent jurisdiction) deem and treat the Holder (as defined below) of any Bearer Security or Registered Security as its absolute owner for all purposes (whether or not such Security is overdue and regardless of any notice of ownership, trust or any interest in it, any writing on it (or on the Global Security representing it) or its theft or loss) and no person shall be liable for so treating the Holder.

In these General Conditions, "**Holder**" means the bearer of any Bearer Security or the person in whose name a Registered Security is registered, except that, in respect of any Global Securities, the person appearing as the accountholder for the Relevant Clearing System (the "**Accountholder**") shall be treated as the Holder for all purposes other than with respect to the payment of any amount due under the Securities (for which purpose the Common Depositary or Common Safekeeper (or their respective nominee, as applicable), as the case may be, shall be treated by the Issuer and any Agent as the relevant Holder).

1.5 **Transfers**

(a) **Transfers of Cleared Securities**

Subject to General Condition 1.5(d) (*Minimum Tradable Amount*) below, transfers of Securities which are held in a Relevant Clearing System may be effected only through the Relevant Clearing System in which the Securities to be transferred are held and only in accordance with the Relevant Rules. Title will pass upon registration of the transfer in the books of the Relevant Clearing System.

(b) **Transfers of non-Cleared Securities**

(i) *Non-cleared Bearer Securities*

Bearer Securities which are not Cleared Securities, will be transferred by delivery.

(ii) *Non-cleared Registered Securities*

Registered Securities which are not Cleared Securities may be transferred only through the Register by delivery in writing to the Registrar or any Transfer Agent of (A) the relevant Definitive Registered Security or Global Registered Security representing such Registered Securities to be transferred, (B) the duly completed form of transfer, or notice of redemption and surrender and (C) any other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Securities, a new Definitive Registered Security shall be issued to the transferee in respect of the part transferred and a further new Definitive Registered Security or Global Registered Security in respect of the balance of the holding not transferred shall be issued to the transferor. Transfers of part only of a holding of Registered Securities represented by a non-cleared Global Registered Security may only be made in part (aa) if an Exchange Event occurs, or (bb) with the consent of the Issuer, provided that, the registered Holder has given the Registrar not less than ten Business Days' notice at its specified office of the registered Holder's intention to effect such transfer. All transfers of Securities and entries on the Register will be made subject to the detailed regulations concerning transfers of Securities scheduled to the Master Agency Agreement. The regulations may be changed by the Issuer, with the prior written approval of the Registrar and each Holder. A copy of the current regulations will be made available by the Registrar to any Holder upon request.

Transfers of Registered Securities will be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any Taxes that

may be imposed in relation to it (or the giving of an indemnity as the Issuer, Registrar or the relevant Transfer Agent may require).

(c) **Registered Security closed periods**

No Holder may require the transfer of a Definitive Registered Security (i) after any such Definitive Registered Security has been called for redemption or (ii) during the period of seven calendar days ending on (and including) any Record Date.

(d) **Minimum Tradable Amount**

Transactions in the Securities may, if specified in the Final Terms, be subject to a Minimum Tradable Amount, in which case such Securities will be transferable only in a nominal amount of not less than such Minimum Tradable Amount and, in the case of Cleared Securities, in accordance with the Relevant Rules.

2. **Status**

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer and rank equally among themselves. The payment obligations of the Issuer under the Securities will rank equally with all other present and future unsecured and unsubordinated obligations of the Issuer (except for such obligations as may be preferred by provisions of law that are both mandatory and of general application). The Securities do not evidence deposits of the Issuer. The Securities are not insured or guaranteed by any government or government agency.

3. **Calculations and publication**

3.1 **Rounding**

For the purposes of any calculations required pursuant to the Conditions, unless otherwise specified, all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with half a unit being rounded up), save in the case of Japanese yen, which shall be rounded down to the nearest Japanese yen. For these purposes, 'unit' means the lowest amount of such currency that is available as legal tender in the country of such currency.

(a) **Calculations in respect of Securities**

- (i) Notwithstanding anything to the contrary in the Conditions or the Master Agency Agreement, each calculation of an amount payable in respect of each Security (other than Definitive Securities) shall be based on the aggregate nominal amount of all such Securities outstanding on such date (or the relevant affected portion thereof), rounded in accordance with the method provided in General Condition 3.1 (*Rounding*) above and distributed in accordance with the Relevant Rules.
- (ii) For the avoidance of doubt, in relation to any amount which is payable under the Conditions in respect of a Security and which is calculated by reference to a Calculation Amount, references to 'Security' shall be to a Security having a nominal amount equal to the Calculation Amount.

4. Payments

4.1 Payments in respect of Definitive Bearer Securities

In respect of any Definitive Bearer Security, payments of principal will be made against and subject to the presentation and surrender (or, in the case of part payment, endorsement) of the relevant Definitive Bearer Security at the specified office of any Paying Agent outside the United States, by a cheque drawn in the currency in which payment is due, or by transfer to an account with an Account Bank denominated in such currency (as applicable).

Notwithstanding the foregoing, payments of principal may be made in United States dollars at the specified office of any Paying Agent in New York City if (i) the Issuer has appointed Paying Agents with offices outside of the United States with the reasonable expectation that such Paying Agents would be able to make payment in United States dollars, (ii) payment of the full amount of such principal in United States dollars at the offices of such Paying Agents is illegal or effectively precluded by exchange controls or other similar restrictions and (iii) payment is permitted by applicable United States law, without involving, in the determination of the Issuer, any adverse tax consequences to the Issuer.

4.2 Payments in respect of Definitive Registered Securities

Payments of principal in respect of each Definitive Registered Security will be made against and subject to the condition to settlement, presentation and surrender of the relevant Definitive Registered Security at the specified office of the Registrar or any of the Transfer Agents and in the manner provided in the immediately following paragraph below.

4.3 Payments in respect of Global Securities

(a) Global Bearer Securities

No payment falling due after the Exchange Date will be made on any Global Bearer Securities unless exchange for an interest in a Permanent Global Security or for Definitive Bearer Securities is improperly withheld or refused. Payments on any Temporary Global Security issued in compliance with the D Rules before the Exchange Date will only be made against presentation of certification as to non-US beneficial ownership in the form set out in the Master Agency Agreement.

(b) CGNs

All payments in respect of Bearer Securities in CGN Form will be made against and subject to presentation for endorsement and, if no further payment falls to be made in respect of the Global Bearer Securities, surrender of that Global Bearer Security to or to the order of the Issue and Paying Agent or such other Paying Agent as shall have been notified to the Holders for such purpose.

(c) NGNs and Global Securities held under NSS

If a Global Bearer Security is a Cleared Security in NGN Form or a Global Registered Security is a Cleared Security held under the NSS, the Issuer shall procure that details of each such payment shall be entered in the records of the Relevant Clearing System. Payments in respect of each Security in NGN Form will be made to its Holder. Each payment so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the Relevant Clearing System shall not affect such discharge.

(d) Global Registered Securities that are Cleared Securities

All payments in respect of Cleared Securities that are represented by a Global Registered Security will be made to, or to the order of, the person whose name is entered on the Register at the close of business on the Record Date.

(e) Relationship of Accountholders and Relevant Clearing Systems

Each of the persons shown in the records of the Relevant Clearing System as the Holder represented by a Global Security must look solely to the Relevant Clearing System for his share of each payment made by the Issuer to the bearer of such Global Bearer Security or the Holder of the underlying Registered Securities. The obligations of the Issuer will be discharged by payment to the bearer of such Global Bearer Security or the Holder of the underlying Registered Security, as the case may be, in respect of each amount so paid.

4.4 Payments on Business Days

If the date on which any amount is payable is not (i) a Business Day and (ii) in the case of Definitive Securities only, a day other than a Saturday or Sunday on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the relevant place of presentation, then payment will not be made until the next succeeding day which is (i) a Business Day and (ii) in the case of Definitive Securities only, also a day other than a Saturday or Sunday on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the relevant place of presentation, and the Holder thereof shall not be entitled to any further payment in respect of such delay.

4.5 Postponement of payments

If the determination of a value used to calculate any amount payable on the Scheduled Redemption Date is delayed or postponed pursuant to these General Conditions, payment will occur on the later of either (i) the Scheduled Redemption Date, or (ii) the third Business Day following the Final Valuation Date. No additional amounts shall be payable by the Issuer because of such postponement.

C. FINAL REDEMPTION

5. Final redemption

5.1 Certain information to be found in the Final Terms

The Final Terms will contain provisions specific to the relevant Securities, and must be read in conjunction with these General Conditions for full information on the manner in which the Final Cash Settlement Amount will be calculated. In particular, the Final Terms will specify the following information items:

$$\text{Calculation Amount} \times \frac{\text{Preference Share Value}_{\text{final}}}{\text{Preference Share Value}_{\text{initial}}}$$

5.3 Relevant defined terms

The following terms as used above have the following meanings:

- **"Calculation Amount"** means a nominal amount of the Securities equal to the minimum Specified Denomination, as specified in the Final Terms.
- **"Final Valuation Date"** means the date specified as such in the Final Terms, provided that if the Determination Agent determines that any date for valuation or determination in respect of the Underlying Preference Share otherwise falling on or about such day is delayed in accordance with the terms and conditions of the Underlying Preference Share for any reason, the Final Valuation Date shall be deemed to be the final such delayed valuation date, all as determined by the Determination Agent.

For the avoidance of doubt, where the Scheduled Redemption Date is delayed pursuant to the provisions of General Condition 4.5 (*Postponement of payments*), Final Valuation Date shall mean for such purposes the Final Valuation Date last occurring pursuant to the above provisions.

- **"Initial Valuation Date"** means the Issue Date.
- **"Preference Share Value"** means, in respect of an Underlying Preference Share and any day, the value of such Underlying Preference Share on such day as determined by the Determination Agent.

D. PREFERENCE SHARE TERMINATION EVENT

6. Preference Share Termination Event

6.1 Early redemption following the occurrence of a Preference Share Termination Event

If a Preference Share Termination Event has occurred, the Issuer shall give notice thereof to the Holders and redeem all of the Securities of the relevant Series on the Early Cash Settlement Date and shall pay to each Holder an amount equal to the Early Cash Settlement Amount in respect of the Calculation Amount for each Security held by it. Failure to give valid notice will not invalidate the determination of the Preference Share Termination Event.

As used herein, **"Preference Share Termination Event"** means the determination by the Determination Agent, in respect of an Underlying Preference Share, of:

- (a) the redemption of the Underlying Preference Share for any reason other than by reason of its redemption at scheduled maturity; or
- (b) the occurrence of an Autocall Event in respect of the Underlying Preference Share in accordance with its terms.

E. GENERAL PROVISIONS

7. Adjustment or early redemption following an Additional Disruption Event

If an Additional Disruption Event occurs:

If the Determination Agent determines that an appropriate adjustment or adjustments can be made, the Issuer shall determine the effective date of such adjustment(s), notify the Holders of such adjustment(s) and take the necessary steps to effect such adjustment(s); or
- (b) if the Determination Agent determines that no adjustment that could be made pursuant to paragraph (a) above would produce a commercially reasonable result and preserve substantially the economic effect to the Holders of a holding of the relevant Security, the Determination Agent will notify the Issuer of such determination and no adjustment(s) shall be made pursuant to paragraph (a) above. In such event, the Issuer may, on giving irrevocable notice to the Holders of not less than a number of Business Days equal to the Early Redemption Notice Period Number, redeem all of the Securities of the relevant Series on the date specified by it in the notice and pay to each Holder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount on such date (provided that the Issuer may also, prior to such redemption of the Securities, make any adjustment(s) to the Conditions or any other provisions relating to the Securities as appropriate in order to (when considered together with the redemption of the Securities) account for the effect of such Additional Disruption Event on the Securities).

8. **Events of Default**

If any of the following events occurs and is continuing (each an "**Event of Default**") and unless the Event of Default shall have been cured by the Issuer or waived by the Holders prior to receipt by the Issuer or the Issue and Paying Agent, as the case may be, of a notice from a Holder as referred to below, a Holder may give notice to the Issuer or the Issue and Paying Agent that such Security is, and in all cases such Security shall immediately become due and payable at, in respect of each Calculation Amount for such Security, the Early Cash Settlement Amount:

- (a) any Early Cash Settlement Amount or Final Cash Settlement Amount (as applicable) due on the Securities of the Series held by such Holder has not been paid within 30-calendar-days of the due date of payment. The Issuer shall not, however, be in default if such sums were not paid in order to comply with a mandatory law, regulation or order of any court of competent jurisdiction. Where there is doubt as to the validity or applicability of any such law, regulation or order, the Issuer will not be in default if it acts on the advice given to it during such 30-calendar-day period by independent legal advisers; or
- (b) the Issuer breaches any term and condition of such Securities in a way that is materially prejudicial to the interests of the Holders, and that breach has not been remedied within 30 calendar days of the Issuer having received notice thereof from Holders holding at least one-quarter in outstanding nominal amount of the relevant Series demanding remedy; or
- (c) an order is made or an effective resolution is passed for the winding-up of the Issuer (otherwise than in connection with a scheme of reconstruction, merger or amalgamation).

9. **Agents**

9.1 **Appointment of Agents**

The Agents act solely as agents of the Issuer and do not assume any obligation or relationship of agency or trust for or with any Holder. The Issuer reserves the right to vary or terminate the appointment of the Agents and to appoint additional or other Agents, provided that the Issuer shall at all times maintain:

- (a) an Issue and Paying Agent;
- (b) a Registrar and a Transfer Agent in relation to Registered Securities;

- (c) one or more Determination Agent(s) where these General Conditions so require; and

In respect of each such determination, consideration, decision, election and calculation, this General Condition 9.2 shall apply.

In making such determinations, considerations, decisions, elections and calculations, the Determination Agent may take into account the impact on the Issuer's hedging arrangements. In all circumstances, the Determination Agent shall make such determinations and calculations in good faith and in a commercially reasonable manner, and (save in the case of manifest or proven error) such determinations and calculations shall be final and binding on the Issuer, the Agents and the Holders.

9.3 Responsibility of the Issuer and the Agents

The reservation in respect of strikes, blockades, boycotts and lockouts shall also apply if any of such parties itself takes such measures or becomes the subject of such measures. Where the Issuer or any of the Agents is prevented from effecting payment due to such event, payment may be postponed until the time the event or circumstance impeding payment has ceased, and shall have no obligation to pay any additional amounts in respect of such postponement.

9.4 Waiver of performance for the Determination Agent and Issuer for determinations or other actions not in compliance with the Benchmarks Regulation

Notwithstanding anything else in the Conditions, if, in respect of the Securities, it (i) is or would be unlawful at any time under the Benchmarks Regulation or (ii) would contravene any applicable licensing requirements, in each case, for the Determination Agent or Issuer (as applicable) to make a determination or carry out some other action which it would otherwise be obliged to do under the Conditions, then the Determination Agent and Issuer (as applicable) shall not be obliged to make such determination or carry out such other action and shall be excused performance thereof without incurring any liability whatsoever to Holders.

10. Taxation

The Issuer is not liable for, or otherwise obliged to pay amounts in respect of, any Taxes borne by a Holder.

A Holder must pay all Taxes arising from or payable in connection with all payments relating to the Securities and all payments in respect of the Securities shall be made free and clear of, and without withholding or deduction for, any present or future Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within the Bank Jurisdiction (or any authority or political subdivision thereof or therein having power to tax) unless such withholding or deduction is required by law.

In that event, the Issuer or the Paying Agent, as the case may be, shall make such payment after such withholding or deduction has been made and shall account to the relevant authorities for the amount so required to be withheld or deducted. Neither the Issuer nor the Paying Agent will be obliged to make any additional payments to Holders in respect of such

withholding or deduction, and any such withholding or deduction shall not be an Event of Default under General Condition 8.

11. **Prescription**

Claims for payment of principal shall become void unless made within ten years of the appropriate Relevant Date.

12. **Replacement of Securities**

Should any Security in respect of any Series be lost, stolen, mutilated, defaced or destroyed, it may, subject to all applicable laws, regulations and any Relevant Stock Exchange or any other relevant authority requirements, be replaced at the specified office of the Issue and Paying Agent, or of such other Paying Agent, in the case of Bearer Securities, or the Registrar, in the case of Registered Securities, or of such other Paying Agent or Transfer Agent, if the Issuer designates such and gives notice of the designation to Holders. The replacement of any Security shall be subject to payment by the claimant of the fees, expenses and Taxes incurred in connection therewith and on such terms as to evidence, security and indemnity and otherwise as the Issuer may require.

13. **Early redemption for unlawfulness or impracticability**

If the Issuer determines in good faith and in a reasonable manner that the performance of any of its actual or contingent obligations under the Securities has become, or there is a substantial likelihood that it will become, unlawful or a physical impracticability, in whole or in part, as a result of (i) any change in financial, political or economic conditions or currency exchange rates or (ii) compliance in good faith by the Issuer or any relevant subsidiaries or Affiliates with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative or judicial authority or power or in interpretation thereof, the Issuer may, at its option, redeem or terminate the Securities by giving notice to Holders.

If the Issuer redeems the Securities pursuant to this General Condition 13, then the Issuer will, if and to the extent permitted by applicable law, pay to each Holder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount.

complied with if applicable. In such cases, notices will be deemed given on the first date of transmission to the applicable Relevant Clearing System.

Failure to give notice where required will not invalidate the determination, calculation or correction (as applicable).

14.2 To the Issuer and the Agents

In respect of any Series, all notices to the Issuer and/or the Agents must be sent to the address specified for each such entity in the Master Agency Agreement or to such other person or place as shall be specified by the Issuer and/or the Agent by notice given to Holders. Any notice determined not to be valid, effective, complete and in proper form shall be null and void unless the Issuer and the Relevant Clearing System agree otherwise. This provision shall not prejudice any right of the person delivering the notice to deliver a new or corrected notice. The Issuer, Paying Agent, Registrar or Transfer Agent shall use all reasonable endeavours promptly to notify any Holder submitting a notice if it is determined that such notice is not valid, effective, complete or in the proper form.

15. Substitution

The Issuer shall be entitled at any time, without the consent of the Holders, to substitute any other entity, the identity of which shall be determined by the Issuer, to act as issuer in respect of the Securities then outstanding pursuant to the Programme (the "**New Bank Issuer**"), provided that (a) the New Bank Issuer's long-term unsecured, unsubordinated and unguaranteed debt obligations are rated at least the same as Barclays Bank Ireland PLC's long-term rating at the date on which the substitution is to take effect or the New Bank Issuer has an equivalent long-term rating from another internationally recognised rating agency and (b) no Event of Default as set out in General Condition 8 (*Events of Default*) shall occur as a result thereof. Any such substitution shall take effect upon giving notice to the Holders of each Series then outstanding, the Relevant Stock Exchange, the Central Bank of Ireland and the relevant Agents.

In the event of any such substitution, any reference in the Conditions to the Issuer shall be construed as a reference to the New Bank Issuer. In connection with such right of substitution, the Issuer shall not be obliged to have regard to the consequences of the exercise of such right for individual Holders resulting from their being for any purpose domiciled or resident in, or otherwise connected with or subject to the jurisdiction of, any particular territory, and no Holder shall be entitled to claim from the Issuer or the New Bank Issuer any indemnification or payment in respect of any tax consequence of any such substitution upon such Holder.

16. Modifications and meetings of Holders

16.1 Modifications without consent of Holders

The Conditions of the Securities of any Series and/or the Master Agency Agreement and/or the Deeds of Covenant may be amended by the Issuer in each case without the consent of the Holders if, in the reasonable opinion of the Issuer, the amendment (i) is of a formal, minor or technical nature, (ii) is made to correct a manifest or proven error or omission, (iii) is made to comply with mandatory provisions of the law of the Bank Jurisdiction and/or in order to comply with amendments to any applicable laws and regulations, (iv) is made to cure, correct or supplement any defective provision contained herein and/or (v) will not materially and adversely affect the interests of the Holders. The Holder of a Permanent Global Security shall (unless such Permanent Global Security represents only one Security) be treated as being two persons for the purposes of any quorum requirements of a meeting of Holders and, at any such meeting, the Holder of a Permanent Global Security shall be treated as having one vote in respect of each integral currency unit of the applicable Calculation Amount.

17. **Further issues**

CLEARANCE AND SETTLEMENT

Bearer Securities

The Issuer may make applications to Euroclear and/or Clearstream for acceptance in their respective book-entry systems in respect of any Series of Bearer Securities. In respect of Bearer Securities, a Temporary Global Security and/or a Permanent Global Security in bearer form may be deposited with a common depository or delivered to a common safekeeper, as the case may be, for Euroclear and/or Clearstream or an alternative clearing system as agreed between the Issuer and the Managers. Transfers of interests in such Temporary Global Securities or Permanent Global Securities will be made in accordance with the normal Euromarket debt securities operating procedures of Euroclear and Clearstream or, if appropriate, the alternative clearing system.

Registered Securities

The Issuer may make applications to Euroclear and/or Clearstream for acceptance in their respective book-entry systems in respect of the Securities to be represented by a Global Security. Each Global Security deposited with a common depository for, and registered in the name of, a nominee of Euroclear and/or Clearstream will have an ISIN and a Common Code.

All Registered Securities will initially be in the form of Global Securities. Definitive Securities will only be available, in the case of Securities initially represented by a Global Security, in amounts or numbers specified in the Final Terms.

Transfers of Registered Securities

Transfers of interests in Global Securities within Euroclear and Clearstream will be in accordance with the usual rules and operating procedures of the relevant clearing system.

Beneficial interests in a Global Security may only be held through Euroclear or Clearstream.

Book-Entry Ownership

If you hold your Securities in dematerialised and/or uncertificated form ("**Book-Entry Securities**"), you will not be the legal owner of the Book-Entry Securities. Rights in the Book-Entry Securities will be held through custodial and depository links through the relevant clearing systems. This means that holders of Book-Entry Securities will only be able to enforce rights in respect of the Book-Entry Securities indirectly through the intermediary depositories and custodians.

Considerations in respect of holding Securities through nominee arrangements

Where a distributor and/or a nominee service provider is used by you to invest in the Securities, you will only receive payments on the basis of arrangements entered into by you with the distributor or nominee service provider, as the case may be. In such case, you must look exclusively to the distributor or nominee service provider for all payments attributable to the Securities. Neither the Issuer, Manager(s) nor Determination Agent or any other person will be responsible for the acts or omissions of the distributor or nominee service provider, nor will they make any representation or warranty, express or implied, as to the services provided by the distributor or nominee service provider.

Definitive Securities

Registration of title to Registered Securities in a name other than a common depository or its nominee for Clearstream and Euroclear will be permitted only in the circumstances set out in General Condition 1 (*Form, title and transfer*). In such circumstances, the Issuer will cause sufficient individual Securities to be executed and delivered to the Registrar for completion, authentication and despatch to the relevant Holder(s). A person having an interest in a Global Security must provide the Registrar with a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver such Definitive Securities.

DESCRIPTION OF THE PREFERENCE SHARE ISSUER AND THE PREFERENCE SHARES

A. DESCRIPTION OF THE PREFERENCE SHARE ISSUER

1. General

Teal Investments Limited (the "**Preference Share Company**" or the "**Preference Share Issuer**") was established as a closed-ended investment company, incorporated with limited liability in Jersey under the Companies (Jersey) Law 1991 on 5 June 2019 (with registered number 129205). The Preference Share Company is established under the laws of Jersey and has its registered office at 2nd Floor, Sir Walter Raleigh House, 48-50 Esplanade, St Helier, Jersey, Channel Islands JE2 3QB.

Each Series of Securities will give exposure to the performance of a separate Class of Preference Share that, in turn, gives exposure to one or more Underlying Preference Share Reference Asset(s) (as more particularly described below). It is expected that the Preference Share Issuer will issue a single Preference Share of the relevant Class and that, unless otherwise specified in the relevant Preference Share Confirmation, this will be issued fully paid at 100 times of the lowest integral denomination of the relevant settlement currency (e.g. GBP 100, EUR 100, USD 100, CHF 100 or CAD 100), in each case as specified in the relevant Preference Share Confirmation, and will be held by Barclays Bank Ireland PLC or an affiliate of Barclays Bank Ireland PLC until their scheduled redemption date.

2. Principal Activities of the Preference Share Issuer

The sole business activity of the Preference Share Issuer is to issue redeemable preference shares. Accordingly, the Preference Share Issuer does not have any trading assets and does not generate any significant net income.

To subscribe for each Class of Underlying Preference Shares, Barclays Bank Ireland PLC or an affiliate will pay to the Preference Share Issuer an issuance fee and a corporate benefit fee which will be expected to cover the maximum upside return on the relevant Class of Underlying Preference Shares. The issuance fee and corporate benefit fee are payable in addition to the issue price of the relevant Class of the Underlying Preference Shares. It is expected that the issuance fee and corporate benefit fee, together with the issue price, will be applied by the Preference Share Issuer for making redemption payments on each Class of Underlying Preference Shares and not for any other purposes.

3. Constitutional Documents

A copy of the Preference Share Issuer's constitutional documents and the relevant Preference Share Conditions are available to investors in the Securities on written request (free of charge) from the registered office of the Preference Share Issuer at 2nd Floor, Sir Walter Raleigh House, 48-50 Esplanade, St Helier, Jersey, Channel Islands JE2 3QB and from the Distributor of the relevant Securities. If specified in the relevant Preference Share Confirmation, the Preference Share Conditions will also be available on the website specified in the relevant Preference Share Confirmation.

B. DESCRIPTION OF THE PREFERENCE SHARES

1. General

The Preference Share Issuer may issue redeemable Preference Shares of any kind, including but not limited to Preference Shares linked to the performance of one or more underlying asset(s) which may include equity indices and/or common shares, depository receipts or exchange-traded funds that are traded on a regulated, regularly operating, recognised open market within the meaning of the Listing Rules of Euronext Dublin and as shall be specified in the Final Terms in respect of the related Securities, and which may change over time as a result of performance, the exercise of investment management discretion or other factors (each an "**Underlying Preference Share Reference Asset**") and will be issued on such terms as may be determined by the Preference Share Issuer and specified in the applicable terms and

conditions of the relevant Class of Preference Share (the "**Preference Share Terms and Conditions**").

2. **Terms and conditions of the Preference Shares**

The Preference Share Terms and Conditions comprise, in relation to the applicable Underlying Preference Share, the terms and conditions set forth in the section "*Terms and Conditions of the Preference Shares*" of this Document below, as completed, supplemented and amended by the related Preference Share Confirmation.

The Preference Share Conditions of each Class provide that the applicable Preference Share will be redeemable on its scheduled redemption date at a defined amount as determined in accordance with the Preference Share Conditions.

The Preference Share Terms and Conditions may also provide that the Preference Share Issuer may redeem the Preference Shares early, as further described in this Document in the section "*Terms and Conditions of the Preference Shares*".

The following text comprises the terms and conditions of the Preference Shares (the "**Preference Share General Conditions**") that, subject to completion by the Preference Share Confirmation (together, the "**Preference Share Conditions**"), shall be applicable to each class.

A preference share confirmation (the "**Preference Share Confirmation**") shall be prepared in respect of each Class of Preference Shares and each reference in these Preference Share General Conditions to the Preference Share Confirmation in respect of one or more Preference Shares shall be construed as a reference to the particular Preference Share Confirmation prepared in respect of such Preference Share(s).

The provisions within Section C. AUTOCALL AND FINAL REDEMPTION AND ISSUER CALL AND HOLDER PUT, Section D EQUITY LINKED CONDITIONS AND DISRUPTION EVENTS and Section E. GENERAL PROVISIONS contain certain optional provisions that will only apply to certain issuances of Preference Shares. The Preference Share Confirmation document will specify which provisions from Sections C, D and E apply to the Preference Shares.

In particular, the Preference Share Confirmation will indicate:

- whether the Preference Shares are linked to one or more Shares and/or Equity Indices;
- the redemption amount payable in relation to the Holders of the Preference Shares;
- whether the Preference Shares may be redeemed early due to an 'autocall event'; and
- whether or not the Preference Shares may be redeemed early at the option of the Preference Share Issuer and/or the Shareholder(s),

in each case in accordance with the relevant provisions of Preference Share General Condition 5 (*Automatic early redemption*), Preference Share General Condition 6 (*Final redemption*) and Preference Share General Condition 7 (*Determination of the Additional Amount*), as is specified to be applicable in the Preference Share Confirmation.

All capitalised terms that are not defined in these Preference Share General Conditions have the meanings given to them in the Preference Share Confirmation.

References in these Preference Share General Conditions to 'Preference Shares' are to the Preference Share of one Class only, not to all Preference Shares that may be issued by the Preference Share Issuer pursuant to the Articles from time to time.

A. INTRODUCTION

The Preference Shares are issued as a Class of preference shares ("**Preference Shares**") by Teal Investments Limited (the "**Issuer**" or the "**Preference Share Issuer**") and references to 'Preference Shares' and 'Preference Share(s)' shall be construed as references to each Class accordingly. Preference Shares are issued pursuant to the Articles of Association of the Preference Share Issuer.

These Preference Share General Conditions constitute a part of the Articles. In the event of any inconsistency between any other provisions of the Articles and these Preference Share General Conditions, these Preference Share General Conditions shall prevail. In the event of any inconsistency between these Preference Share General Conditions and the Preference Share Confirmation, the Preference Share Confirmation shall prevail.

Copies of the Articles and the Preference Share Confirmation of each Class of Preference Shares are available for inspection at the registered office of the Preference Share Issuer or upon request to the Corporate Administrator during normal business hours on any weekday.

Unless otherwise expressly indicated, capitalised terms used in the Preference Share Conditions have the meanings given in Preference Share General Condition 31 (*Definitions and interpretation*).

D. **EQUITY LINKED CONDITIONS AND DISRUPTION EVENTS**

9. **Equity Index modification, cancellation, disruption or adjustment event**

The following provisions of this Preference Share General Condition 9 will apply to all Equity Index Linked Preference Shares.

9.1 **Equity Index Adjustment Events**

If,

- (a) on or prior to any date on which the level of an Equity Index is to be calculated, including, without limitation, any Averaging Date, Lookback Date or Valuation Date (a "**Determination Date**"), the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Equity Index or in any other way materially modifies that Equity Index (other than a modification prescribed in that formula or method to maintain that Equity Index in the event of changes in constituent stock and capitalisation and other routine events) (an "**Index Modification**") or permanently cancels the Equity Index and no successor Equity Index exists (an "**Index Cancellation**"); or
- (b) on any Determination Date the Index Sponsor fails to calculate and announce a relevant Equity Index (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, an "**Index Adjustment Event**"),

then the Determination Agent shall on each relevant Determination Date determine if such Index Adjustment Event has a material effect on the relevant Preference Shares and, if so, shall calculate the level of that Equity Index by using, in lieu of a published level for the relevant Equity Index, the level for that Equity Index as at that Determination Date in accordance with the formula for and method of calculating that Equity Index last in effect prior to that Index Adjustment Event, but using only those Components that constituted the relevant Equity Index immediately prior to that Index Adjustment Event (other than those Components that have since ceased to be listed on any relevant Exchange), provided always that:

- (A) in the case of Index Cancellation, if a Pre-nominated Equity Index has been specified in the Preference Share Confirmation in respect of the cancelled Equity Index, the cancelled Equity Index shall be replaced by such Pre-nominated Equity Index with effect from the date as determined by the Determination Agent and the Pre-nominated Equity Index will be deemed to be the Equity Index with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Preference Share Conditions or other terms of the Preference Share, including without limitation, any Condition or term relevant to the settlement or payment under the Preference Shares, as the Determination Agent determines appropriate to preserve the economics of the Preference Shares to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Preference Share Issuer to the Shareholder(s) or vice versa as a result of such replacement, including as a result of a different term structure or methodology); and
- (B) if the Determination Agent determines that it is unable, or can no longer continue, to calculate the Equity Index (or, in the case of Index Calculation, the cancelled Equity Index is not replaced with a Pre-nominated Equity Index or another equity index), the Determination Agent may deem such Index Adjustment Event to constitute an Additional Disruption Event for the purposes of these provisions and shall take any necessary action in accordance with the applicable provisions of Preference Share General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*), as the case may be, in respect of the Preference Share.

9.2 **Successor Index Sponsor or substitution of Equity Index with substantially similar calculation**

If an Equity Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Determination Agent or (ii) replaced by a successor index (the "**Successor Index**") using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Equity Index, then (1) the index as calculated and announced by the Successor Index Sponsor or (2) the Successor Index will be deemed to be the Equity Index.

9.3 Correction of an Equity Index

If the level of an Equity Index published on any Determination Date and used or to be used by the Determination Agent to determine any relevant Equity Index value is subsequently corrected and the correction is published by the Index Sponsor or a Successor Index Sponsor no later than the fourth Exchange Business Day prior to the next date upon which any payment shall be made by the Preference Share Issuer, the Determination Agent shall recalculate the amount that is payable, using such corrected level of the relevant Equity Index and, to the extent necessary, will adjust any relevant terms of the Preference Shares to account for such correction. The Determination Agent shall notify the Shareholder(s) of (i) that correction and (ii) the amount, if any, that is payable as a result of that correction and (iii) any adjustment being made.

9.4 Manifest error in Equity Index calculation

Notwithstanding anything to the contrary herein, if, on any Determination Date there is, in the reasonable opinion of the Determination Agent, a manifest error in the calculation of an Equity Index by the relevant Index Sponsor (as manifested in the level of such Equity Index published by such Index Sponsor), the Determination Agent may calculate the level of such Equity Index for such date in lieu of using the level published on such date by such Index Sponsor. Such calculation will be determined in accordance with the methodology and formula for calculating the relevant Equity Index used by the relevant Index Sponsor last in effect prior to the manifest error occurring. Where the Determination Agent calculates the level of an Equity Index in accordance with this paragraph, it shall give notice to the Shareholder(s) of the Equity Index level so calculated no later than five Business Days after the relevant Determination Date.

If the relevant Index Sponsor continues to calculate the relevant Equity Index with manifest error for more than three Scheduled Trading Days, then the Determination Agent may make such adjustments to the terms of the Preference Share as it may determine, including, without limitation, selecting an alternative index to replace the relevant Equity Index and/or replicating the constituents of the relevant Equity Index and/or continuing to calculate the relevant Equity Index in accordance with the methodology and formula for calculating such Equity Index used by the relevant Index Sponsor last in effect prior to the manifest error occurring and/or adjusting the constituents and weightings of such Equity Index. Where the Determination Agent makes any adjustment(s) in accordance with this paragraph, it shall give notice to the Shareholder(s) as soon as is reasonably practicable after making such adjustment(s).

Where a correction to the level of an Equity Index is published by the Index Sponsor as described in Preference Share General Condition 9.3 (*Correction of an Equity Index*) after the Determination Agent has calculated the level of such Equity Index pursuant to this Preference Share General Condition 9.4, the Determination Agent may recalculate any amount to be paid, using such corrected level in accordance with the provisions of Preference Share General Condition 9.3 (*Correction of an Equity Index*) after the correction to the level of the relevant Equity Index is published by the relevant Index Sponsor. Where a correction to the level of an Equity Index is published by the relevant Index Sponsor after an adjustment has been made to the terms of the Preference Share in accordance with the preceding paragraph, Preference Share General Condition 9.3 (*Correction of an Equity Index*) shall not apply and the terms of such adjustment shall prevail.

10. Share Adjustments or disruptions

The following provisions of this Preference Share General Condition 10 will apply to all Share Linked Preference Shares.

10.1 Potential Adjustment Events

The Determination Agent may at any time determine that a Potential Adjustment Event has occurred. Following such determination, the Determination Agent will then determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares and, if so, will (i) make the corresponding adjustment(s), relevant to the

settlement, payment or other terms of the Preference Shares as the Determination Agent determines appropriate to account for the diluting or concentrative effect of such Potential Adjustment Event (the "**Adjustment(s)**") and (ii) determine the effective date(s) of the Adjustment(s). The Determination Agent may (but need not) determine the appropriate Adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Shares traded on that options exchange.

Any adjustment to the terms of the Preference Shares following a Potential Adjustment Event shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Preference Share Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent.

Notwithstanding the above, the Preference Share Issuer may, alternatively, on giving notice to the Shareholder(s), elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to pay to each Shareholder a cash amount (the "**Adjustment Event Amount**") to account for the diluting or concentrative effect of such Potential Adjustment Event. In such notice the Issuer will set out the amount of cash to be paid and the manner in which such payment is to be made.

10.2 **Merger Events, Nationalisation, Insolvency, Insolvency Filing, Delisting and Tender Offers**

Following the occurrence of any Merger Event, Nationalisation, Insolvency, Insolvency Filing, Delisting or Tender Offer, such event shall constitute an Additional Disruption Event and the applicable provisions of Preference Share General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*) shall apply.

10.3 **Substitution of Shares**

(a) If the Preference Share Confirmation specifies 'Substitution of Shares – Standard' to be 'Applicable':

(i) If any Share shall be affected by an Extraordinary Event (the "**Affected Shares**"), then without prejudice to the rights that the Preference Share Issuer has under the Preference Shares (as described above), the Preference Share Issuer shall have the option to substitute the Affected Shares with substitute shares (the "**Substitute Shares**") as selected by the Determination Agent as at the Announcement Date or the Tender Offer Date or such other date as the Determination Agent may deem appropriate, as the case may be.

(ii) The Substitute Shares shall have such criteria as the Determination Agent deems appropriate, including, but not limited to, the following:

(A) the Substitute Shares shall belong to a similar economic sector as the Share Company of the Affected Shares; and

(B) the issuer of the Substitute Share shall be of a similar international standing and creditworthiness as the Share Company of the Affected Shares.

(iii) The Initial Price of the Substitute Shares shall be determined in accordance with the following:

$$\text{Initial Price} = \text{Substitute Price} \times (\text{Affected Share(k)}/\text{Affected Share(j)})$$

where:

"**Affected Share(j)**" means the last closing price per Share of the Affected Shares on or prior to the Announcement Date or the Tender Offer Date or such other date as the Determination Agent may deem appropriate (as the case may be);

"**Affected Share(k)**" means the 'Initial Price' per Share of the relevant Affected Shares; and

"**Substitute Price**" means the official closing price per Share of the relevant Substitute Shares as at the Valuation Time on the dates on which the Affected Share(3j) is determined or, if such date is not a Scheduled Trading Day on the relevant Exchange in respect of the Substitute Shares, the following Scheduled Trading Day of the Substitute Shares.

- (iv) The Determination Agent shall notify the Shareholder(s) as soon as practicable after the selection of the relevant Substitute Shares.
- (b) If the Preference Share Confirmation specifies 'Substitution of Shares – ETF underlying' to be 'Applicable':
- (i) On the occurrence of an Extraordinary Event, then without prejudice to the rights that the Preference Share Issuer has under the Preference Shares (including, for the avoidance of doubt, the right to make appropriate adjustments or redeem the Preference Shares in accordance with Preference Share General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*)), the Preference Share Issuer shall determine whether to substitute the relevant Share with such shares, units or other interests of an exchange-traded fund or other financial security, index or instrument (each a "**Replacement Security**") that the Determination Agent determines is comparable to the relevant discontinued Share (or discontinued Replacement Security) as at the Announcement Date or the Tender Offer Date or such other date as the Determination Agent may deem appropriate, as the case may be, and such Replacement Security shall be deemed to be the relevant Share for all purposes of the Preference Share after the substitution.
 - (ii) Upon the substitution by the Determination Agent of a Replacement Security, the Determination Agent may adjust any variable in the terms of the Preference Share (including, without limitation, any variable relating to the price of the shares, units or other interests in the relevant Share, the number of such shares, units or other interests outstanding, created or cancelled or any dividend or other distribution made in respect of such shares, units or other interests) as, in the judgement of the Determination Agent, may be, and for such time as may be, necessary to render the Replacement Security comparable to the shares or other interests of the relevant discontinued Share (or discontinued Replacement Security) for purposes of the Preference Share.
 - (iii) Upon any substitution by the Determination Agent of a Replacement Security, the Determination Agent shall notify the Shareholder(s) as soon as practicable after the selection of the Replacement Security.

In the event that (i) the Issuer determines not to substitute the Share in accordance with paragraph (a) or paragraph (b) above, as may be applicable, or (ii) the Determination Agent determines that it cannot substitute the Affected Share in accordance with paragraph (a) above or cannot determine a Replacement Security in accordance with paragraph (b) above, the Issuer may determine that such Extraordinary Event is an Additional Disruption Event and shall make appropriate adjustments or redeem the Preference Share in whole in accordance with Preference Share General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*).

11. **Consequences of Disrupted Days**

The following provisions of this Preference Share General Condition 11 will apply to all Share Linked Preference Shares and Equity Index Linked Preference Shares.

11.1 **Valuation Dates**

If, in the opinion of the Determination Agent, any Valuation Date is a Disrupted Day in respect of any Reference Asset, then:

- (a) in respect of any Preference Share for which there is only one Reference Asset, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day, in which case the eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that it is a Disrupted Day, and the Determination Agent shall determine:
- (A) in the case of any Reference Asset that is a Share, the relevant exchange-traded or quoted price (the "**Traded Price**") for such Share that would have prevailed as of the Valuation Time on the eighth Scheduled Trading Day but for that Disrupted Day; or
 - (B) in the case of any Reference Asset that is an Index, the level of the Index as at the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Traded Price as at the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, its determination of the Traded Price for the relevant security as at the Valuation Time on that eighth Scheduled Trading Day);
- (b) in respect of any Preference Share for which there is more than one Reference Asset, the Valuation Date for each Reference Asset not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and the Valuation Date for each Reference Asset affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day, in which case the eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Reference Asset, notwithstanding the fact that it is a Disrupted Day, and the Determination Agent shall determine:
- (A) in the case of any Reference Asset that is a Share, the Traded Price for such Share that would have prevailed as of the Valuation Time on that eighth Scheduled Trading Day but for that Disrupted Day; or
 - (B) in the case of any Reference Asset that is an Index, the level of that Index as at the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Traded Price as at the Valuation Time on that eighth Scheduled Trading Day of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, the Traded Price for the relevant security as at the Valuation Time on that eighth Scheduled Trading Day).

11.2 Averaging Dates and Lookback Dates

If, in the opinion of the Determination Agent, any Averaging Date or Lookback Date (for the purposes of this Preference Share General Condition 11.2, a "**Reference Date**") is a Disrupted Day, then:

- (a) if there is only one Reference Asset:
- (i) if the Preference Share Confirmation specifies 'Omission' to be 'Applicable', such date will be deemed not to be a Reference Date for the purposes of determining the relevant level, price or amount, provided that, if, through the operation of this provision, no Reference Date would occur in respect of such Reference Asset, then the provisions of the definition of 'Valuation Date' and Preference Share General Condition 11.1 (*Valuation Dates*) (as applicable) will apply for the purposes of determining the relevant level, price or amount on the final Reference Date as if such Reference Date were a Valuation Date that was a Disrupted Day; or

- (ii) if the Preference Share Confirmation specifies 'Postponement' to be 'Applicable', the provisions of Preference Share General Condition 11.1 (*Valuation Dates*) (as applicable) will apply for the purposes of determining the relevant level, price or amount on that Reference Date as if such Reference Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Reference Date would fall on a day that already is or is deemed to be a Reference Date; or
 - (iii) if the Preference Share Confirmation specifies 'Modified Postponement' to be 'Applicable', then the Reference Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred as at the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Reference Date or Disrupted Day, would have been the final Reference Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Reference Date (irrespective of whether that eighth Scheduled Trading Day is already a Reference Date) and (B) the Determination Agent shall determine the relevant level or price for that Reference Date in accordance with Preference Share General Condition 11.1 (*Valuation Dates*) (as applicable). For the purposes of this Preference Share General Condition 11.2(a)(iii), "**Valid Date**" means a Scheduled Trading Day that is not a Disrupted Day and on which another Reference Date does not or is not deemed to occur.
- (b) if there is more than one Reference Asset, the Reference Date for each Reference Asset not affected by the occurrence of a Disrupted Day shall be the original date that, but for the occurrence of a Disrupted Day, would have been the Reference Date for all Reference Assets (the "**Scheduled Reference Date**") and for each Reference Asset affected by the occurrence of a Disrupted Day:
 - (i) if the Preference Share Confirmation specifies 'Omission' to be 'Applicable', such date will be deemed not to be a Reference Date for the purposes of determining the relevant level, price or amount for such Reference Asset, provided that, if, through the operation of this provision, no Reference Date would occur in respect of such Reference Asset, then the provisions of the definition of 'Valuation Date' and Preference Share General Condition 11.1 (*Valuation Dates*) (as applicable) will apply for the purposes of determining the relevant level, price or amount of such Reference Asset on the final Reference Date as if such Reference Date were a Valuation Date that was a Disrupted Day; or
 - (ii) if the Preference Share Confirmation specifies 'Postponement' to be 'Applicable', then the provisions of Preference Share General Condition 11.1 (*Valuation Dates*) (as applicable) will apply for the purposes of determining the relevant level, price or amount of such Reference Asset on that Reference Date as if such Reference Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Reference Date would fall on a day that already is or is deemed to be a Reference Date; or
 - (iii) if the Preference Share Confirmation specifies 'Modified Postponement' to be 'Applicable', then the Reference Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred as at the Valuation Time on the eighth Scheduled Trading Day immediately following the final Scheduled Reference Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Reference Date (irrespective of whether that eighth Scheduled Trading Day is already a Reference Date for such Reference Asset) and (B) the Determination Agent shall determine the relevant level or price for such Reference Asset on that Reference Date in accordance with Preference Share General Condition 11.1 (*Valuation Dates*) (as applicable). For the purposes of this Preference Share General Condition 11.2(b)(iii), "**Valid Date**" means a Scheduled Trading Day that is not a Disrupted Day for a Reference Asset and on which another Reference Date does not or is not deemed to occur.

12. **Adjustments**

The following provisions of this Preference Share General Condition 12 will apply to all Share Linked Preference Shares and Equity Index Linked Preference Shares.

If the Preference Share Issuer requests that the Determination Agent determine whether an appropriate adjustment can be made in accordance with Preference Share General Condition 11 (*Consequences of Disrupted Days*), the Preference Share Issuer shall not be obliged to make any adjustment that it does not think is appropriate and none of the Determination Agent, the Preference Share Issuer or any other party shall be liable for the Preference Share Issuer making or failing to make any such adjustment.

In particular, notwithstanding that an adjustment is required to be made by the provisions set out in this Section D: **EQUITY LINKED CONDITIONS AND DISRUPTION EVENTS** in respect of any event affecting a Share Company or its Shares, or an Equity Index or its Index Sponsor, the Preference Share Issuer reserves the right not to make that adjustment if, at the time the adjustment is to be made pursuant thereto, an option or future on the relevant Share or Equity Index is traded on any Futures or Options Exchange and no adjustment is made by that Futures or Options Exchange to the Share or Equity Index under that traded option or future in respect of that event.

The Issuer will give, or procure that there is given, notice as soon as practicable of any adjustment and of the date from which such adjustment is effective.

13. **Depository Receipt Provisions**

13.1 **Partial Lookthrough Depository Receipt Provisions**

Where the Preference Share Confirmation specifies 'Partial Lookthrough Depository Receipt Provisions' to be 'Applicable' in respect of a Share, then the provisions set out below shall apply, and, in relation to such Share, the other Preference Share General Conditions shall be deemed to be amended and modified as set out in this Preference Share General Condition 13

(a) The definition of 'Potential Adjustment Event' shall be amended so that it reads as follows:

"Potential Adjustment Event" means any of the following or a declaration by the Share Company of the terms of any of the following:

- (i) a subdivision, consolidation or reclassification of the relevant Shares and/or Underlying Share (unless resulting in a Merger Event), or a free distribution or dividend of any such Shares and/or Underlying Share to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of the relevant Shares and/or Underlying Share of (A) additional Shares and/or Underlying Share, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of dissolution, liquidation or termination of the Shares Company or Underlying Share Company, as appropriate, equally or proportionately with such payments to holders of such Shares and/or Underlying Share, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Share Company or Underlying Share Company, as appropriate, as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price;
- (iii) in respect of a Share and/or Underlying Share, an amount per Share and/or Underlying Share which the Determination Agent determines should be characterised as an extraordinary dividend;
- (iv) a call by the Share Company or Underlying Share Company, as appropriate, in respect of the relevant Shares and/or Underlying Share that are not fully paid;

- (v) a repurchase by the relevant Share Company or Underlying Share Company, as appropriate, or any of its subsidiaries of the relevant Shares and/or Underlying Share whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
 - (vi) in respect of the Share Company or Underlying Share Company, as appropriate, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Share Company or Underlying Share Company, as appropriate, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights;
 - (vii) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares and/or Underlying Share; or
 - (viii) the making of any amendment or supplement to the terms of the Deposit Agreement, provided that an event under (i) to (vii) (inclusive) above in respect of the Underlying Share shall not constitute a Potential Adjustment Event unless, in the opinion of the Determination Agent, such event has a diluting or concentrative effect on the theoretical value of the Shares.'
- (b) If the Determination Agent determines that:
- (i) an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event' has occurred in respect of any Underlying Share, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares; or
 - (ii) an event under (viii) of the definition of 'Potential Adjustment Event' has occurred, the Determination Agent will determine whether such Potential Adjustment Event has an economic effect on the Preference Share;

and, in each case, the Determination Agent will make the corresponding adjustment(s), if any, to one or more of any variable relevant to the settlement, payment or other terms of the Preference Share as the Determination Agent determines appropriate to account for (x) in respect of an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event', that diluting or concentrative effect, and (y) in respect of an event under (viii) of the definition of 'Potential Adjustment Event', such economic effect on the Preference Share, as the case may be (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) following the Potential Adjustment Event. The Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.

Any adjustment to the terms of the Preference Share following a Potential Adjustment Event shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Preference Share Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent in good faith.

Notwithstanding the above, the Preference Share Issuer may, alternatively, on giving notice to the Shareholder(s), elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to pay to each Shareholder a cash amount (the "**Adjustment Event Amount**") to account for the diluting or concentrative effect of such Potential Adjustment Event. In such notice the Issuer will set out the amount of cash to be paid and the manner in which such payment is to be made.

For the purpose of this Preference Share General Condition 13, the Preference Share General Condition 10.1 (Potential Adjustment Events) will not apply.

If the Determination Agent determines that no adjustment that it could make will produce a commercially reasonable result, it shall notify the Preference Share Issuer (where applicable) and the Shareholder(s) that the relevant consequence shall be the early redemption of the Preference Share and specify in such notice the valuation date (the "**Early Redemption Valuation Date**") and redemption date (the "**Early Cash Redemption Date**") in respect of such early redemption, in each case, as selected by the Determination Agent in its reasonable commercial discretion, and:

- (i) each Shareholder shall have the right exercisable on any Business Day in the period commencing from, and including, the Early Redemption Valuation Date to, but excluding, the Early Cash Redemption Date, by giving notice to the Preference Share Issuer, to require the Preference Share Issuer to immediately pay or cause to be paid a cash amount per Calculation Amount in the Settlement Currency equal to the Early Cash Settlement Amount in respect of the Preference Shares held by such Shareholder; and
 - (ii) if the right in sub-paragraph (i) is not exercised in respect of each then outstanding Preference Share, the Preference Share Issuer shall redeem the Preference Share on the Early Cash Redemption Date, and the Preference Share Issuer will cause to be paid to each Shareholder in respect of each Security held by it an amount equal to the Early Cash Settlement Amount (as defined in Preference Share General Condition 31 (*Definitions and interpretation*)).
- (c) The definitions of 'Merger Event' and 'Tender Offer' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'. If the Determination Agent determines that a Merger Event or Tender Offer has occurred in respect of an Underlying Share, then where the Determination Agent makes an adjustment to the Preference Share in connection with a Merger Event or Tender Offer, the Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.
- (d) The definitions of 'Nationalisation', 'Insolvency' and 'Delisting' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If any of 'Nationalisation', 'Insolvency' or 'Delisting' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such events shall be interpreted consistently.

Notwithstanding anything to the contrary in the definition of 'Delisting', a Delisting shall not occur in respect of the Underlying Share if the Underlying Share is immediately re-listed, re-traded or re-quoted on an exchange or quotation system regardless of the location of such exchange or quotation system.

- (e) The definition of 'Insolvency Filing' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If 'Insolvency Filing' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such event shall be interpreted consistently.

- (f) The definition of 'Announcement Date' to add at the end thereof the following:

'(c) in the case of a termination of the Deposit Agreement, the date of the first public announcement by the Depository that the Deposit Agreement is (or will be) terminated.'

13.2 **Full Lookthrough Depository Receipt Provisions**

Where the Preference Share Confirmation specifies 'Full Lookthrough Depository Receipt Provisions' to be 'Applicable' in respect of a Share, then the provisions set out below shall apply, and, in relation to such Share, the other Preference Share General Conditions shall be deemed to be amended and modified as set out in this Preference Share General Condition 13.

(a) The definition of 'Potential Adjustment Event' shall be amended so that it reads as follows:

"Potential Adjustment Event" means any of the following or a declaration by the Share Company of the terms of any of the following:

- (i) a subdivision, consolidation or reclassification of the relevant Shares and/or Underlying Share (unless resulting in a Merger Event), or a free distribution or dividend of any such Shares and/or Underlying Share to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of the relevant Shares and/or Underlying Share of (A) additional Shares and/or Underlying Share, or (B) other share capital or securities granting the right to payment of dividends and/or the proceeds of dissolution, liquidation or termination of the Shares Company or Underlying Share Company, as appropriate, equally or proportionately with such payments to holders of such Shares and/or Underlying Share, or (C) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Share Company or Underlying Share Company, as appropriate, as a result of a spin-off or other similar transaction, or (D) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price;
- (iii) in respect of a Share and/or Underlying Share, an amount per Share and/or Underlying Share which the Determination Agent determines should be characterised as an extraordinary dividend;
- (iv) a call by the Share Company or Underlying Share Company, as appropriate, in respect of the relevant Shares and/or Underlying Share that is not fully paid;
- (v) a repurchase by the Share Company or Underlying Share Company, as appropriate, or any of its subsidiaries of the relevant Shares and/or Underlying Share whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) in respect of the Share Company or Underlying Share Company, as appropriate, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Share Company or Underlying Share Company, as appropriate, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights;
- (vii) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares and/or Underlying Share; or
- (viii) the making of any amendment or supplement to the terms of the Deposit Agreement, provided that an event under (i) to (vii) (inclusive) above in respect of the Underlying Share shall not constitute a Potential Adjustment Event unless, in the opinion of the Determination Agent, such event has a diluting or concentrative effect on the theoretical value of the Shares.'

(b) If the Determination Agent determines that:

- (i) an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event' has occurred in respect of any Underlying Share, the Determination Agent will

determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares; or

- (ii) an event under (viii) of the definition of 'Potential Adjustment Event' has occurred, the Determination Agent will determine whether such Potential Adjustment Event has an economic effect on the Preference Share;

and, in each case, the Determination Agent will make the corresponding adjustment(s), if any, to one or more of any variable relevant to the settlement, payment or other terms of the Preference Share as the Determination Agent determines appropriate to account for (x) in respect of an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event', that diluting or concentrative effect, and (y) in respect of an event under (viii) of the definition of 'Potential Adjustment Event', such economic effect on the Preference Share, as the case may be (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) following the Potential Adjustment Event. The Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.

Any adjustment to the terms of the Preference Share following a Potential Adjustment Event shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent in good faith.

Notwithstanding the above, the Preference Share Issuer may, alternatively, on giving notice to the Shareholder(s), elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to pay to each Shareholder a cash amount (the "**Adjustment Event Amount**") to account for the diluting or concentrative effect of such Potential Adjustment Event. In such notice the Preference Share Issuer will set out the amount of cash to be paid and the manner in which such payment is to be made.

For the purpose of this Preference Share General Condition 13, the Preference Share General Condition 10.1 (*Potential Adjustment Events*) will not apply.

If the Determination Agent determines that no adjustment that it could make will produce a commercially reasonable result, it shall notify the Preference Share Issuer (where applicable) and the Shareholder(s) that the relevant consequence shall be the early redemption of the Preference Share and specify in such notice the valuation date (the "**Early Redemption Valuation Date**") and redemption date (the "**Early Cash Redemption Date**") in respect of such early redemption, in each case, as selected by the Determination Agent in its reasonable commercial discretion, and:

- (i) each Shareholder shall have the right exercisable on any Business Day in the period commencing from, and including, the Early Redemption Valuation Date to, but excluding, the Early Cash Redemption Date, by giving notice to the Preference Share Issuer, to require the Preference Share Issuer to immediately pay or cause to be paid a cash amount per Calculation Amount in the Settlement Currency equal to the Early Cash Settlement Amount in respect of the Preference Shares held by such Shareholder; and
 - (ii) if the right in sub-paragraph (i) is not exercised in respect of each then outstanding Preference Share, the Preference Share Issuer shall redeem the Preference Share on the Early Cash Redemption Date, and the Preference Share Issuer will cause to be paid to each Shareholder in respect of each Security held by it an amount equal to the Early Cash Settlement Amount (as defined in Preference Share General Condition 31 (*Definitions and interpretation*)).
- (c) The definitions of 'Merger Event' and 'Tender Offer' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share';

and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'. If the Determination Agent determines that a Merger Event or Tender Offer has occurred in respect of an Underlying Share, then where the Determination Agent makes an adjustment to the Preference Share in connection with a Merger Event or Tender Offer, the Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.

- (d) The definitions of 'Nationalisation', 'Insolvency' and 'Delisting' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If any of 'Nationalisation', 'Insolvency' or 'Delisting' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such events shall be interpreted consistently.

- (e) The definition of 'Insolvency Filing' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If 'Insolvency Filing' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such event shall be interpreted consistently.

- (f) The definition of 'Announcement Date' to add at the end thereof the following:

'(c) in the case of a termination of the Deposit Agreement, the date of the first public announcement by the Depository that the Deposit Agreement is (or will be) terminated.'

- (g) For the purpose of determining whether a Market Disruption Event has occurred in respect of the Share, the following amendments shall be deemed to be made to the Equity Linked Conditions:

- (i) each reference in the definition of 'Exchange Business Day', 'Scheduled Closing Time', 'Scheduled Trading Day', 'Trading Disruption', 'Exchange Disruption', 'Early Closure' and 'Disrupted Day', to the 'Exchange' shall be deemed to include a reference to the primary exchange or quotation system on which the Underlying Share is traded; and
- (ii) the definition of 'Market Disruption Event', 'Trading Disruption' and 'Exchange Disruption' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'. If the event described in such provisions occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such event shall be interpreted consistently.

E. GENERAL PROVISIONS

14. Adjustment or early redemption following an Additional Disruption Event

If an Additional Disruption Event occurs:

- (a) the Determination Agent shall determine whether an appropriate adjustment or adjustments can be made to the Conditions and/or any other provisions relating to the Preference Share to account for the economic effect of such Additional Disruption Event on the Preference Share which would produce a commercially reasonable result and preserve substantially the economic effect to the Shareholder(s) of a holding of the relevant Preference Share. If the Determination Agent determines that an appropriate adjustment or adjustments can be made, the Preference Share Issuer shall determine the effective date of such adjustment(s), notify the Shareholder(s) of such adjustment(s) and take the necessary steps to effect such adjustment(s); or

- (b) if the Determination Agent determines that no adjustment that could be made pursuant to paragraph (a) above would produce a commercially reasonable result and preserve substantially the economic effect to the Shareholder(s) of a holding of the relevant Preference Share, the Determination Agent will notify the Preference Share Issuer of such determination and no adjustment(s) shall be made pursuant to paragraph (a) above. In such event, the Preference Share Issuer shall give an irrevocable notice of early redemption to the Shareholder(s) of not less than a number of Business Days equal to the Early Redemption Notice Period Number and specify in such notice the valuation date (the "**Early Redemption Valuation Date**") and redemption date (the "**Early Cash Redemption Date**") in respect of such early redemption, in each case, as selected by the Determination Agent in its reasonable commercial discretion, and:
- (i) each Shareholder shall have the right exercisable on any Business Day in the period commencing from, and including, the Early Redemption Valuation Date to, but excluding, the Early Cash Redemption Date, by giving notice to the Preference Share Issuer, to require the Preference Share Issuer to immediately pay or cause to be paid a cash amount per Calculation Amount in the Settlement Currency equal to the Early Cash Settlement Amount in respect of the Preference Shares held by such Shareholder; and
 - (ii) if the right in sub-paragraph (i) is not exercised in respect of each then outstanding Preference Share, the Preference Share Issuer may redeem the Preference Share on the Early Cash Redemption Date and pay to each Shareholder, in respect of each Preference Share held by it, an amount equal to the Early Cash Settlement Amount on such date (provided that the Preference Share Issuer may also, prior to such redemption of the Preference Share, make any adjustment(s) to the Preference Share Conditions or any other provisions relating to the Preference Share as appropriate in order to (when considered together with the redemption of the Preference Share) account for the effect of such Additional Disruption Event on the Preference Share).

15. **FX Disruption Event**

If the Preference Share Confirmation specifies 'FX Disruption Event' to be 'Applicable', upon the occurrence of an FX Disruption Event, the Preference Share Issuer may take any one or more of the following actions:

- (a) deduct from any payments to be made in respect of the Preference Share an amount calculated by the Determination Agent as representing a cost, expense, charge and/or deduction arising in connection with such FX Disruption Event(s) or under any other adjustment with respect thereto; and/or
- (b) make payment of the relevant Settlement Amount and/or any other amount payable by the Preference Share Issuer pursuant to the Preference Share Conditions in the Specified Currency instead of the Settlement Currency, the amount payable in the Specified Currency being determined by the Determination Agent; and/or
- (c) postpone or adjust any Valuation Date or the relevant payment date for any amount payable by the Preference Share Issuer pursuant to the Preference Share Conditions until, in the determination of the Determination Agent, an FX Disruption Event is no longer subsisting; and/or
- (d) (in the case of a Price Source Disruption) specify and adopt:
 - (i) an appropriate alternate fallback or alternative price or rate source or method of determination selected by the Determination Agent (which may (or may not) be by reference to dealer poll or such other publication page or service as may replace the relevant page or service for the purpose of displaying a currency exchange rate comparable or equivalent); or
 - (ii) a replacement of any one or more relevant currencies, as the case may be; and/or

- (e) deem such event to be an Additional Disruption Event for the purpose of these provisions and take any necessary action in accordance with the applicable provisions of Preference Share General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*), as the case may be, in respect of the Preference Share.

Upon the occurrence of an FX Disruption Event, the Preference Share Issuer shall give notice as soon as practicable to the Shareholder(s), stating the occurrence of the FX Disruption Event, giving details thereof and the action proposed to be taken in relation thereto. Where 'FX Disruption Event' applies, and an event is both a Currency Disruption Event and an FX Disruption Event, such event shall be deemed to be an FX Disruption Event.

16. **Local Jurisdiction Taxes and Expenses**

If the Preference Share Confirmation specifies 'Local Jurisdiction Taxes and Expenses' to be 'Applicable':

- (a) the Preference Share Issuer shall deduct from amounts payable to a Shareholder all Local Jurisdiction Taxes and Expenses, not previously deducted from amounts to such Shareholder, as the Determination Agent shall determine are attributable to such Preference Share; or
- (b) the Preference Share Issuer may request that the Determination Agent determines whether an appropriate adjustment can be made to the Preference Share Conditions and any other provisions relating to the Preference Share to account for such Local Jurisdiction Taxes and Expenses. If the Determination Agent determines that such adjustment(s) can be made, the Preference Share Issuer shall determine the effective date of such adjustment(s) and take the necessary steps to effect such adjustment(s). The Preference Share Issuer shall notify Shareholder(s) of any such adjustment(s), as soon as reasonably practicable after the nature and effective date of the adjustments are determined. If the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result, it shall notify the Preference Share Issuer of such determination and no adjustment(s) shall be made and paragraph (a) above shall apply to the Preference Share.

For the avoidance of doubt, the Preference Share Issuer shall not be liable for any Local Jurisdiction Taxes and Expenses and Shareholder(s) shall be liable to pay any Local Jurisdiction Taxes and Expenses attributable to their Preference Share, and, unless an adjustment is made in accordance with this Preference Share General Condition 16, any such Local Jurisdiction Taxes and Expenses shall be deducted from the Settlement Amount or any other amount payable to a Shareholder in respect of the Preference Share. This Local Jurisdiction Taxes and Expenses provision shall apply in addition to any other rights the Preference Share Issuer may have in relation to Taxes, Expenses and/or conditions to settlement as set out in the Preference Share Conditions.

17. **Events of Default**

If any of the following events occurs and is continuing (each an "**Event of Default**") and unless the Event of Default shall have been cured by the Preference Share Issuer or waived by the Shareholder(s) prior to receipt by Preference Share Issuer, as the case may be, of a notice from Shareholder(s) as referred to below, a Shareholder, may give notice to the Preference Share Issuer that such Preference Share is, and in all cases such Preference Share shall immediately become, due and payable at, in respect of each Calculation Amount for such Preference Share, the Early Cash Settlement Amount:

- (a) the Preference Share Issuer does not pay any Settlement Amount in respect of the Preference Share when the same is due and payable and such failure continues for 30 calendar days;
- (b) the Preference Share Issuer breaches any term and condition of the Preference Share in a way that is materially prejudicial to the interests of the Shareholder(s), and that breach has not been remedied within 30 calendar days of the Preference Share Issuer having received notice thereof from Shareholder(s) holding at least one-quarter in outstanding nominal amount or number, as the case may be, of the relevant Class demanding remedy; or

- (c) an order is made or an effective resolution is passed for the winding-up of the Preference Share Issuer (otherwise than in connection with a scheme of reconstruction, merger or amalgamation).

For the purposes of calculating any Early Cash Settlement Amount at any time following an Event of Default, the Determination Agent will ignore the effect of such Event of Default upon the market value of the Preference Share.

18. Service Providers

18.1 Appointment of Service Providers

The Service Providers act solely as agents of the Preference Share Issuer and do not assume any obligation or relationship of agency or trust for or with any Shareholder. The Preference Share Issuer reserves the right to vary or terminate the appointment of the Service Providers and to appoint additional or other Service Providers, provided that the Issuer shall at all times maintain:

- (a) A Registrar;
- (b) A Corporate Administrator; and
- (c) one or more Determination Agent(s) where these Preference Share General Conditions so require.

Notice of any termination of appointment and of any changes to the specified office of any Service Provider will be given to Shareholder(s).

18.2 Determinations by the Determination Agent

Unless otherwise specified, all determinations, considerations, decisions, elections and calculations in the Preference Share Conditions shall be made by the Determination Agent (which will be Barclays Bank Ireland PLC, whose registered office is at One Molesworth Street, Dublin 2, D02 RF29, Ireland, unless otherwise specified in the Preference Share Confirmation). In respect of each such determination, consideration, decision, election and calculation, this Preference Share General Condition 18.2 shall apply.

In making such determinations, considerations, decisions, elections and calculations, the Determination Agent may take into account the impact on the Hedge Positions with respect to the relevant Class of Preference Shares. In all circumstances the Determination Agent shall make such determinations and calculations in good faith and in a commercially reasonable manner, and (save in the case of manifest or proven error) such determinations and calculations shall be final and binding on the Issuer, the Service Providers and the Shareholder(s).

18.3 Responsibility of the Issuer and the Service Provider

Neither the Issuer nor any Service Provider shall be held responsible for any loss or damage resulting from any legal enactment (domestic or foreign), the intervention of a public authority (domestic or foreign), an act of war, strike, blockade, boycott or lockout or any other similar event or circumstance. The reservation in respect of strikes, blockades, boycotts and lockouts shall also apply if any such parties itself takes such measures or becomes the subject of such measures. Where the Preference Share Issuer or any of the Service Providers is prevented from effecting payment due to such event, payment may be postponed until the time the event or circumstance impeding payment has ceased, and shall have no obligation to pay any additional amounts in respect of such postponement.

18.4 Waiver of performance for the Determination Agent and Preference Share Issuer for determinations or other actions not in compliance with the Benchmarks Regulation

Notwithstanding anything else in the Preference Share Conditions, if, in respect of the Preference Share, it (i) is or would be unlawful at any time under the Benchmarks Regulation

or (ii) would contravene any applicable licensing requirements, in each case, for the Determination Agent or Preference Share Issuer (as applicable) to make a determination or carry out some other action which it would otherwise be obliged to do under the Preference Share Conditions, then the Determination Agent and Preference Share Issuer (as applicable) shall not be obliged to make such determination or carry out such other action and shall be excused performance thereof without incurring any liability whatsoever to Shareholder(s).

19. **Taxation**

The Preference Share Issuer is not liable for, or otherwise obliged to pay amounts in respect of, any Taxes borne by a Shareholder. A Shareholder must pay all Taxes arising from or payable in connection with all payments relating to the Preference Share and all payments in respect of the Preference Share shall be made free and clear of, and without withholding or deduction for, any present or future Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within the Bank Jurisdiction (or any authority or political subdivision thereof or therein having power to tax) unless such withholding or deduction is required by law. TAXATION

1. General taxation information

The information provided below does not purport to be a complete overview of tax law and practice currently applicable to the Securities. Transactions involving Securities (including purchases, transfers and/or redemptions), the accrual or receipt of any premium payable on the Securities and the death of a holder of any Security may have tax consequences for investors which may depend, amongst other things, upon the tax residence and/or status of the investor. Investors are therefore advised to consult their own tax advisers as to the tax consequences of transactions involving Securities and the effect of any tax laws in any jurisdiction in which they may be tax resident or otherwise liable to tax. In particular, no representation is made as to the manner in which payments under the Securities would be characterised by any relevant taxing authority.

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in addition to the issue price or purchase price (if different) of the Securities.

Prospective holders of Securities are referred to General Condition 10 (*Taxation*).

Terms defined in the sections below are defined for the purpose of the relevant section only.

2. Irish taxation

The following is a summary of certain Irish tax consequences of the purchase, ownership and disposal of the Securities. It applies to you if you are the absolute beneficial owner of the Securities (including all amounts payable by the Issuer in respect of your Securities). However, it does not apply to certain classes of persons such as dealers in securities. The summary is not a comprehensive description of all of the tax considerations that may be relevant to a decision to purchase, own or dispose of Securities. The summary is based upon Irish law, and the practice of the Revenue Commissioners of Ireland, in effect on the date of this Base Prospectus. The summary does not constitute tax or legal advice and is of a general nature only. You should consult your own tax adviser with respect to the applicable tax consequences of the purchase, ownership and disposal of Securities.

2.1 Withholding tax

There are three different types of Irish withholding tax relevant to payments on the Securities, namely Irish interest withholding tax, Irish deposit interest retention tax ("**DIRT**") and Irish encashment tax.

By way of background, Irish interest withholding tax can apply to interest payments at a rate of 20%, unless an exemption is available. This interest withholding tax can also apply to any premium paid on notes (but does not apply to any discount on notes). DIRT can also apply to interest payments made by banks (such as the Issuer), unless an exemption is available. The rate of DIRT is currently 33%. DIRT can also apply to any premium or discount on notes. Finally, an encashment tax at a rate of 20% can apply to certain categories of securities issued by companies.

However, there are exemptions available from these withholding taxes, which are described in the following paragraphs.

2.2 Interest withholding tax

Payments in respect of the Securities made by the Issuer in the ordinary course of carrying on its *bona fide* banking business in Ireland may be made to you without any deduction of Irish interest withholding tax by the Issuer.

If, for any reason, payments are not made by the Issuer in the ordinary course of carrying on its *bona fide* banking business, payments in respect of the Securities may nonetheless be made to you without any deduction of Irish interest withholding tax provided:

- (i) the Securities are quoted on a recognised stock exchange; and
- (ii) either: (1) the Securities are held in a recognised clearing system; or (2) payment in respect of the Securities are made through a non-Irish paying agent.

Euronext Dublin is considered to be a 'recognised' stock exchange for this purpose. A list of 'recognised' clearing systems for these purposes is included in Irish tax legislation and this list includes Euroclear and Clearstream.

2.3 **DIRT**

Payments in respect of the Securities may be made to you without any deduction of DIRT provided the Securities are quoted on a recognised stock exchange.

2.4 **Encashment tax**

Irish encashment tax may apply where a collecting agent in Ireland obtains payment of interest (whether in Ireland or elsewhere) on Securities or realises in Ireland any coupon in respect of Securities. In these circumstances, the collecting agent may be required to deduct Irish encashment tax from such interest or realisation proceeds. An exemption from this Irish encashment tax is available if you are not tax resident in Ireland and have provided a declaration in the prescribed form to the collecting agent. Therefore, you should note that, if you appoint an Irish collecting agent in respect of your Securities, it may result in Irish encashment tax being deducted by your collecting agent from payments made in respect of your Securities.

2.5 **Taxation of Security Holders**

(a) **Security Holders resident in Ireland**

Generally, if you are tax resident in Ireland, you will be subject to Irish tax on your worldwide income, including your return on the Securities. You will be obliged to account for any Irish tax on a self-assessment basis. There is no requirement for the Revenue Commissioners to issue or raise an assessment on you.

(b) **Security Holders not resident in Ireland**

If you are not tax resident in Ireland, you will generally only be subject to Irish tax on your Irish source income (on a self-assessment basis). Income payable on the Securities may be regarded as Irish source income, as the Issuer is resident in Ireland. However, there may be some exceptions from Irish tax which could apply to the Security Holders.

Where the Securities are Listed Securities (and continue to be held in a recognised clearing system), you should nevertheless be exempt from Irish income tax on interest paid on the Securities if you are:

- (i) a person (including a company) who is not tax resident in Ireland and is regarded (for the purposes of section 198 of the Taxes Consolidation Act 1997 of Ireland) as being a resident of a European Union member state (other than Ireland) or a territory with which Ireland has a double tax treaty that has the force of law;
- (ii) a company which is under the control (whether directly or indirectly) of a person or persons who, by virtue of the laws of a 'relevant territory', is or are tax resident in the 'relevant territory' and who is or are (as the case may be) not under the control (whether directly or indirectly) of a person, or persons who are, not so resident. A 'relevant territory' for these purposes means (I) a member state of the European Union (other than Ireland), (II) a territory with which Ireland has a double tax treaty that has the force of law, or (III) a territory with which Ireland has signed a double tax treaty, which has yet to have the force of law; or
- (iii) a company the principal class of shares of which, or

- (A) where the company is a 75% subsidiary of another company, of that other company; or
- (B) where the company is wholly-owned by two or more companies, of each of those companies,

is substantially and regularly traded on a stock exchange in Ireland, or on one or more recognised stock exchanges in a 'relevant territory' (see just above) or on such other stock exchange as may be approved of by the Minister for Finance of Ireland for these purposes.

If the Securities are not Listed Securities you should nevertheless be exempt from Irish income tax on interest paid on the Securities if the interest is paid by the Issuer in the ordinary course of its trade or business and you are:

- (i) a company which is not tax resident in Ireland and which is regarded (for the purposes of section 198 of the Taxes Consolidation Act 1997 of Ireland) as being a resident of a European Union member state (other than Ireland) or a territory with which Ireland has a double tax treaty that has the force of law provided, in either case, that the relevant territory imposes a tax that generally applies to interest receivable in that territory by companies from sources outside that territory; or
- (ii) a company and the interest paid on the Securities is exempted from the charge to Irish income tax under a double tax treaty in force on the date the interest is paid, or would be exempted from the charge to Irish income tax if a double tax treaty which has been signed but is not yet in force had the force of law on the date the interest is paid.

If you earn a discount on Securities, you will not be chargeable to Irish income tax on such discount if the Securities were issued by the Issuer in the ordinary course of its trade or business and you are a person (including a company) who is not tax resident in Ireland and who is regarded (for the purposes of section 198 of the Taxes Consolidation Act 1997 of Ireland) as being a resident of a European Union member state (other than Ireland) or a territory with which Ireland has a double tax treaty that has the force of law.

If the above exemptions do not apply, the terms of a double tax treaty may provide relief from Irish income tax payable on income earned on the Securities. In addition, it is understood that there is a long standing unpublished practice of the Revenue Commissioners of Ireland that no action will be taken to pursue any liability to Irish tax arising on interest payments in respect of persons who are regarded as not being tax resident in Ireland, except where such persons:

- (i) are chargeable to Irish tax in the name of another person (including a trustee) or in the name of an agent or branch in Ireland having the management or control of the interest;
- (ii) seek to claim relief or repayment of tax deducted at source in respect of taxed income from Irish sources; or
- (iii) are chargeable to Irish corporation tax on the income of an Irish branch or agency or to income tax on the profits of a trade carried on in Ireland to which the interest is attributable.

There is no assurance that this practice will continue to apply.

2.6 **Irish stamp duty**

The issue or redemption of the Securities will not give rise to a charge to Irish stamp duty.

Irish stamp duty (if any) arising on transfers of the Securities would apply at a rate of 1% and would generally be payable by the transferee.

2.7 **Irish capital gains tax**

If you are tax resident or ordinarily resident in Ireland, you may be subject to Irish tax on capital gains (currently 33%) on gains arising on a disposal of the Securities.

If you are not tax resident or ordinarily resident in Ireland, you should not be subject to Irish tax on capital gains arising on a disposal of the Securities, unless the Securities are or were held for the use of or for the purposes of an Irish branch or agency.

2.8 Irish capital acquisitions tax

Irish capital acquisitions tax applies to gifts and inheritances. The rate of capital acquisitions tax is currently 33%. A gift or inheritance of the Securities may be subject to capital acquisition tax if:

- (a) the donor is tax resident or ordinarily resident in Ireland (or, in the case of value settled in a discretionary trust established before 1 December 1999, was then or later became domiciled in Ireland) on the relevant date;
- (b) the donee (or successor) is tax resident or ordinarily resident in Ireland on the relevant date; or
- (c) the Securities are regarded as property situated in Ireland.

3. United Kingdom taxation

The Issuer has been advised that, based on current law and HM Revenue & Customs' practice, there is no need to make any withholding for or on account of UK tax on payments on the Notes.

4. United States taxation

The following is an overview of certain of the material US federal income tax consequences of the acquisition, ownership and disposition of Securities by a non-US holder that has no connection with the United States other than owning Securities. For purposes of this section, a "**non-US holder**" is a beneficial owner of Securities that is: (i) a non-resident alien individual for US federal income tax purposes; (ii) a foreign corporation for US federal income tax purposes; or (iii) an estate or trust the income of which is not subject to US federal income tax on a net income basis. If the investor is not a non-US holder, he/she should consult his/her tax advisor with regard to the US federal income tax treatment of an investment in Securities. In addition, this section does not apply to Securities that have a term of 30 years or more or that have no term.

This overview is based on interpretations of the Internal Revenue Code of 1986, as amended (the "**Code**"), Treasury regulations issued thereunder, and rulings and decisions currently in effect (or in some cases proposed), all of which are subject to change. Any of those changes may be applied retroactively and may adversely affect the US federal income tax consequences described herein. Investors considering the purchase of Securities should consult their own tax advisors concerning the application of US federal income tax laws to their particular situations as well as any consequences of the purchase, beneficial ownership and disposition of Securities arising under the laws of any other taxing jurisdiction.

PROSPECTIVE PURCHASERS SHOULD CONSULT THEIR TAX ADVISERS AS TO THE US FEDERAL, STATE, LOCAL, AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF SECURITIES.

4.1 US federal tax treatment of non-US holders

In general and subject to the discussion in the following paragraphs, payments on the Securities to a non-US holder that has no connection with the United States other than owning Securities and gain realised on the sale, exchange, redemption or other disposition of the Securities by a non-US holder generally will not be subject to US federal income or withholding tax provided the non-US holder complies with any applicable tax identification and certification requirements.

The IRS released a notice in 2007 that may affect the taxation of non-US holders of Securities. According to the notice, the IRS and the Treasury Department are actively considering

whether, among other issues, the holder of instruments such as Securities should be required to accrue ordinary income on a current basis. It is not possible to determine what guidance they will ultimately issue, if any. It is possible, however, that under such guidance, non-US holders of Securities will ultimately be required to accrue income currently and that non-US holders of Securities could be subject to withholding tax on deemed income accruals and/or other payments made in respect of Securities. In addition, alternative treatments of Securities are possible under US federal income tax law. Under one such alternative characterisation, it is possible that an investor could be treated as owning the Reference Asset of Securities.

In the case of Securities that are linked to one or more assets characterised as 'US real property interests' (as such term is defined in section 897(c) of the Code), non-US holders of the Securities may be subject to special rules governing the ownership and disposition of US real property interests. Prospective non-US holders of Securities should consult their own tax advisers regarding the possible alternative treatments of the Securities.

Under section 871(m) of the Code and regulations thereunder ("**Section 871(m)**"), actual or deemed payments on financial instruments that reference one or more US corporations may be treated as 'dividend equivalent' payments that are subject to US withholding tax at a rate of 30 per cent. Generally, a 'dividend equivalent' is a payment that is directly or indirectly contingent upon a US source dividend or is determined by reference to a US source dividend, including a payment that implicitly takes into account such a dividend. For financial instruments issued on or after 1 January 2017 but prior to 1 January 2023, regulations and guidance under Section 871(m) provide that dividend equivalent payments will be subject to withholding if the instrument has a 'delta' of one with respect to either an underlying US stock or a US stock component of an underlying index or basket. For financial instruments issued on or after 1 January 2023, regulations and guidance under Section 871(m) provide that dividend equivalent payments on (1) a 'simple' financial instrument that has a delta of 0.8 or greater with respect to an underlying US stock or a US stock component of an underlying index or basket and (2) a 'complex' financial instrument that meets the 'substantial equivalence' test with respect to an underlying US stock or a US stock component of an underlying index or basket, will be subject to withholding tax under Section 871(m). An issue of Securities that references an index or basket that is treated as a 'qualified index' will not be subject to withholding under Section 871(m), even if such Securities meet, as applicable, the delta or substantial equivalence test. In general, a qualified index is a diverse, passive, and widely used index that satisfies the technical requirements prescribed by regulations.

The delta of a financial instrument generally is defined as the ratio of the change in the fair market value of the instrument to a small change in the fair market value of the number of shares of the underlying US corporation, determined either as of the pricing or issue date of the instrument, in accordance with applicable regulations. A financial instrument generally will be treated as having a delta of one if it provides for 100 per cent participation in all of the appreciation and depreciation of one or more underlying US stocks. Very broadly, the substantial equivalence test analyses whether a financial instrument has a correlation to the applicable underlying US stock that is at least as great as that of a simple financial instrument with a delta of at least 0.8.

The Final Terms will indicate if the Issuer has determined that the particular issue of Securities is expected to be subject to withholding under Section 871(m). Any determination by the Issuer on the application of Section 871(m) to a particular Security generally is binding on Holders, but is not binding on the IRS. The Section 871(m) regulations require complex calculations to be made with respect to Securities referencing shares of US corporations and their application to a specific issue of Securities may be uncertain. Accordingly, even if the Issuer determines that a Security is not subject to Section 871(m), the IRS could assert that the Holder is liable for Section 871(m) tax in respect of such Security, including where the IRS concludes that the delta or substantial equivalence with respect to the Security was determined more than 14 days prior to the Security's issue date.

In addition, a Security may be treated as reissued for purposes of Section 871(m) upon a significant modification of the terms of the Security. In certain circumstances, a rebalancing or adjustment to the components of an underlying index or basket may result in the deemed reissuance of the Security, in particular where the rebalancing or adjustment is made other

than pursuant to certain defined rules, or involves the exercise of discretion. In that case, a Security that was not subject to withholding under Section 871(m) at issuance may become subject to withholding at the time of the deemed reissuance. In addition, a Security that in isolation is not subject to Section 871(m) may nonetheless be subject to Section 871(m) if the non-US holder has engaged, or engages, in other transactions in respect of an underlying US stock or component of an underlying index or basket. In such situations, such non-US holders could be subject to Section 871(m) tax even if the Issuer does not withhold in respect of the Security. Further, a non-US holder may be required, including by custodians and other withholding agents with respect to the Security, to make representations regarding the nature of any other positions with respect to US stock directly or indirectly referenced (including components of any index or basket) by such Security. A non-US holder that enters, or has entered, into other transactions in respect of a US stock, component of an underlying index or basket, or the Securities should consult its own tax advisor regarding the application of Section 871(m) to the Securities and such other transactions.

If an issue of Securities is determined to be subject to US withholding tax under Section 871(m), information regarding the amount of each dividend equivalent, the delta of the Securities, the amount of any tax withheld and deposited, the estimated dividend amount (if applicable), and any other information required under Section 871(m), will be provided, communicated, or made available to Holders in a manner permitted by applicable regulations. Withholding on payments will be based on actual dividends on the underlying US stock or, if otherwise notified by the Issuer in accordance with applicable regulations, on estimated dividends used in pricing the Securities. Where an issue of Securities that references estimated dividend amounts also provides for any additional payments to reflect actual dividends on the underlying US stock, withholding tax will also apply to any additional payments.

If the Issuer determines that a Security is subject to withholding under Section 871(m), it will withhold tax in respect of the actual (or estimated, as described above) dividends that are paid on the underlying US stock. In addition, the US tax may be withheld on any portion of a payment or deemed payment (including, if appropriate, the payment of the purchase price) that is a dividend equivalent. Such withholding may occur at the time a dividend is paid on the relevant US stock (or, in certain cases, at the close of the quarter upon which the dividend is paid). Upon remitting the taxes withheld to the IRS, any increase in value of the relevant asset, index or basket or distributions to Holders in respect of a dividend equivalent will reflect the amount of the dividend net of the withholding described above.

Other than in very limited circumstances described below, the rate of any withholding generally will not be reduced even if the non-US holder is otherwise eligible for a reduction under an applicable treaty, although the non-US holder may be able to claim a refund for any excess amounts withheld by filing a US tax return. However, non-US holders may not receive the necessary information to properly claim a refund for any withholding in excess of the applicable treaty-based amount. In addition, the IRS may not credit a non-US holder with withholding taxes remitted in respect of its Security for purposes of claiming a refund. Finally, a non-US holder's resident tax jurisdiction may not permit the holder to take a credit for US withholding taxes related to the dividend equivalent amount. For certain issues of Securities that are subject to withholding under Section 871(m), if the Issuer determines in its sole discretion that it is able to make payments at a reduced rate of withholding under an applicable treaty, a non-US holder eligible for treaty benefits may be able to claim such a reduced rate. To claim a reduced treaty rate for withholding, a non-US holder generally must provide a valid IRS Form W-8BEN, IRS Form W-8BEN-E, or an acceptable substitute form on which the non-US holder certifies, under penalty of perjury, its status as a non-US person and its entitlement to the lower treaty rate. However, there can be no assurances that the Issuer will be able to make payments on a Security at a reduced rate of withholding, even where a non-US holder furnishes the appropriate certification. Where the Issuer has determined that an issue of Securities is subject to withholding under Section 871(m), the Final Terms will indicate whether the Issuer intends to withhold at the rate of 30 per cent without regard to any reduced rate that may apply under a treaty or if the rate of withholding tax may be subject to reduction under an applicable treaty. In any case where withholding applies, the Issuer will not pay any additional amounts with respect to amounts withheld. Holders should consult with their tax advisors regarding the application of Section 871(m) to their Securities.

4.2 **Foreign account tax compliance withholding**

Under FATCA (as defined below), the Issuer (and any intermediary in the chain of payment) may require each holder of a Security to provide certifications and identifying information about itself and certain of its owners. The failure to provide such information, or the failure of certain non-US financial institutions to comply with FATCA, may compel the Issuer (or an intermediary) to withhold a 30 per cent tax on payments to such holders and neither the Issuer nor any other person will pay any additional amounts with respect to such withholding. FATCA withholding on "foreign passthru payments" would begin no earlier than two years after the date on which final U.S. Treasury regulations defining foreign passthru payments are published. US-source payments are currently subject to withholding. US-source payments generally should be limited to dividend equivalent payments and interests in 'US real property interests' (although there can be no assurance the IRS may not seek to treat other payments that reference US securities as US source income). "**FATCA**" means sections 1471 through 1474 of the Code, any final current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any US or non-US fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code.

Investors should be aware that the effective date for withholding on "foreign passthru payments" above reflects recently proposed U.S. Treasury regulations ("**Proposed FATCA Regulations**") which delay the effective date for withholding on foreign passthru payments. The Proposed FATCA Regulations also eliminate FATCA withholding on gross proceeds from the disposition of, or final payments, redemptions, or other principal payments made in respect of, the disposition of an instrument that may produce U.S. source interest or dividends. The discussion above assumes that the Proposed FATCA Regulations will be finalized in their current form.

No gross-up

The Issuer will not make any additional payments to holders of Securities to compensate them for any taxes withheld in respect of FATCA or any US withholding or other tax, including, without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

PURCHASE AND SALE

Pursuant to the Master Subscription Agreement dated 19 August 2020 (as supplemented and/or restated or replaced from time to time, the "**Master Subscription Agreement**"), each Manager (being, at the date of this document, each of Barclays Bank PLC, Barclays Bank Ireland PLC and Barclays Capital Securities Limited in their respective capacities as a Manager under the Programme and in relation to any Securities where specified to be the Manager in the Final Terms) has agreed with the Issuer the basis on which it may from time to time agree to purchase Securities. Any such agreement will extend to those matters stated under '*Terms and Conditions of the Securities*'. In the Master Subscription Agreement, the Issuer has agreed to reimburse the relevant Manager for certain of its expenses in connection with the Securities issued pursuant to the Programme.

Potential conflicts of interest may arise in relation to Securities offered through distribution, as the appointed Manager(s) and/or distributor(s) will act pursuant to a mandate granted by the Issuer and may (to the extent permitted by law) receive commissions and/or fees on the basis of the services performed and the outcome of the placement of the Securities.

No representation is made that any action has been or will be taken by the Issuer or the Managers in any jurisdiction that would permit a public offering of any of the Securities or possession or distribution of the Base Prospectus or any other offering material or any Final Terms in relation to any Securities in any country or jurisdiction where action for that purpose is required (other than actions by the Issuer to meet the requirements of the Prospectus Regulation for offerings contemplated in the Base Prospectus and/or the Final Terms). No offers, sales, resales or deliveries of any Securities, or distribution of any offering material relating to any Securities, may be made in or from any jurisdiction and/or to any individual or entity except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuer and/or the Managers.

Subject to the restrictions and conditions set out in the Base Prospectus, the categories of potential investors to which the Securities are intended to be offered are retail and institutional investors in Ireland and/or the United Kingdom.

Selling restrictions

Public offer selling restrictions under the Prospectus Regulation

If the Final Terms in respect of the Securities specifies "Prohibition of Sales to EEA and UK Retail Investors" as "Not Applicable", in relation to each Member State of the European Economic Area and the United Kingdom (each, a "**Relevant State**"), each Manager has represented and agreed, and each further Manager appointed pursuant to the Programme will be required to represent and agree, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by the Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant State except that it may make an offer of such Securities to the public in that Relevant State:

- (a) if the Final Terms in relation to the Securities specify that an offer of those Securities may be made other than pursuant to Article 1(4) of the Prospectus Regulation in that Relevant State (a "**Public Offer**"), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Public Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Public Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the relevant Manager or Managers nominated by the Issuer for any such offer; or

(d) at any time in any other circumstances falling within Article 1(4) of the Prospectus Regulation, provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer or any Manager to publish a prospectus or a supplement to a prospectus pursuant to, respectively, Article 3 and Article 23 of the Prospectus Regulation.

For the purposes of this section 'Public offer selling restrictions under the Prospectus Regulation', the expression "**an offer of Securities to the public**" in relation to any Securities in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe Securities and the expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129 (as amended).

Each Manager has represented and agreed, and each further Manager appointed under this Programme will be required to represent and agree, in relation to any offering of Securities for which Directive 2014/65/EU (as amended, "**MiFID II**") applies, any commission or fee received from the Issuer complies with the applicable rules set out in MiFID II.

Prohibition of sales to EEA and UK Retail Investors

For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Regulation (EU) 2017/1129 (as amended, the "**Prospectus Regulation**"); and
- (b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities.

- (b) *General compliance*: it has complied and will comply with all applicable provisions of the FSMA and the Financial Conduct Authority Handbook with respect to anything done by it in relation to any Securities in, from or otherwise involving the United Kingdom.

United States of America

US tax selling restrictions

Securities issued in bearer form for US tax purposes ("**Bearer Instruments**") with respect to which the Final Terms specifies that they are subject to US Treasury Regulation section 1.163-5(c)(2)(i)(D) (the "**D Rules**") may not be offered, sold or delivered within the United States or its possessions or to a United States person except as permitted under the D Rules.

The Issuer and each Manager has represented and agreed (and each additional Manager named in a set of Final Terms will be required to represent and agree) that in addition to the relevant US Securities Selling Restrictions set out below:

- (a) except to the extent permitted under the D Rules, (x) it has not offered or sold, and during a 40-calendar-day restricted period it will not offer or sell, Bearer Instruments to a person who is within the United States or its possessions or to a United States person and (y) such Manager has not delivered and agrees that it will not deliver within the United States or its possessions definitive Bearer Instruments that will be sold during the restricted period;
- (b) it has and agrees that throughout the restricted period it will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Bearer Instruments are aware that Bearer Instruments may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person (except to the extent permitted under the D Rules);
- (c) if it is a United States person, it is acquiring the Bearer Instruments for purposes of resale in connection with their original issuance, and, if it retains Bearer Instruments for its own account, it will do so in accordance with the requirements of the D Rules;
- (d) with respect to each affiliate or distributor that acquires Bearer Instruments from a Manager for the purpose of offering or selling such Bearer Instruments during the restricted period, the Manager either repeats and confirms the representations and agreements contained in sub-clauses (a), (b) and (c) above on such affiliate's or distributor's behalf or agrees that it will obtain from such affiliate or distributor for the benefit of the Issuer and each Manager the representations and agreements contained in such sub-clauses; and

- (e) it has not entered into and agrees that it will not enter into any written contract (other than confirmation or other notice of the transaction) pursuant to which any other party to the contract (other than one of its affiliates or another Manager) has offered or sold, or during the restricted period will offer or sell, any Bearer Instruments except where pursuant to the contract the relevant Manager has obtained or will obtain from that party, for the benefit of the Issuer and each Manager, the representations contained in, and that party's agreement to comply with, the provisions of sub-clauses (a), (b), (c) and (d).

Terms used in the paragraphs above shall, unless the context otherwise requires, have the meanings given to them by the Internal Revenue Code and the US Treasury Regulations thereunder, including the D Rules.

To the extent that the Final Terms relating to Bearer Instruments specify that the Securities are subject to US Treasury Regulation section 1.163-5(c)(2)(i)(C) (the "**C Rules**"), such Bearer Instruments must be issued and delivered outside the United States and its possessions in connection with their original issuance by an issuer that (directly or indirectly through its agents) does not significantly engage in interstate commerce with respect to the issuance. Each Manager has represented and agreed (and each additional Manager named in a set of Final Terms will be required to represent and agree) that: (i) it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly, any such Bearer Instruments within the United States or its possessions within the United States or its possessions; (ii) it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if either of them is within the United States or its possessions; and (iii) it will not otherwise involve its US office in the offer and sale of such Bearer Instruments. Terms used in this paragraph have the meanings given to them by the Code and regulations thereunder, including the C Rules.

US persons

The Issuer makes no representation regarding the characterisation of the Securities for US federal income tax purposes. The Securities may not be a suitable investment for US persons and other persons subject to net income taxation in the United States.

US securities selling restrictions

The Securities have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States. The Securities may not be offered or sold within the United States or to, or for the account or benefit of, US persons, except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. The Securities are being offered and sold outside the United States to non-US persons in reliance on Regulation S. Trading in the Securities has not been approved by the US Commodities Futures Trading Commission under the Commodity Exchange Act and the rules and regulations promulgated thereunder. Terms used in this section (*US securities selling restrictions*) shall, unless the context otherwise requires, have the meanings given to them by Regulation S.

Each Manager has represented and agreed (and each further Manager named in the Final Terms will be required to represent and agree) that it has not offered or sold and will not offer or sell Securities (i) as part of their distribution at any time or (ii) otherwise until 40 (forty) calendar days after the completion of the distribution of an identifiable tranche of which such Securities are part, as determined and certified to the Agent by such Manager (in the case of a non-syndicated issue) or the relevant lead Manager (in the case of a syndicated issue), within the United States or to, or for the account or benefit of, US persons, and it will have sent to each Manager to which it sells Securities during the Distribution Compliance Period a confirmation or other notice setting out the restrictions on offers and sales of the Securities within the United States or to, or for the account or benefit of, US persons. Terms used in the preceding sentence have the meanings given to them by Regulation S. None of such Manager, its Affiliates, or any persons acting on its or their behalf, has engaged or will engage in any directed selling efforts (as defined in Regulation S) with respect to the Securities, and such Manager, its Affiliates and all persons acting on its or their behalf have complied and will comply with any applicable offering restrictions requirement of Regulation S.

In addition, until 40 (forty) calendar days after the completion of the distribution of an identifiable tranche of Securities, any offer or sale of such Securities within the United States by any Manager

(whether or not participating in the offering of such Securities) may violate the registration requirements of the Securities Act.

The Base Prospectus has been prepared by the Issuer for use in connection with the offer and sale of Securities outside the United States and for the listing of Securities on the Relevant Stock Exchange. The Issuer and the Managers reserve the right to reject any offer to purchase the Securities, in whole or in part, for any reason. The Base Prospectus does not constitute an offer to any person in the United States or to any US person. Distribution of the Base Prospectus by any non-US person outside the United States is unauthorised, and any disclosure without the prior written consent of the Issuer of any of its contents to any of such US person or other person within the United States is prohibited.

General

The selling restrictions may be modified by the agreement of the Issuer and the relevant Manager, including following a change in a relevant law, regulation or directive.

No action has been taken in any jurisdiction that would permit a public offering of any of the Securities, or possession or distribution of the Base Prospectus or any other offering material or any Final Terms, in any country or jurisdiction where action for that purpose is required.

Each Manager has agreed that it will comply with all relevant laws, regulations and directives, and obtain all relevant consents, approvals or permissions, in each jurisdiction in which it purchases, offers, sells or delivers Securities or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms, and neither the Issuer nor any Manager shall have responsibility therefor.

Benefit plan investor selling restrictions

The Securities and any beneficial interest therein may not be sold or transferred to (i) any employee benefit plan, as defined in Section 3(3) of the US Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), that is subject to Part 4 of Subtitle B of Title I of ERISA, (ii) any plan, as defined in Section 4975(e)(1) of the Code, that is subject to Section 4975 of the Code, (iii) any governmental plan (as defined in Section 3(32) of ERISA), church plan (as defined in Section 3(33) of ERISA) or non-U.S. plan (as described in Section 4(b)(4) of ERISA) that is subject to any law, rule or regulation that is substantially similar to Part 4 of Subtitle B of Title I of ERISA or Section 4975 of the Code ("**Similar Law**"), or (iv) any entity the underlying assets of which are treated as assets of a plan described in (i), (ii) or (iii) for purposes of Part 4 of Subtitle B of Title I of ERISA, Section 4975 of the Code or any Similar Law (each of (i), (ii) (iii) and (iv) a "**Benefit Plan Investor**"), or to any person acting on behalf of or investing the assets of a Benefit Plan Investor. Each person that acquires Securities or any beneficial interest therein shall, by its acquisition thereof, be deemed to have continuously represented, warranted and covenanted throughout the period it holds the Securities or beneficial interest that it is not, and is not acting on behalf of or investing the assets of, a Benefit Plan Investor.

IMPORTANT LEGAL INFORMATION

Public Offers and Consent

Public Offers

Certain tranches of Securities may, subject as provided below, be subsequently resold, finally placed or otherwise offered by financial intermediaries in circumstances where there is no exemption from the requirement to publish a prospectus under the Prospectus Regulation. Any such resale, placement or offer is referred to in the Base Prospectus as a 'Public Offer'. Any person making or intending to make a Public Offer of Securities must do so only with the consent of the Issuer and subject to and in accordance with the relevant conditions to such consent – see '*Consent to the use of the Base Prospectus*' below.

Other than as set out immediately below, neither the Issuer nor any of the Managers has authorised (nor do they authorise or consent to the use of the Base Prospectus (or Final Terms) in connection with) the making of any Public Offer of Securities by any person in any circumstances. Any such unauthorised offers are not made on behalf of the Issuer or any of the Managers or Authorised Offerors (as defined below) and none of the Issuer or any of the Managers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers. Any Public Offer made without the consent of the Issuer is unauthorised and none of the Issuer or any of the Managers or Authorised Offerors accepts any responsibility or liability for the actions of the persons making any such unauthorised offer. Any persons to whom an offer of any Securities is made should enquire whether a financial intermediary is an Authorised Offeror.

Consent to the use of the Base Prospectus

In connection with a Public Offer of Securities as described in the Final Terms, the Issuer consents or (in the case of (b) '*General Consent*') offers to grant its consent to the use of the Base Prospectus (as supplemented from time to time) and Final Terms (and accepts responsibility for the information contained in the Base Prospectus (as supplemented from time to time) and Final Terms in relation to any person who purchases Securities in such Public Offer made by an Authorised Offeror), by or to (as applicable) each of the following financial intermediaries, in each case subject to compliance by such financial intermediary with the Conditions to Consent (as described below) (each, an "**Authorised Offeror**"):

 - (ii) is expressly named as an Authorised Offeror on the Issuer's website (<https://home.barclays/investor-relations/structured-securities-final-terms/>) (in which case, its name and address will be published on the Issuer's website); and
- (b) **General Consent:** if Part B of the Final Terms specifies '*General Consent*' as applicable, each financial intermediary which both:
 - (i) is authorised to make such offers under MiFID II; and
 - (ii) accepts the offer by the Issuer by publishing on its website the following statement (with the information in square brackets duly completed with the relevant information) (the "**Acceptance Statement**"):

*"We, [specify name of financial intermediary], refer to the offer of [specify title of securities] (the "**Securities**") described in the Final Terms dated [specify date] (the "**Final Terms**") published by Barclays Bank Ireland PLC (the "**Issuer**"). In consideration of the Issuer offering to grant its consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the Public Offer of the Securities in the Public Offer Jurisdiction(s) during the Offer Period and subject to and in accordance with the conditions set out in the Final Terms and Base Prospectus, we accept the offer by the Issuer. We confirm that we are authorised*

under MiFID II to make, and are using the Base Prospectus in connection with, the Public Offer accordingly. Terms used herein and otherwise not defined shall have the same meaning as given to such terms in the Base Prospectus and Final Terms."

The consent of the Issuer referred to in (a) and (b) above is subject to compliance by the relevant financial intermediary with the following conditions (the "**Conditions to Consent**"):

- (A) **Public Offer Jurisdiction(s)**: the Public Offer is only made in Ireland and/or the United Kingdom, as specified in the Final Terms (the "**Public Offer Jurisdiction(s)**");
- (B) **Offer Period**: the Public Offer is only made during the offer period specified in the Final Terms (the "**Offer Period**"); and
- (C) **Other**: each of the other conditions (if any) provided in the Final Terms.

The consent referred to above relates to Offer Periods occurring within 12 months from the date of the Base Prospectus.

The Issuer may give consent to one or more additional Authorised Offerors in respect of a Public Offer after the date of the Final Terms, discontinue or change the Offer Period, and/or remove or add conditions to consent and, if it does so, such information will be published at: (<https://home.barclays/investor-relations/fixed-income-investors/prospectus-and-documents/structured-securities-final-terms/>). Any new information with respect to Authorised Offerors unknown at the time of the approval of the Base Prospectus or the filing of the Final Terms will be published and can be found at: (<https://home.barclays/investor-relations/fixed-income-investors/prospectus-and-documents/structured-securities-final-terms/>).

Neither the Issuer nor any Manager has any responsibility for any of the actions of any Authorised Offeror, including their compliance with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to an offer.

Any offer or sale of Securities to an investor by an Authorised Offeror will be made in accordance with any terms and other arrangements in place between such Authorised Offeror and such investor including as to price, allocations and settlement arrangements. Where such information is not contained in the Base Prospectus or Final Terms, it will be the responsibility of the applicable financial intermediary at the time of such offer to provide the investor with that information and neither the Issuer nor any Manager or other Authorised Offeror has any responsibility or liability for such information.

Any Authorised Offeror falling within (b) (*General consent*) above using the Base Prospectus in connection with a Public Offer is required, for the duration of the relevant Offer Period, to publish on its website the Acceptance Statement.

Hyper-links to websites

For the avoidance of doubt, the content of any website to which a hyper-link is provided shall not form part of the Base Prospectus unless that information is incorporated by reference into the Base Prospectus.
