3. REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES

- (a) Reasons for the offer: Green Structured Securities – see (b) below
- (b) Use of proceeds: An amount of funding equal to the net proceeds of the issue of the Securities (as at the date of issuance) will be allocated as funding for the financing and/or re-financing of Eligible Assets.

As provided in the Green Issuance Framework (as at the date of issuance), green projects to be utilized by Barclays Green Issuances ("**Eligible Assets**") are assets which fall into the following eligible activities and which were originated or re-financed up to 36 months prior to the relevant Barclays Green Issuance, and are not otherwise excluded (as set out in the Green Issuance Framework): (i) energy efficiency (including (a) commercial and residential buildings, (b) public services, (c) agricultural processes, (d) transmission and distribution systems, (e) industrial processes and supply chains, and (f) energy efficiency technologies), (ii) renewable energy (including (a) electricity generation, (b) transmission systems, (c) renewable energy technologies, and (d) heat production and thermal energy), (iii) sustainable transport (including (a) vehicle energy efficiency, (b) urban transportation systems and infrastructure, and (c) freight transport), (iv) sustainable food, agriculture, forestry, aquaculture and fisheries (including (a) sustainable forestry, (b) sustainable food and agriculture, (c) sustainable aquaculture and fisheries, and (d) sustainable land use and biodiversity conservation), and (v) resource efficiency and pollution control (including (a) recycling and reuse, (b) circular economy, and (c)

greenhouse gas emission reduction). Eligible Assets must satisfy certain eligibility criteria and meet certain UN Sustainable Development Goals, depending on the relevant category.

A sterling equivalent amount of any net proceeds (as at the date of issuance) which, from time to time, are not allocated as funding for the purpose described above will be invested, at the Issuer's discretion, in cash and short-term and liquid investments and in accordance with its liquidity policy pending allocation as funding towards the financing and/or re-financing of Eligible Assets, as described above. The Issuer does not undertake to ensure that there is at all times a sufficient aggregate amount of Eligible Assets to allow for allocation of funding representing the net proceeds of the issue of the Securities in full.

The criteria of Eligible Assets have been designed by the Issuer to meet the 2021 ICMA Green Bond Principles, the United Nations Sustainable Development Goals as at the date of issuance of the Securities.

Carbon Trust Assurance Limited (who are a qualified and approved Climate Bonds Initiative verifier) has provided a second party opinion in which they have stated their belief that the Issuer's Green Bond Framework, which for the avoidance of doubt, does not include the Barclays Green Index Principles (as defined in the Base Prospectus), complies with the core principles and key recommendations of the 2021 ICMA Green Bond Principles (applicable as at the date of issuance of the Securities).

Carbon Trust Assurance Limited (who are a qualified and approved Climate Bonds Initiative verifier) has produced a report of factual findings dated 29 September 2021 in relation to conformance of the proposed issuance of Securities and the Issuer's Green Bond Framework with the pre-issuance requirements of the Climate Bonds Standard Version 3. On the basis of this report, a Pre-Issuance Certification has been obtained from the Climate Bonds Initiative. Such certification is solely in relation to the proposed use of proceeds and does not apply in respect of the payoff terms of the Securities.

The Issuer will publish an investor report at least annually for each issuance of Securities in line with annual results. It is intended that each investor report will be accompanied by an independent assurance report.

All opinions and assurance reports will be made available on the Issuer's Investor Relations website at <http://home.barclays/greenbonds> (or its successor website).

What are the key risks that are specific to the Issuer?

The Barclays Bank Group has identified a broad range of risks to which its businesses are exposed. Material risks are those to which senior management pay particular attention and which could cause the delivery of the Barclays Bank Group's strategy, results of operations, financial condition and/or prospects to differ materially from expectations. Emerging risks are those which have unknown components, the impact of which could crystallise over a longer time period. In addition, certain other factors beyond the Barclays Bank Group's control, including escalation of terrorism or global conflicts, natural disasters, pandemics and similar events, although not detailed below, could have a similar impact on the Barclays Bank Group.

- **Material existing and emerging risks potentially impacting more than one principal risk:** In addition to material and emerging risks impacting the principal risks set out below, there are also material existing and emerging risks that potentially impact more than one of these principal risks. These risks are: (i) the impact of COVID-19; (ii) potentially unfavourable global and local economic and market conditions, as well as geopolitical developments; (iii) the UK's withdrawal from the EU; (iv) the impact of interest rate changes on the Barclays Bank Group's profitability; (v) the competitive environments of the banking and financial services industry; (vi) the regulatory change agenda and impact on business model; (vii) the impact of climate change on the Barclays Bank Group's business; and (viii) the impact of benchmark interest rate reforms on the Barclays Bank Group.
- **Credit and Market risks:** Credit risk is the risk of loss to the Barclays Bank Group from the failure of clients, customers or counterparties, to fully honour their obligations to members of the Barclays Bank Group. The Barclays Bank Group is subject to risks arising from changes in credit quality and recovery rates of loans and advances due from borrowers and counterparties in any specific portfolio. Market risk is the risk of loss arising from potential adverse change in the value of the Barclays Bank Group's assets and liabilities from fluctuation in market variables.
- **Treasury and capital risk and the risk that the Issuer and the Barclays Bank Group are subject to substantial resolution powers:** There are three primary types of treasury and capital risk faced by the Barclays Bank Group which are (1) liquidity risk – the risk that the Barclays Bank Group is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount of stable funding and liquidity to support its assets, which may also be impacted by credit rating changes; (2) capital risk – the risk that the Barclays Bank Group has an insufficient level or composition of capital; and (3) interest rate risk in the banking book – the risk that the Barclays Bank Group is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its (non-traded) assets and liabilities. Under the Banking Act 2009, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the United Kingdom Prudential Regulation Authority, the UK Financial Conduct Authority and HM Treasury, as appropriate as part of a special resolution regime. These powers enable the Bank of England (or any successor or replacement thereto and/or such other authority in the United Kingdom with the ability to exercise the UK Bail-in Power) (the "Resolution Authority") to implement various resolution measures and stabilisation options (including, but not limited to, the bail-in tool) with respect to a UK bank or investment firm and certain of its affiliates (as at the date of the Registration Document, including the Issuer) in circumstances in which the Resolution Authority is satisfied that the relevant resolution conditions are met.
- **Operational and model risks:** Operational risk is the risk of loss to the Barclays Bank Group from inadequate or failed processes or systems, human factors or due to external events where the root cause is not due to credit or market risks. Model risk is the risk of potential adverse consequences from financial assessments or decisions based on incorrect or misused model outputs and reports.
- **Conduct, reputation and legal risks and legal, competition and regulatory matters:** Conduct risk is the risk of detriment to customers, clients, market integrity, effective competition or the Barclays Bank Group from the inappropriate supply of financial services, including instances of wilful or negligent misconduct. Reputation risk is the risk that an action, transaction, investment, event, decision or business relationship will reduce trust in the Barclays Bank Group's integrity and competence. The Barclays Bank Group conducts activities in a highly regulated market which exposes it and its employees to legal risk arising from (i) the multitude of laws and regulations that apply to the businesses it operates, which are highly dynamic, may vary between jurisdictions, and are often unclear in their application to particular circumstances especially in new and emerging areas; and (ii) the diversified and evolving nature of the Barclays Bank Group's businesses and business practices. In each case, this exposes the Barclays Bank Group and its employees to the risk of loss or the imposition of penalties, damages or fines from the failure of members of the Barclays Bank Group to meet their respective legal obligations, including legal or contractual requirements. Legal risk may arise in relation to any number of the material existing and emerging risks summarised above.

KEY INFORMATION OF THE SECURITIES

What are the main features of the Securities?

Type and class of Securities being offered and admitted to trading, including security identification numbers

The Securities will be in the form of notes and will be uniquely identified by: NX000311648; Tranche number: 1; ISIN: XS2316643860; Common Code: 231664386. The Securities will be cleared and settled through Euroclear Bank S.A./N.V. or Clearstream Banking *société anonyme*.

Currency, specified denomination, issue size and term of the Securities

The Securities will be issued in United States dollars ("USD") (the "Issue Currency") and settled in the same currency (the "Settlement Currency"). The Securities are tradable in nominal and the specified denomination per Security is USD 2,000. The issue size is up to USD 15,000,000. The issue price is 100% of the Specified Denomination.

The issue date is 17 February 2022 (the "Issue Date"). Subject to early termination, the Securities are scheduled to redeem on 24 February 2025 (the "Scheduled Settlement Date").

The Securities are "Green Structured Securities" and "Green Index Linked Securities" and may satisfy certain "green", "sustainable", "social", "ESG" or similar financing objectives.

Rights attached to the Securities

Potential return: The Securities will give each holder of Securities the right to receive potential return on the Securities, together with certain ancillary rights such as the right to receive notice of certain determinations and events and the right to vote on some (but not all) amendments to the terms and conditions of the Securities. The potential return will be in the forms of a Final Cash Settlement Amount, provided that if the Securities are early terminated, the potential return may be in the form of an Early Cash Settlement Amount, instead.

Taxation: All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. In the event that any such withholding or deduction is required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted.

Events of default: If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the holders (and such failure is not remedied within 30 days, or, in the case of interest, 14 days), or the Issuer is subject to a winding-up order, then (subject, in the case of interest, to the Issuer being prevented from payment for a mandatory provision of law) the Securities will become immediately due and payable, upon notice being given by the holder.

Limitations on rights

Early redemption following certain disruption events or due to unlawfulness or impracticability: The Issuer may redeem the Securities prior to their Scheduled Settlement Date following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, or if it determines that the performance of any of its obligations under the Securities is unlawful or physically impracticable. If this occurs, investors will receive an "Early Cash Settlement Amount" equal to the fair market value of the Securities prior to their redemption.

Certain additional limitations:

- Notwithstanding that the Securities are linked to the performance of the Underlying Asset(s), holders do not have any rights in respect of the Underlying Asset(s).
- The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, to monetise the Securities, to postpone valuation of the Underlying Asset(s) or scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the Underlying Asset(s), to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the Underlying Asset(s).
- The Securities contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law

The Securities will be governed by English law and the rights thereunder will be construed accordingly.

Description of the calculation of potential return on the Securities

Underlying Assets: The return on and value of the Securities is dependent on the performance of the following Underlying Asset:

Underlying Asset _(Final Settlement) _(Downside)	Type	Initial Price _(Settlement)	Initial Valuation Date
Solactive climate change Europe BTI (Bloomberg Code: SBTICCPE <Index>)	Index	The Valuation Price of the Underlying Asset on the Initial Valuation Date	17 February 2022

For the purposes of determining the Final Cash Settlement Amount, Underlying Asset shall mean the Underlying Asset_(Final Settlement) and for the purposes of determining the Downside Final Performance and the relevant terms and definitions and the Final Cash Settlement Amount and the relevant terms and definitions, Underlying Asset shall mean the Underlying Asset_(Downside).

Calculation Amount: Calculations in respect of amounts payable under the Securities are made by reference to the "Calculation Amount", being USD 2,000 per Security.

Indicative amounts: If the Securities are being offered by way of a Public Offer and any specified product values are not fixed or determined at the commencement of the Public Offer (including any amount, level, percentage, price, rate or other value in relation to the terms of the Securities which has not been fixed or determined by the commencement of the Public Offer), these specified product values will specify an indicative amount, indicative minimum amount, an indicative maximum amount or indicative amount or any combination thereof. In such case, the relevant specified product value(s) shall be the value determined based on market conditions by the Issuer on or around the end of the Public Offer. Notice of the relevant specified product value will be published prior to the Issue Date.

Determination Agent: Barclays Bank PLC will be appointed to make calculations and determinations with respect to the Securities.

C – Final Settlement

If the Securities have not otherwise redeemed, each Security will be redeemed on the Scheduled Settlement Date by payment of the Final Cash Settlement Amount.

The Scheduled Settlement Date may be postponed following the postponement of the Final Valuation Date due to a disruption event.

The Final Cash Settlement Amount is calculated as follows as the sum of:

- (i) (a) if either (1) the Downside Final Performance is greater than or equal to the Strike Price Percentage ("SPP") (being 100%) or (2) the Downside Final Performance is greater than or equal to the Knock-in Barrier Percentage (being 100%), the Protection Level (being 100%) multiplied by the Calculation Amount; or
- (b) otherwise, the Calculation Amount multiplied by the greater of (1) the Downside Floor (being 95%) and (2) an amount equal to (A) the Protection Level (being 100%) minus (B) the Downside Participation (being 100%) multiplied by the amount equal to the Strike Price Percentage (being 100%) minus the Downside Final Performance,

PLUS

- (ii) if
- (a) the Final Performance is greater than or equal to the Upper Strike Percentage (being 100%), an amount equal to the product of the Calculation Amount and the greater of (I) the Floor (being 0%) and (II) the lesser of (1) the Cap_(Settlement) (being 20%) and (2) the Participation_(Settlement) (being 100%) multiplied by the amount equal to the Final Performance minus the Upper Strike Percentage (being 100%); or
- (b) otherwise, zero.

"Downside Final Performance" or **"DFP"** means the Final Performance in respect of the relevant Downside Underlying Performance Type_(Settlement) and (as applicable) the relevant Downside Underlying Asset(s).

For the avoidance of doubt, references to the Underlying Performance Type_(Settlement) shall be construed as the Downside Underlying Performance Type_(Settlement) and references to, and the definitions of, Final Valuation Price, Final Valuation Date, Initial Price_(Settlement), and related terms shall be construed in respect of the relevant Downside Underlying Asset(s)

"Downside Underlying Asset" means the Underlying Asset_(Downside).

"Final Performance" means the Final Valuation Price divided by the Initial Price_(Settlement).

"Final Valuation Date" means 17 February 2025 subject to adjustment.

"Final Valuation Price" means, in respect of the Underlying Asset, the price in respect of the Underlying Asset on the Final Valuation Date.

Status of the Securities

The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.

Description of restrictions on free transferability of the Securities

The Securities are offered and sold outside the United States to non-U.S. persons in reliance on Regulation S under the Securities Act and must comply with transfer restrictions with respect to the United States. Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system. Subject to the foregoing, the Securities will be freely transferable.

Where will the Securities be traded?

Application is expected to be made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of the Irish Stock Exchange Trading plc as Euronext Dublin.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- You may lose some or all of your investment in the Securities:** The terms of the Securities do not provide for a scheduled minimum payment at maturity and as such, depending on the performance of the Underlying Asset(s), you may lose some or all of your investment. You may also lose some or all of your investment if: (a) you sell your Securities before their scheduled maturity or expiry; (b) your Securities are early redeemed in certain extraordinary circumstances; or (c) the terms and conditions of your Securities are adjusted such that the amount payable or property deliverable to you is less than your initial investment.
- There are risks associated with the valuation, liquidity and offering of the Securities:** The market value of your Securities may be lower than the issue price since the issue price may take into account the Issuer's and/or distributor's profit margin and costs in addition to the fair market value of the Securities. The market value of your Securities may be affected by the volatility, level, value or price of the Underlying Asset(s) at the relevant time, changes in interest rates, the Issuer's financial condition and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity or expiry of the Securities and other factors. The price, if any, at which you will be able to sell your Securities prior to maturity may be substantially less than the amount you originally invested. Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption.
- You are subject to risks associated with the determination of amount payable under the Securities:**

The Final Cash Settlement Amount is based on the performance of the Underlying Asset(s) as at the final valuation date only (rather than in respect of multiple periods throughout the term of the Securities). This means you may not benefit from any movement in level of the Underlying Asset(s) during the term of the Securities that is not maintained in the final performance as at the final valuation date.

As the Final Cash Settlement Amount is subject to a cap, the value of or return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) directly.

The calculation of amount payable depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities. This means you may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases you might receive no interest or coupon payments and/or could lose some or all of your investment.
- Your Securities are subject to adjustments and early redemption:** Pursuant to the terms and conditions of the Securities, following the occurrence of certain disruption events or extraordinary events concerning the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency of the Securities, the Determination Agent or the Issuer may take a number of remedial actions, including estimating the level of the Underlying Asset, substituting the Underlying Asset, and making adjustments to the terms and conditions of the Securities. Any of such remedial action may change the economic characteristics of the Securities and have a material adverse effect on the value of and return on the Securities. If no remedial action can be taken, or it is determined that the performance of any of the Issuer's obligations under the Securities is unlawful or physically impracticable, the Issuer may early redeem the Securities by payment of an Early Cash Settlement Amount. If early redemption occurs, you may lose some or all of your investment because the Early Cash Settlement Amount may be lower than the price at which you purchase the Securities, or may even be zero. You will also lose the opportunity to participate in any subsequent positive performance of the Underlying Asset(s) and be unable to realise any potential gains in the value of the Securities. You may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest or coupon rate for a similar level of risk.

- **Settlement is subject to conditions and may be impossible in certain circumstances:** Payment of the amount payable to you will not take place until all conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Certain settlement disruption events may occur which could restrict the Issuer's ability to make payments, and the date of settlement could be delayed accordingly.
- **Risks relating to Underlying Asset(s) that are equity indices:** Equity indices are composed of a synthetic portfolio of shares and provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. The Securities are linked to equity indices, and as such may not participate in dividends or any other distributions paid on the shares which make up such indices. Accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares. The index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities. Additionally, the name of an index and/or the marketing of Securities linked to such index may describe the index as having "green", "sustainable", "social", "ESG" or similar objectives, including Qualifying Green Equity Indices. Although such term(s) may be used in the title and/or marketing materials, the objectives of the index may not meet investor objectives, expectations or requirements as regarding investments which are "green", "sustainable", "social", "ESG" or similar label.
- **The Underlying Asset(s) are 'benchmarks' for the purposes of the EU Benchmarks Regulation (Regulation (EU) 2016/1011, as amended):** Pursuant to the Benchmarks Regulation, an Underlying Asset may not be used in certain ways by an EU supervised entity after 31 December 2021 if its administrator does not obtain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision or is not "endorsed" by an EU supervised entity). **Risks relating to Securities labelled as "Green Structured Securities":** Whilst it is the intention of the Issuer to allocate an amount equal to the net proceeds of any issue of Green Structured Securities in, or substantially in, the manner described in the prospectus, there is no contractual obligation to do so. Any allocation of such amount equal to the net proceeds accordingly (or any failure to do so) may not meet investor objectives, expectations or requirements as regarding investments which are "green", "sustainable", "social", "ESG" or similar label and therefore there is a risk that an investment in "Green Structured Securities" may not achieve your investment goals.
- **Taxation risks:** The levels and basis of taxation on the Securities and any reliefs for such taxation will depend on your individual circumstances and could change at any time over the life of the Securities. This could have adverse consequences for you and you should therefore consult your own tax advisers as to the tax consequences to you of transactions involving the Securities.
- **Potential conflicts of interest:** Conflicts of interest may exist where Barclays Bank PLC or its affiliate: (i) acts in multiple capacities with respect to the Securities (e.g. acting as issuer, manager and determination agent); (ii) enters into hedging transactions to cover the Issuer's exposure to the relevant cash amounts to be paid or assets to be delivered under the Securities as these fall due; and (iii) uses price contributions from its trading desks as a pricing source for an Underlying Asset. In light of such conflicts, the actions taken or determinations made by Barclays Bank PLC in relation to the Securities may not always be in the best interest of the holders. In addition to hedging transactions, Barclays Bank PLC may trade on the Underlying Asset(s) in the ordinary course of its business. Such trading could affect the market price of the Underlying Asset(s), which may in turn materially adversely affect the value and return on your Securities.

Quais são os principais riscos específicos do emitente?				
<p>O Barclays Bank Group identificou um vasto leque de riscos aos quais os seus negócios estão expostos. Os riscos materiais são aqueles para os quais os quadros superiores da administração prestam uma atenção especial e que podem levar a que a estratégia, resultados operacionais, condição financeira e/ou perspectivas do Barclays Bank Group sejam materialmente diferentes das expectativas. Riscos emergentes são aqueles que possuem componentes desconhecidos, cujo impacto se pode cristalizar durante um período mais longo. Além disso, certos outros fatores fora do controlo do Barclays Bank Group, incluindo uma escalada de terrorismo ou de conflitos globais, desastres naturais, surtos epidémicos e eventos semelhantes, embora não detalhados abaixo, podem ter um impacto semelhante no Barclays Bank Group.</p> <ul style="list-style-type: none"> • Riscos materiais existentes e emergentes que impactam potencialmente mais de um risco principal Para além dos riscos materiais e emergentes que afetam os principais riscos descritos abaixo, também existem riscos materiais existentes e emergentes que potencialmente afetam mais do que um desses riscos principais. Estes riscos são: (i) condições económicas e de mercado global e local potencialmente desfavoráveis, bem como desenvolvimentos geopolíticos; (ii) o impacto da COVID-19; (iii) o processo de retirada do Reino Unido da UE; (iv) o impacto das mudanças nas taxas de juros na rentabilidade do Barclays Bank Group; (v) os ambientes competitivos 				

do setor de serviços bancários e financeiros; (vi) a agenda de mudanças regulatórias e o impacto no modelo de negócios; (vii) o impacto das mudanças climáticas nos negócios do Barclays Bank Group; e (viii) o impacto das reformas das taxas de juros de referência no Barclays Bank Group.

- **Risco de crédito e de mercado:** O risco de crédito é o risco de perda para o Barclays Bank Group decorrente do incumprimento dos clientes ou congeneres em cumprir integralmente as suas obrigações para com os membros do Barclays Bank Group. O Barclays Bank Group está sujeito a riscos resultantes de alterações na Qualidade de crédito e taxas de recuperação de empréstimos e adiantamentos devidos de credores e congeneres em qualquer carteira específica. O risco do mercado é o risco de perda decorrente de potenciais alterações adversas no valor dos ativos e passivos do Barclays Bank Group em virtude de flutuações nas variáveis do mercado.
- **Risco do tesouro e de capital e o risco de o Emitente e do Barclays Bank Group serem sujeitos a poderes de resolução substanciais:** Existem três riscos principais de risco do tesouro e do capital que o Barclays Bank Group enfrenta e são (1) risco de liquidez – o risco de que o Barclays Bank Group não consiga cumprir as suas obrigações contratuais e contingentes ou que não tenha o montante adequado de financiamento e liquidez estáveis para suportar os seus ativos, que também pode ser afetado pelas alterações na notação de crédito; (2) risco de capital – o risco de que o Barclays Bank Group tenha um nível insuficiente ou composição de capital e (3) o risco de taxa de juro nos registos bancários – o risco de que o Barclays Bank Group seja exposto à volatilidade de capital ou receita devido a uma discrepância entre as exposições a taxas de juro dos seus ativos e passivos (não transacionados). Ao abrigo da Lei Bancária de 2009, foram concedidos poderes substanciais ao Banco de Inglaterra (ou, em determinadas circunstâncias, ao HM Treasury), em consulta com a Autoridade Reguladora Prudencial do Reino Unido, a Autoridade de Conduta Financeira do Reino Unido e o HM Treasury, conforme adequado, como parte de um regime de resolução especial. Estes poderes permitem que o Banco de Inglaterra (ou qualquer sucessor ou substituição do mesmo e/ou qualquer autoridade similar no Reino Unido com a capacidade de exercer o Poder de Resgate no Reino Unido) (a "Autoridade de Resolução") para implementar várias medidas de resolução e opções de estabilização (incluindo, mas sem limitação, a ferramenta de resgate) relativamente a um banco do Reino Unido ou firma de investimento e respetivas sucursais (à data do Documento de Registo, incluindo o Emitente) em circunstâncias nas quais a Autoridade de Resolução concorde que as condições de resolução relevantes são satisfeitas.
- **Riscos operacionais e de modelo:** O risco operacional é o risco de perda para o Barclays Bank Group decorrente de processos ou sistemas inadequados ou fáltoos, fatores humanos ou devido a eventos externos em que a causa fundamental não se deva a riscos de crédito ou de mercado. O risco do modelo é o risco de potenciais consequências adversas de avaliações ou decisões financeiras com base em resultados ou relatórios de modelos incorretos ou indevidamente utilizados.
- **Risco de conduta, reputação e legal e matérias jurídicas, da concorrência e regulamentares:** O risco de conduta é o risco de dano para os clientes, integridade do mercado, concorrência efetiva ou a incapacidade de o Barclays Bank Group fornecer adequadamente serviços financeiros, incluindo os casos e conduta indevida voluntária ou negligente. O risco de reputação é o risco de que uma ação, transação, investimento, evento, decisão ou relação empresarial reduza a confiança na integridade e competência do Barclays Bank Group. O Barclays Bank Group realiza atividade num mercado altamente regulamentado o que expõe a riscos legais decorrentes da (i) multitude de leis e regulamentos que se apliquem aos negócios em que opera, que são altamente dinâmicos, que podem variar entre jurisdições e geralmente não são claros na sua aplicação em circunstâncias particulares, especialmente em áreas novas e emergentes; e (ii) a natureza diversificada e em evolução dos negócios e práticas de negócio do Barclays Bank Group. Em cada caso, isto expõe o Barclays Bank Group ao risco de perda ou imposição de penalizações, danos ou multas pelo não cumprimento por parte de membros do Barclays Bank Group das suas respetivas obrigações legais, incluindo requisitos legais ou contratuais. O risco legal pode surgir em relação a vários fatores tal como resumidos supra.

Lei aplicável

Os Valores Mobiliários serão regidos pela lei inglesa e os direitos decorrentes serão interpretados de acordo com esta.

Descrição do cálculo do potencial retorno sobre os Valores Mobiliários

Ativos subjacentes: O retorno sobre e o valor dos Valores Mobiliários dependem do desempenho (seguindo um "**Ativo Subjacente**").

Ativo Subjacente ^(Liquidação Final) _(Downside)	Tipo	Preço inicial ^(Liquidação)	Data da Avaliação Inicial
Solactive climate change Europe BTI (Código Bloomberg: SBTICCP <Índice>)	- Índice	O preço de valorização do Ativo Subjacente na Data de Avaliação Inicial	17 de fevereiro de 2022

Para efeitos de determinação do Montante de Liquidação Final em Numerário, entende-se por Ativo Subjacente o Ativo Subjacente^(Liquidação Final) e para efeitos de determinação do Desempenho Final *Downside* e dos termos e definições relevantes Ativo Subjacente deve significar o Ativo Subjacente_(Downside).

Montante de cálculo: Os cálculos referentes aos valores a pagar de acordo com os Valores Mobiliários são feitos por referência ao Montante do Cálculo, sendo USD 2,000 por cada Valor Mobiliário.

Montantes indicativos: Se os Valores Mobiliários estiverem sendo oferecidos por meio de uma Oferta Pública e quaisquer valores de produtos especificados não forem fixos ou determinados no início da Oferta Pública (incluindo qualquer valor, nível, percentagem, preço, taxa ou outro valor em relação a os termos dos Valores Mobiliários que não tenham sido fixados ou determinados pelo início da Oferta Pública), estes valores de produtos especificados especificarão um montante indicativo, um montante mínimo indicativo, um montante máximo indicativo ou montante indicativo ou qualquer combinação destes. Nesse caso, o(s) valor(es) relevante(s) do produto especificado(s) será(ão) o valor determinado com base nas condições de mercado pela Emissora no ou próximo ao final da Oferta Pública. O aviso do valor do produto especificado relevante será publicado antes da Data de Emissão.

Agente de Determinação: O Barclays Bank PLC será nomeado para fazer cálculos e determinações em relação aos Valores Mobiliários.

C - Liquidação final

Se os Valores Mobiliários não tiverem sido resgatados de outra forma, cada Valor Mobiliário será resgatado na Data de Liquidação Programada mediante o pagamento do Montante Final da Liquidação em Numerário. A Data de Liquidação Programada pode ser adiada após o adiamento da Data de Avaliação Final devido a um evento de interrupção.

O Montante da Liquidação Final em Numerário é calculado da seguinte forma, sendo a soma de:

- (i) (a) se (1) o Desempenho Final *Downside* for maior ou igual à Preço do Exercício (PE) (sendo 100%) ou (2) o Desempenho Final *Downside* for maior ou igual à Barreira de Knock-in em Percentagem (sendo 100%), o Nível de Proteção (sendo 100%) multiplicado pelo Montante do Cálculo ou (b) caso contrário, o Montante do Cálculo multiplicado pelo maior entre (1) o Mínimo Protegido (sendo 95%) e (2) um montante igual a (A) o Nível de Proteção (sendo 100%) menos (B) a Participação Dowside (sendo 100%) multiplicado pelo montante igual à Preço do Exercício (100%) menos o Desempenho Final *Downside*.

MAIS

(ii) se:

- (a) o Desempenho Final for superior ou igual à Preço do Exercício Superior (100%), um montante igual ao produto do Montante de Cálculo e o maior entre (I) o Chão (0%) e (II) o mínimo entre (1) o Teto (Liquidação) (20%) e (2) a Participação (Liquidação) (100%) multiplicado pelo montante igual ao Desempenho Final menos a Preço do Exercício Superior (100%); ou

- (b) caso contrário, zero.

O "**Desempenho Final Downside**" ou "**DFD**" significa o Desempenho Final relativamente ao Tipo de Desempenho Subjacente Downside (Liquidação) e (conforme aplicável) o(s) Ativo(s) Subjacente_(Downside).

A fim de evitar dúvidas, as referências a Tipo de Desempenho Subjacente (Liquidação) deverão ser interpretadas como o Tipo de Desempenho Subjacente Downside (Liquidação) e as referências a (e respectivas definições) de Preço de Avaliação Final, Data de Avaliação Final, Preço Inicial (Liquidação) e termos relacionados deverão ser interpretados relativamente ao(s) Ativo(s) Subjacente_(Downside).

"**Ativo Subjacente de Downside**" significa o Ativo Subjacente_(Downside).

"**Desempenho Final**" significa o Preço de Avaliação Final dividido pelo Preço Inicial (Liquidação).

"**Data de Avaliação Final**" significa 17 de fevereiro de 2025, sujeita a ajustes.

"**Preço de Avaliação Final**" significa, relativamente ao Ativo Subjacente, o preço relativamente ao Ativo Subjacente na Data de Avaliação Final.

Situação dos valores mobiliários: Os Valores Mobiliários são obrigações diretas, não subordinadas e não garantidas da Emissora e têm a mesma classificação entre si.

Descrição das restrições à livre transferibilidade dos Valores Mobiliários:

Os Valores Mobiliários são oferecidos e vendidos fora dos Estados Unidos a pessoas fora dos EUA, de acordo com o Regulamento S, de acordo com a Lei de Valores Mobiliários, e devem cumprir as restrições de transferência com relação aos Estados Unidos. Os valores mobiliários mantidos num sistema de compensação serão transferidos de acordo com as regras, procedimentos e regulamentos desse sistema de compensação. Sujeito ao acima exposto, os Valores Mobiliários serão livremente transferíveis.

Onde serão os Valores Mobiliários negociados?

É esperado que o Emitente (ou em seu nome) solicite que os Valores Mobiliários sejam admitidos à negociação no mercado regulamentado da Irish Stock Exchange Trading plc como Euronext Dublin.

Quais são os principais riscos que são específicos aos Valores Mobiliários?

Os Valores Mobiliários estão sujeitos aos seguintes riscos principais:

- **Poderá perder parte ou todo o seu investimento nos Valores Mobiliários:** Os termos dos Valores Mobiliários não preveem um pagamento mínimo programado ao atingir a maturidade, como tal, dependendo do desempenho dos Ativo(s) Subjacentes, poderá perder parte ou todo o seu investimento. Também poderá perder parte ou todo o seu investimento se: (a) vender os seus Valores Mobiliários antes do seu vencimento ou maturidade programada; (b) os seus Valores Mobiliários devem ser resgatados antecipadamente em determinadas circunstâncias extraordinárias; ou (c) os termos e condições dos seus Valores Mobiliários sejam ajustados de modo que o valor a pagar ou a propriedade a entregar seja menor que o seu investimento inicial.
- **Existem riscos associados à avaliação, liquidez oferta dos Valores Mobiliários:** O valor de mercado dos seus Valores Mobiliários pode ser menor que o preço de emissão, uma vez que o preço de emissão pode ter em consideração a margem de lucro e os custos do Emitente e/ou distribuidor, além do valor justo de mercado dos Valores Mobiliários. O valor de mercado dos seus Valores Mobiliários poderá ser afetado pela volatilidade, nível, valor ou preço dos Ativo(s) Subjacentes no momento relevante, por alterações às taxas de juros, pela condição financeira e classificações de crédito do Emitente, pela oferta e procura dos Valores Mobiliários, o tempo restante até o vencimento ou maturidade dos Valores Mobiliários e outros fatores. O preço, se algum, pelo qual poderá vender os seus Valores Mobiliários antes da maturidade pode ser substancialmente menor do que o valor que investiu inicialmente. Os seus Valores Mobiliários poderão não ter um mercado de negociação ativo e o Emitente poderá não ter nenhuma obrigação de criar um mercado ou de voltar a comprar os Valores Mobiliários antes do resgate.
- **Está sujeito a riscos associados à determinação do montante a pagar sob os Valores Mobiliários:**

O Montante de Liquidação Final em Numerário é baseado no desempenho do(s) Ativo(s) Subjacente(s) apenas na data de avaliação final (em vez de em relação de vários períodos ao longo do termo des. Isto significa que, você não possa se beneficiar de qualquer movimento no nível do(s) Ativo(s) Subjacente(s) durante o prazo dos Valores Mobiliários que não seja mantido mesmo no desempenho final no fim da data de avaliação final.

Como o Montante de Liquidação Final em Numerário está sujeito a um limite, o valor ou retorno dos seus Valores Mobiliários pode ser significativamente inferior do que se tivesse adquirido diretamente o(s) Ativo(s) Subjacente(s).

O cálculo do valor a pagar depende do nível, valor ou preço do(s) Ativo(s) Subjacente(s) que atingem ou cruzam uma 'barreira' durante um período especificado ou datas especificadas durante o prazo dos outros constituintes é negativo em maior medida. Isso significa que você pode receber menos (ou, em certos casos, mais) se o nível, valor ou preço do(s) Ativo(s) Subjacente(s) cruzar ou atingir (conforme o caso) uma barreira, do que se chegar perto da barreira, mas não o alcançá ou cruzá (conforme aplicável) e, em certos casos, você pode não receber nenhum pagamento de juros ou cupom e / ou pode perder parte ou todo o seu investimento.

- **Os seus Valores Mobiliários estão sujeitos a ajustes e ao resgate antecipado:** De acordo com os termos e condições dos Valores Mobiliários, após a ocorrência de certos eventos de interrupção ou eventos extraordinários relacionados com o Emitente, os seus acordos de cobertura de posições, Ativos Subjacentes, tributação ou a divisa relevante dos Valores Mobiliários, o Agente de Determinação ou o Emitente e poderão tomar um conjunto de ações corretivas, incluindo a estimativa do nível dos Ativo(s) Subjacentes, substituição dos Ativo(s) Subjacentes e ajustes nos termos e condições dos Valores Mobiliários. Qualquer uma dessas medidas corretivas pode alterar as características económicas dos Valores Mobiliários e ter um efeito adverso relevante no valor e no retorno dos Valores Mobiliários. Se nenhuma ação corretiva puder ser tomada ou se for determinado que o desempenho de qualquer uma das obrigações do Emitente sob os Valores Mobiliários é ilegal ou fisicamente impraticável, o Emitente poderá resgatar antecipadamente os Valores Mobiliários mediante o pagamento de um Valor de Liquidação Antecipada. Se ocorrer um resgate antecipado, poderá perder parte ou todo o seu investimento porque o Montante da Liquidação Antecipada em Numerário poderá ser menor que o preço pelo qual comprou os Valores Mobiliários, podendo inclusive ser zero. Perderá também a oportunidade de participar em qualquer desempenho positivo subsequente dos Ativos Subjacentes e não poderá obter quaisquer ganhos potenciais no valor dos Valores

Mobiliários. Poderá não conseguir reinvestir os recursos de um investimento com um retorno comparável e/ou com uma taxa de juros ou de cupão comparável para um nível de risco semelhante.

- **A liquidação está sujeita a condições e pode ser impossível em certas circunstâncias:** O pagamento do valor devido a você não ocorrerá até que todas as condições de liquidação tenham sido integralmente satisfeitas. Nenhum valor adicional será pago a você pelo Emissor devido a qualquer atraso ou adiamento resultante. Certos eventos de interrupção da liquidação podem ocorrer, o que pode restringir a capacidade do Emitente de fazer pagamentos, e a data da liquidação pode ser atrasada em conformidade.
- **Riscos relacionados ao (s) ativo (s) subjacente (s) que são índices de ações:** os índices de ações são compostos por uma carteira sintética de ações e fornecem oportunidades de diversificação de investimento, mas estarão sujeitos ao risco de flutuações nos preços das ações e no valor e volatilidade dos respectivos índice de ações. Os Valores Mobiliários estão atrelados a índices de ações e, como tal, não podem participar de dividendos ou quaisquer outras distribuições pagas sobre as ações que compõem tais índices. Consequentemente, você pode receber um retorno sobre os Valores Mobiliários menor do que teria recebido se tivesse investido diretamente nessas ações. O patrocinador do índice pode adicionar, excluir ou substituir os componentes de um índice de ações a seu critério, e também pode alterar a metodologia usada para calcular o nível desse índice. Estes eventos podem ter um impacto prejudicial no nível desse índice, o que, por sua vez, pode ter um impacto negativo no valor e na rentabilidade dos Valores Mobiliários. Além disso, o nome de um índice e/ou o marketing de Valores Mobiliários ligados a esse índice pode descrever o índice como tendo objetivos "verdes", "sustentáveis", "sociais", "ESG" ou similares, incluindo Índices de Ações que Qualifiquem como Verdes. Embora tais termos possam ser utilizados no título e/ou materiais de marketing, os objetivos do índice podem não satisfazer os objetivos, expectativas ou requisitos do investidor no que respeita a investimentos que sejam "verdes", "sustentáveis", "sociais", "ESG" ou semelhantes.
- **O (s) Ativo (s) Subjacente (s) são 'benchmarks' para os fins do Regulamento de Benchmarks da UE (Regulamento (UE) 2016/1011, conforme alterado):** De acordo com o Regulamento de Benchmarks, um Ativo Subjacente não pode ser usado de certas maneiras por uma UE entidade supervisionada após 31 de dezembro de 2021 se o seu administrador não obtiver autorização ou registo (ou, se for uma entidade não pertencente à UE, não cumprir as condições de "equivalência" e não for "reconhecida" na pendência de uma decisão de equivalência ou não for "aprovada" por entidade supervisionada da UE).
- **Riscos relativos a Valores Mobiliários rotulados como "Valores Mobiliários Estruturados Verdes":** Embora seja a intenção do Emitente alocar um valor igual ao produto líquido de qualquer emissão de Valores Mobiliários Estruturados Verdes na, ou substancialmente na, forma descrita no prospecto, não há obrigação contratual de o fazer. Qualquer alocação de tal montante igual ao produto líquido em conformidade (ou qualquer falha em fazê-lo) pode não atender aos objetivos, expectativas ou requisitos relativos a investimentos que são "verdes", "sustentáveis", "sociais", "ESG" ou com rótulo semelhante e, portanto, existe o risco de que um investimento em "Valores Mobiliários Estruturados Verdes" não atinja as suas metas de investimento.
- **Riscos de tributação:** os níveis e a base da tributação dos Valores Mobiliários e quaisquer isenções para tal tributação dependerão das suas circunstâncias individuais e podem mudar a qualquer momento durante a vida dos Valores Mobiliários. Isso pode ter consequências adversas para você e, portanto, você deve consultar seus próprios consultores tributários quanto às consequências fiscais para você de transações envolvendo os Valores Mobiliários.
- **Potenciais conflitos de interesse:** podem existir conflitos de interesse quando o Barclays Bank PLC ou sua afiliada: (i) actua em múltiplas capacidades em relação aos Valores Mobiliários (por exemplo, actuando como emissor, gestor e agente de determinação);(ii) celebra transações de hedge para cobrir a exposição do Emitente aos valores em dinheiro relevantes a serem pagos ou activos a serem entregues nos termos dos Valores Mobiliários no vencimento; e (iii) usa contribuições de preços de suas mesas de negociação como uma fonte de preços para um Ativo Subjacente. À luz de tais conflitos, as ações tomadas ou determinações feitas pelo Barclays Bank PLC em relação aos Valores Mobiliários podem nem sempre ser no melhor interesse dos titulares. Para além das transações de cobertura, o Barclays Bank PLC pode negociar no (s) Activo (s) Subjacente (s) no decurso normal dos seus negócios. Tal negociação pode afetar o preço de mercado do (s) Activo (s) Subjacente (s), o que pode, por sua vez, afetar de maneira adversa e relevante o valor e o retorno de seus Valores Mobiliários.
